When individuals make decisions, their rationality is limited by the information they have, the cognitive limitations of their minds, and the finite time they have to make a decision.

Reality And Rationality:

Relativism and Reality Robert Kirk, 2012-10-12 Our thoughts about the world are clearly influenced by such things as point of view temperament past experience and culture However some thinkers go much further and argue that everything that exists depends on us arguing that even reality is relative Can we accept such a claim in the face of events such as floods and other natural disasters or events seemingly beyond our control Realists argue that reality is independent of our thinking Relativists disagree arguing that what there is depends on our point of view Which is right Robert Kirk provides a crystal clear account of this debate from the Greek philosophers to Wittgenstein and Rorty Along the way he unpacks some of the more complicated issues surrounding ideas of objectivity subjectivity pragmatism and realism essential for those beginning any study of philosophy

Reality and Rationality Wesley C. Salmon, 2023 The late Wesley C Salmon was a major figure in 20th century philosophy of science whose influential work focused on the nature of scientific explanation and the epistemology of science This is a collection of his articles

Contact with Reality Esther Lightcap Meek, 2017-05-05 Is knowledge discovered or just invented Can we ever get outside ourselves to know how reality is in itself independent of us Philosophical realism raises the question whether in our knowing we connect with an independent reality or only connect with our own mental constructs Far from being a silly parlor game the question impacts our lives concretely and deeply Modern Western culture has been infected with antirealism and the doubt skepticism subjectivism relativism and atheism that attends it not to mention distrust and arbitrary mis use of reality Premier scientist turned philosopher Michael Polanyi stepped aside from research to offer an innovative account of knowing that takes its cue from how discovery actually happens Polanyi defied the antirealism of the twentieth century sounding a ringing note of hope in his repeated claim that in discovery we know we have made contact with reality because we have a sense of the possibility of indeterminate future manifestations And that sense marks contact with reality because it is the way reality is abundant generous and fraught with as yet unnameable possibilities This book examines that distinctive claim contrasting it to the wider philosophical discussions regarding realism and antirealism in the recent decades It shows why Polanyi's outlook is superior and why that matters not just to scientific discoverers but to us all

Reality and Evangelical Theology Thomas F. Torrance, 2003-03-03 T F Torrance is widely recognized as one of our most important twentieth century theologians And scholars of Torrance suggest Reality Scientific Theology is one of his most accessible works Torrance's insights on Christian epistemology are remarkably relevant in light of recent discussions on realism and antirealism in philosophy and theology Torrance brilliantly sets forth no naive or even critical realism but rather an evangelical realism knowledge grounded in the revelation of God in Jesus Christ He not only constructively argues the case for an evangelical realism but compares and contrasts theological knowledge with natural scientific knowledge and shows how the Bible can function authoritatively in a fragmented church This edition of Reality and Evangelical Theology includes an in depth foreword that contextualizes Torrance's seminal theological work in

Idealism and the Harmony of Thought and Reality Thomas Hofweber,2023 Do human beings have a special place in reality Thomas Hofweber argues that we are special because there is an intimate connection between our human minds and reality itself His form of idealism holds that our minds constrain but do not construct reality which is the totality of facts things taken to be completely independent of us *Religion, Reality, and a Good Life* Eberhard Herrmann,2004 Do we have access to reality as it is conceptualized by us Against metaphysical realism and postmodern relativism Eberhard Herrmann develops a pragmatic realism It stresses reality as conceptualized reality while at the same time not ruling out objectivity Contents include The Nature of the Enquiry The Philosophical Problem Formulated Religion and Philosophy Philosophy Reasons for and Against Metaphysical Realism Critique of Semantic Realism Pragmatic Realism Realism from an Internal Perspective Religious Metaphysical Realism Religious Metaphysical Anti Realism Religious Statements as Purported Assertions Christian Theism The Character of Religious Utterances Pragmatic Realism The Function of Religion Two Material Definitions of Truth Perspectives on Views of Life The Role of the Emotions in Our Conception of Reality Emotions and the Conceptualization of Values **The Sage Encyclopedia of Qualitative Research Methods: A-L ; Vol. 2, M-Z Index** Lisa

Personal Reality, Volume 1 Daniel Paksi,2019-05-02 Western civilization was built on the concept of God Today modern science based on the critical method and so called objective facts denies even the existence of our soul There is only matter atoms molecules and DNA sequences There is no freedom there are no well grounded beliefs The decline of Western civilization is not the simple consequence of decadence hedonism and malevolence Modern critical science has liberated us from the old dogmas but failed to establish our freedoms values and beliefs However human knowledge is not objective but personal We are the children of evolution Everybody sees the world from his own personal point of view anchored into his her body We use our billions of years old evolutionary skills and thousands of years old cultural heritage to recognize and acknowledge the personal facts of our reality freedom and most important natural beliefs respect and speak the truth In reality even science itself is based on our personal knowledge Only our false conceptual dichotomies paralyze our thinking God or matter there is a third choice the emergence of life and human persons This is the only way to defend our freedoms and the Christian moral dynamism of free Western societies Sustainability by Design John Ehrenfeld,2008-01-01 The environment Collected Papers I. investigation was inspired by the late Professor Jos Decorte 1954-2001 a Flemish philosopher and mediaevalist at the Catholic University of Leuven in Belgium Bakos carefully exposit his method of approaching medieval thought Part One and then applies and tests this method in practice Part Two The most extensive part of this study offers a sketch of the historical background of Nicholas's dialogue with Islam and investigates what possibilities this approach offers All of this is placed in dialogue with two other mediaeval approaches to Islam Thomas Aquinas and Ramon Lull The final chapters discuss Nicholas of Cusa's project from a perspective offered by his mystical theology The book culminates in an exploration of the possibilities of Nicholas of Cusa's approach by testing the framework of the study Finally the author evaluates the application of his own approach Part Three The study ultimately has two purposes to contribute to a better understanding of Nicholas of Cusa's thought on the one hand and on the other to test a particular methodology and interpretative framework for the understanding of mediaeval culture
