**Reality and the Poet in Spanish Poetry** Pedro Salinas,1966      **Reality and the Poet in Spanish Poetry** Pedro Salinas,Edith Helman,1966      Reality and the Poet in Spanish Poetry Pedro Salinas,Jorge Guillén,1940      **Reality and the Poet in Spanish Poetry , by Pedro Salinas. Translated by Elizabeth**

**Fishtine Helman** Pedro Salinas,Edith Helman,1966      **Spanish Poetry of the Twentieth Century** Andrew Debicki,2021-12-14 Twentieth century Spanish poetry has received comparatively little attention from critics writing in English Andrew Debicki now presents the first English language history published in the United States to examine the sweep of modern Spanish verse More important he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the symbolists to the postmodernists Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject He demonstrates that contemporary Spanish verse is rooted in the modem tradition and poetics that see the text as a unique embodiment of complex experiences He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product By centering his study on major periods and examining within each the work of poets of different ages Debicki develops novel perspectives The late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self referential lyricism This book will be essential reading for specialists in modern Spanish letters for advanced students and for readers inter ested in comparative literature

**Reality and the Poet in Spanish Poetry** Pedro Salinas,1966      *Fantasy* ,1935      The Symbolist Movement in the Literature of European Languages Anna Balakian,Anna Elizabeth Balakian,1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in

the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today *Theories of Literary Realism* Dario

Villanueva,1997-04-24 Realism has not only shaped important schools and periods in literary history but has also been a fundamental constant of all literature its first theoretical formulation being the principle of mimesis in Aristotle's Poetics Realism can be considered by extension one of the main aspects of literary theory the aims of which must be to define its concepts clearly and to neutralize the imprecision polysemy and ambiguity that often characterized the application of realism This book explores the possibilities and limits of a concept of realism that seeks a point of equilibrium between the principle of the autonomy of the literary work vis à vis reality and the complex relations that the work clearly establishes with this reality It acknowledges that it is a personal response to the poststructuralist crisis in literary theory By concentrating on the study of the literary work of art as a verbal construction the great Continental and Anglo American tradition of formalism and New Criticism has ended up neglecting the second mimetic aspect of the literary problematic thus dissociating literature from life **The Poems of St. John of the Cross** Saint John of the Cross,1979 San Juan de la Cruz the great sixteenth century Spanish mystic is regarded by many as Spain's finest poet Passionate ecstatic and spiritual his poems are a blend of exquisite lyricism and profound mystical thought In *The Poems of St John of the Cross* John Frederick Nims presents his superlative translation of the complete poems re-creating the religious fervor of St John's art This dual language edition makes available the original Spanish from the Codex of Sanl con de Barrameda with facing English translations The work concludes with two essays a critique of the poetry and a short piece on the Spanish text that appears alongside the translation as well as brief notes on the individual poems *A Tale Blazed Through Heaven* Oliver J.

**Woman and the Infinite** Violla Hartfield-Méndez, 1996 Woman and the Infinite demonstrates how Pedro Salinas s poetry and frequently overlooked narrative and theater reveal a

preoccupation with the nature of time especially extraordinary moments that transcend space and time Many of these moments are intimately connected with the man woman yo tu relationship Salinas s exploration of this theme is best understood in the context of other modern literary evocations of epiphanic moments Such literary phenomena as William Wordsworth s spots of time and James Joyce s epiphanies are among the precursors of Salinas s moments of eternity as are moments of timelessness in works by Marcel Proust and the French Symbolist poets Salinas s reception of the Symbolists was direct but also refracted through his reading of the Latin American modernistas especially Ruben Dario In his well known commentary on Dario Salinas connects the perception of woman with a visionary moment of extraordinary lucidity a connection found in his own works Woman is elusive for Salinas She has a multiplicity of forms and varying identities that are expressed with mirrors and shadows or Classical and Biblical mythological archetypes All of these are found in Aurora de verdad from Vispera del gozo a narrative piece which can be read as representative of Salinas s work as a whole Specific images in the story including mirrored figures and references to mythological goddesses are also key elements in a trajectory in Salinas s works in general toward an all encompassing absolute and infinite moment
