The Media, the President, and Public Opinion William J. Gonzenbach,2013-04-03 Using a broadened conceptualization of

agenda setting this volume's objective is to examine the drug issue from mid 1984 to mid 1991 to determine how drug related issues and events both real and fabricated and the primary agendas drove the issue over time Based on this objective four questions are posed How did the media structure interpretations of drug issues and events How did the president structure public relations interpretations and presentations of issue and event information over time What were the interactions of the drug issue agendas the president's public relations agendas the media and the public while controlling the policy agenda and a real world measure of the severity of the drug problem How did the relationships of these agendas differ during the Reagan and Bush presidencies These questions were addressed with detailed content analyses of the media agenda over time the presidential public relations agenda over time and a multivariate ARIMA analysis of the time series agendas No previous studies to date have addressed and modeled these agendas simultaneously with ARIMA modeling methods

Media, Public Discourse and Political Contestation in Zimbabwe Henning Melber, 2004 The current situation in Zimbabwe under the ZANU PF government shows increasing signs of abuse of power by those in political control They also direct their desire to suppress criticism towards the media Press organizations in private ownership have been closed down and journalists have been physically harassed arrested and expelled Laws are abused to regulate and manipulate public opinion by a policy of banning Worldwide condemnation of the growing restrictions upon the freedom of expression goes hand in hand with the protests inside the country against the growing tendencies of totalitarian rule Current events are critically reflected upon and the background to these developments is summarized in this publication It is based on some of the contributions to a recent conference on Zimbabwe organized by the Nordic Africa Institute and offers insights into the contested space of public opinion in Zimbabwe The critical analyses of current developments are there by complemented with particular reference to the media sector in the ongoing battle for hegemonic control over the public sphere

The Oxford Handbook of Public Policy Michael Moran, Martin Rein, Robert E. Goodin, 2008-06-13 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines Public policy is the business end of political science It is where theory meets practice in the pursuit of the public good Political scientists approach public policy in myriad ways Some approach the policy process descriptively asking how the need for public intervention comes to be perceived a policy response formulated enacted implemented and all too often subverted perverted altered or abandoned Others approach

public policy more prescriptively offering politically informed suggestions for how normatively valued goals can and should be pursued either through particular policies or through alternative processes for making policy Some offer their advice from the Olympian heights of detached academic observers others as engaged scholars cum advocates while still others seek to instil more reflective attitudes among policy practitioners themselves toward their own practices The Oxford Handbook of Public Policy mines all these traditions using an innovative structure that responds to the very latest scholarship Its chapters touch upon institutional and historical sources and analytical methods how policy is made how it is evaluated and how it is constrained In these ways the Handbook shows how the combined wisdom of political science as a whole can be brought to bear on political attempts to improve the human condition

The Public Life of Australian Multiculturalism Anthony Moran,2016-11-26 This book argues that in a globalising world in which nation states have to manage population flows and intensifying cultural diversity within their borders multicultural policy and approaches have never been more important The author takes an extended case study approach examining Australia s experiments with pragmatic forms of multiculturalism and multicultural policy since the early 1970s up to the present The Public Life of Australian Multiculturalism challenges some larger assumptions about multiculturalism either that it undermines national identity or that it is and should strive to be a post national approach to

identity issues Instead it argues that framing multiculturalism by inclusive national identity has been the key to multiculturalism's continuity and general success in Australia The book also directly challenges the claim that we have entered a post multicultural world making a case instead for the continuing relevance of pragmatic approaches to multiculturalism Students and scholars researching in sociology politics migration multiculturalism ethnic and racial studies nationalism and identity studies will find this study of interest
