Pieter Bruegel the Elder Walter S. Gibson, 1991 **Pieter Bruegel the Elder** Pieter Bruegel, 2001 Pieter Bruegel the Elder 1525-30-1569 was a remarkable draftsman and designer of prints as well as a great painter. His independent drawings and designs for engravings and etchings which were carried out by the leading printmakers of his day have fascinated scholars and the general public alike since they were created. They have recently been the subject of research that has given rise to a reevaluation of the parameters of Bruegel's oeuvre. The new scholarship has been brought to bear in the texts of the present volume which accompanies a major exhibition of 140 of Bruegel's prints and drawings to be shown at the Museum Boijmans Van Beuningen Rotterdam from May to August 2001 and at The Metropolitan Museum of Art New York from September to December 2001. An international group of experts discusses the new Bruegel who has emerged from recent studies in essays on the artist's life, his contributions as a draftsman and as a printmaker, the survival of his art and his relationship to the humanism of his day. They also illuminate his genius in entries on all the works in the exhibition. Every work is illustrated and rich comparative illustrations are included. Provenances and **Pieter Bruegel the Elder** Walter S. Gibson, 1994 **Pieter Bruegel and the Art of Laughter** Walter S. Gibson, 2006-02 In this delightfully engaging book Walter S. Gibson takes a new look at Bruegel, arguing that the artist was no erudite philosopher but a man very much in the world and that a significant part of his art is best appreciated in the context of humour. *Before Bruegel* Alison Stewart, 2017-07-05 Peasant festival imagery began in sixteenth-century Nuremberg when the city played host to a series of religious and secular festivals. The peasant festival images were first produced as woodcut prints in the decade between 1524 and 1535 by Sebald Beham. These peasant festival prints show celebrating in a variety of ways including dancing, eating and drinking and playing games. In *Before Bruegel* Alison Stewart takes a fresh look at these images and explores them within their historical and cultural contexts, including the introduction of the Lutheran Reformation into the town's institutions and the accompanying re-evaluation of the town's popular festivals. Stewart goes beyond the black and white approaches of previous interpretations to examine the festival prints in a more complex manner. In the first publication of its kind Stewart makes the case for a range of meanings these works held for a sixteenth-century audience and for Beham's pictorial inventiveness and his business savvy. Beham is credited with inventing the subject of peasant festivals in Northern Renaissance art and for creating a market for the subject by the middle of the sixteenth century with his large-scale woodcuts at Nuremberg and with tiny engravings at Frankfurt. Stewart shows that the market Beham created for prints with the theme of peasant festivals paved the way for Pieter Bruegel's Netherlandish paintings of the same theme dating but a few years later.
