Talking about reality* Editore: Massimiliano Sassoli de Bianchi,2016-10-10 AutoRicerca is a journal whose mission is to publish writings of value on the topic of inner research This twelfth issue of AutoRicerca the first to be also published in English contains a unique monographic text written in dialogic form by Massimiliano Sassoli de Bianchi In it a mentor and his pupil question themselves about the nature of their relationship with reality emphasizing the human tendency to negate what is thus creating the sense of impotence and the existential misery **Modeling Behavior from Images of Reality in Television Narratives** Tony Russell DeMars,2000 The study shows that television narratives have the ability to create meanings which reinforce or refute dominant ideas and myths of the society Examines such shows as Beavis and Butt Head Family Matters Home Improvement Jenny Jones Married With Children Mighty Morphin Power Rangers Oprah Roseanne Sally Jesse Raphael South Park and The Simpsons **The League of Nations from Idea to Reality** Robert Jones,Stanley Simon Sherman,1927 *Sacred Reality, Digital Simulation* Enrico Beltramini,2025-07-29 This study explores the relationship between the sacred and the virtual emphasizing the sacred as a divinely dependent consecrated space activated through ritual mediating between the profane and the holy The central argument is that the virtual is fundamentally incompatible with the ritual form a concept developed by Romano Guardini and others including Joseph Ratzinger which holds that the sacred is not merely

acknowledged but made present through ritualized actions that require tangible participatory engagement Even if the virtual realm were acknowledged as real and retained both the bodily presence of the faithful and the Divine Presence the rite would still be ineffective Virtuality prevents the proper enactment of the rite rendering it ineffective At its core the ritual form is performative embodied and consecratory It requires physical presence material elements and a structured sequence of gestures symbols and words that together make the divine encounter possible Their absence in virtual spaces disrupts ritual form compromising its sacramental function

Reality and Negation - Kant's Principle of Anticipations of Perception

Marco Giovanelli,2010-11-18 Kant in the Critique of pure reason only dedicates a few pages to the principle of Anticipations of Perception and only a few critical studies are outspokenly dedicated to this issue in recent critical literature But if one considers the history of post Kantian philosophy one can immediately perceive the great importance of the new definition of the relationship between reality and negation which Kant s principle proposes Critical philosophy is here radically opposed to the pre critical metaphysical tradition Reality no longer appears as absolutely positive being which excludes all negativity from itself and negation is not reduced to being a simple removal the mere absence of being Instead reality and negation behave as an equally positive something in respect to one another such that negation is itself a reality that is actively opposed to another reality Such a definition of the relation between reality and negation became indispensable for post Kantian Philosophy and represents a central aspect of Kantian inspired philosophy in respect to Leibnizian metaphysics The present work therefore departs from the hypothesis that the essential philosophical importance of the Anticipations of Perception can only be fully measured by exploring its impact in the Post Kantian debate

Satan and the Problem of Evil

Gregory A. Boyd,2025-08-04 Where does evil come from If there is a sovereign creator God as Christian faith holds is this God ultimately responsible for evil Does God s sovereignty mean that God causes each instance of sin and suffering How do Satan his demons and hell fit into God s providential oversight of all creation and history How does God interact with human intention and action If people act freely does God know in particular every human decision before the choice is made In this important book Gregory A Boyd mounts a thorough response to these ages old questions which remain both crucial and contentious both practical and complex In this work Boyd defends his scripturally grounded trinitarian warfare theodicy presented in God at War with rigorous philosophical reflection and insights from human experience and scientific discovery Critiquing the classical Calvinist solution to the problem of evil he advocates an alternative understanding of the sovereignty of the trinitarian God and of the reality of Satan that sheds light on our fallen human condition While all may not agree with Boyd s conclusions Satan and the Problem of Evil promises to advance the church s discussion of these critical issues

Kant & Phenomenology Tom Rockmore,2011-01-22 Phenomenology together with Marxism pragmatism and analytic philosophy dominated philosophy in the twentieth century and Edmund Husserl is usually thought to have been the first to develop the concept His views influenced a variety of important later thinkers such as Heidegger and Merleau Ponty who

eventually turned phenomenology away from questions of knowledge But here Tom Rockmore argues for a return to phenomenology's origins in epistemology and he does so by locating its roots in the work of Immanuel Kant Kant and Phenomenology traces the formulation of Kant's phenomenological approach back to the second edition of Kant's Critique of Pure Reason In response to various criticisms of the first edition Kant more forcefully put forth a constructivist theory of knowledge This shift in Kant's thinking challenged the representational approach to epistemology and it is this turn Rockmore contends that makes Kant the first great phenomenologist He then follows this phenomenological line through the work of Kant's idealist successors Fichte and Hegel Steeped in the sources and literature it examines Kant and Phenomenology persuasively reshapes our conception of both of its main subjects

Eternal God, Eternal Life Philip G. Ziegler, 2016-09-22

How ought Christian faith and theology understand the concept of human immortality today And what if anything might be distinctively Christian about such a concept The contributors to this volume explore how our thinking about the prospect of human immortality is decisively determined by what we receive of the limitless life of the triune God of the gospel and how our understanding of immortality is made concrete by the Christian hope in the resurrection of the body and the life everlasting Debates about how best to understand the eternal life of God are directly significant to how we can imagine the promise of eternal life While immortality is generally conceived to be a future qualification of human reality theological approaches to the question of personal immortality must investigate the difference that the hope and promise of such eternal life makes in the living of present day spiritual life as well as in our common moral and political existence To understand immortality as an eschatological gift of God requires that we take account of it as a formative factor at the foundations of the Christian life
