## **Realist At War:**

**The Tripartite Realist War: Analysing Russia's Invasion of Ukraine** Danny Singh, 2023-07-02 The book offers a detailed analysis on Russia's invasion of Ukraine. A book needs to be written on this to make sense from a theoretical perspective why this invasion has occurred and what the main actors are pursuing. The originality rests on testing main international relations theories: realism, liberalism, and constructivism to the war that emerges with the practices and approaches during the Cold War to date from the North Atlantic Treaty Organisation (NATO), the Soviet Union, and now Russia and Ukraine. The monograph commences with a historical overview of NATO and how it has engaged in expansionism policy to further contain Russia in contemporary international affairs with the accession of additional former Soviet states. This helps to explain the current Russian invasion of Ukraine that would attract great readership. The main argument presented rests on the pursuance of realist interests by NATO, Ukraine, and Russia for containment, national security interests, and as a response to the security dilemma respectively. This has served as the main catalyst of this conflict that has made diplomacy, international law, and collective security measures problematic to implement.

*The Problem of American Realism* Michael Davitt Bell, 1993-04-15 Ever since William Dean Howells declared his realism war in the 1880s, literary historians have regarded the rise of realism and naturalism as the great development in American post-Civil War fiction. Yet there are many problems with this generalization. It is virtually impossible, for example, to extract from the novels and manifestoes of American writers of this period any consistent definitions of realism or naturalism as modes of literary representation. Rather than seek common traits in widely divergent realist and naturalist literary works, Michael Davitt Bell focuses here on the role that these terms played in the social and literary discourse of the 1880s and 1890s. Bell argues that in America, realism and naturalism never achieved the sort of theoretical rigor that they did in European literary debate. Instead, the function of these ideas in America was less aesthetic than ideological, promoting as reality a version of social normalcy based on radically anti-literary and heavily gendered assumptions. What effects, Bell asks, did ideas about realism and naturalism have on writers who embraced and resisted them? To answer this question, he devotes separate chapters to the work of Howells and Frank Norris, the principal American advocates of realism and naturalism in the 1880s and 1890s. Mark Twain, Henry James, Stephen Crane, Theodore Dreiser, and Sarah Orne Jewett. Bell reveals that a chief function of claiming to be a realist or a naturalist was to provide assurance that one was a real man rather than an effeminate artist. Since the 1880s, Bell asserts, all serious American fiction writers have had to contend with this problematic conception of literary realism. The true story of the transformation of American fiction after the Civil War is the history of this contention, a history of individual accommodations, evasions, holdings, actions, and occasional triumphs.

**Causes of War** Stephen Van Evera, 1999 What causes war? How can military conflicts best be prevented? A prominent political scientist here addresses these questions, offering ideas that will be widely debated. Van Evera's book demonstrates that ideas from the Realist paradigm can offer strong explanations for international conflict.

and valuable prescriptions for its control

**Writing after War** John Limon, 1994-07-07 In *Writing After War* John Limon develops a theory of the relationship of war in general to literature in general in order to make sense of American literary history in particular Applying the work of war theorists Carl von Clausewitz and Elaine Scarry John Limon argues that *The Iliad* inaugurates Western literature on the failure of war to be duel like to have a beautiful form War's failure is literature's justification American literary history is demarcated by wars as if literary epochs like the history of literature itself required bloodshed to commence But in chapters on periods of literary history from realism generally taken to be a product of the Civil War through modernism usually assumed to be a prediction or result of the Great War up to postmodernism which followed World War II and spanned Vietnam Limon argues that despite the looming presence of war in American history the techniques that define these periods are essentially ways of not writing war From James and Twain through Fitzgerald Faulkner and even Hemingway to Pynchon our national literary history is not hopelessly masculinist Limon argues Instead it arrives naturally at Bobbie Ann Mason and Maxine Hong Kingston Kingston brings the discussion full circle *The Woman Warrior* like *The Iliad* appears to condemn the fall from duel to war that is literature's endless opening
