Political Rights For European Citizens:

Women's Citizenship and Political Rights S. Hellsten, A. Holli, K. Daskalova, 2005-11-29 Combining research theory and practice pan European perspectives and the disciplines of human rights sociology and politics this book offers a rare insight into the multiplicity of issues surrounding women s equality citizenship and political rights in transitional Europe and an expanding European Union From policy making to civil rights domestic violence and education experienced authors present innovative research analysis and suggestions for the future of women as participants in an evolving Europe **Political Identification in Europe** Amanda Machin, Nadine Meidert, 2021-03-15 In recent years Europe has been buffeted by a series of contested crises that seemingly undermine and overwhelm its institutions and ideals the economic shocks of 2008 the open disputes over migration the political uncertainty generated by Brexit and the inroads made by various populist and nationalist parties into government **EU Citizens' Economic Rights in Action** Sybe de Vries, Elena Ioriatti, Paolo Guarda, Elisabetta Pulice, 2018-10-26 Ever since its inception one of the essential tasks of the EU has been to establish the internal market Despite the impressive body of case law and legislation regarding the internal market legal and factual barriers still exist for citizens seeking to exercise their full rights under EU law This book analyses these barriers and proposes ways in which they may be overcome Next to analysing the key barriers to exercising economic rights more generally this book focuses on three areas which represent the applications of the four basic freedoms consumer rights the rights of professionals in gaining access to the market and intellectual property rights in the Digital Single Market With chapters from leading researchers the main pathways towards the reduction and removal of these barriers are considered Taking into account important factors including the global financial crisis as well as practical barriers such as multilingualism the solutions provided in this book present a pathway to enhance cross border realization of European citizens access to their economic rights as well as increasing in the cultural richness of the EU EU Citizens Economic Rights in Action is an important book which will be an essential resource for students of EU citizenship and economics as well as for EU policymakers and practitioners interested in the field EU Citizenship and Federalism Dmitry Kochenov, 2017-04-13 Leading experts in EU constitutional law examine the foundational importance of citizenship rights in delimiting the scope of EU law *Citizenship, Democracy and Justice in the New Europe* Percy B. Lehning, Albert Weale, 2005-08-04 The contributors to this study address the question of how political theory is relevant to the construction of new Europe and the tie in issues of citizenship social justice and political legitimacy By using techniques of contemporary political theory the book argues that the emergence of new Europe poses fundamental questions of value and principle and challenges more established political theories in the process *The Rise and Decline of Fundamental Rights in EU Citizenship* Adrienne Yong, 2019-03-21 This book argues that there is an inherent relationship between EU fundamental rights and EU citizenship they both have the same objective of guaranteeing protection for the individual This is underpinned by the development of

case law in the field by the Court of Justice of the EU CJEU Here however the author proposes that that relationship has weakened in recent years as the CJEU has entered increasingly sensitive territory in regard to the protection of citizenship rights and fundamental rights Writing in the post UK EU referendum environment the author argues that this decline is attributable to increasing Euroscepticism which has worsened since the Eurozone crisis and even more so in light of Brexit and arguments made that leaving the EU would reduce immigration This argument is particularly important to note given the rising fears of immigration that underlie much of the dissatisfaction with the EU project a feeling prevalent not only in the UK The chapters look at the rights of migrant EU citizens in Member States other than their own and the guarantees that exist as a matter of protecting their fundamental human rights which are present alongside rights enjoyed as part of being an EU citizen

Handbook of Political Citizenship and Social Movements Hein-Anton van der Heijden, 2014-10-31 This Handbook uniquely collates the results of several decades of academic research in these two important fields The expert contributions successively address the different forms of political citizenship and current approaches and recent development

European Citizenship and Identity Outside of the European Union Agnieszka Weiner, 2019-06-27 This book critically engages with the concept of European identity and citizenship and the role of the European Union in diaspora membership and emigration policies It presents original research on European governance of emigration and citizenship and considers European integration in a global context It questions whether there can be a European diaspora outside the European Union if European governance of emigration is possible and whether the EU can or should govern its diasporas in the global era By engaging with concepts of European citizenship diaspora and identity the author examines the weak meaning of Europe for EU nationals living abroad and finds that European public spaces present and sustained within the European Union territory are largely not exported outside of it Equal treatment and equal rights become empty concepts for Europeans leaving the European Union as they lose their European citizenship This book will be of key interest to scholars and students of European Union politics European studies migration studies American and Canadian studies and the sociology of migration

Political Theory and the European Union Michael Nentwich, Albert Weale, 2003-09-02 The contributors to this book examine the issues of constitutional choice that face the governments and citizens of today's Europe Divided into three sections this study addresses questions of political legitimacy and the meaning of democratic deficit in the EU the reality of what institutional reforms and decision making processes are possible and the rights of citizenship and values that should be protected

EU Citizenship at the Edges of Freedom of Movement Katarina Hylltén-Cavallius, 2020-11-26 This book critically analyses the case law on EU citizenship in relation to its personal free movement rights its status on the primary law level and EU fundamental rights protection The book exposes the legal space where EU citizenship variably loses or gains legal relevance and questions how this space can be overcome Through a thorough analysis of the core personal free movement rights of residence family reunification equal treatment and equal

political participation the book demonstrates how the development of the case law of the Court of Justice of the European Union has generated a two tiered legal concept of EU citizenship Depending on the nature of the legal claim at hand EU citizenship may appear as a poor legal personhood for exercising free movement rights sometimes pushing the individual who is in a factual cross border situation out of the scope of Union law Contrastingly in other strands of the jurisprudence we see EU citizenship and its primary law levelled rights stretch the jurisdictional scope of Union law triggering the EU s Charter of Fundamental Rights for review of the individual case The book enhances the understanding of the legal concept of EU citizenship in Union law and contributes to the debate on the future development of EU citizenship its relationship to the Charter and the strength of its legal position for the person who exercises freedom of movement

EU Citizenship Law Niamh Nic Shuibhne, 2023 European Union citizenship is a novel and complex legal status Since its formal conception in the Maastricht Treaty EU citizenship has catalysed an extraordinary and ongoing legal experiment the development and implications of which are traced comprehensively throughout this book EU Citizenship Law articulates explains and analyses the legal framework and legal developments that have shaped the status of EU citizenship and the rights that it confers on Member State nationals By examining how the rights and responsibilities produced by EU citizenship relate to other rights

conferred by EU law the distinctive meaning and scope the added legal value of EU citizenship is uncovered But the legal story examined here sits in deeper and wider economic political social and emotional contexts because EU citizenship is also an idea a vector of European integration collective personhood and multi layered identities that reflects the paradoxically inclusive and exclusive qualities of citizenship more generally EU citizenship challenges us to consider the worth and deepen the protection of the person and to shape a European Union where principles and values really matter Thorough yet accessible this work provides a comprehensive legal reference point for the progression of debates about what EU citizenship law actually is and for the continuing study and practice of EU citizenship la *EU Citizenship Beyond Urban Centres* Astrid Lorenz, Lisa H. and EU migrants Based on a survey carried out in Germany Spain Poland and Turkey the authors argue that the requirements for a socially integrated Europe are largely in place already Their findings allow for optimism regarding the future of the EU as the cultural foundations for a democratisation of Europe are laid This volume develops a theoretical framework of a socially integrated European community and will be useful for students and scholars of sociology citizenship studies social policy political science and European studies
