photographs and line drawings *Kant's Justification of Ethics* Owen Ware, 2021-02-01 Kant's arguments for the reality of human freedom and the normativity of the moral law continue to inspire work in contemporary moral philosophy. Many prominent ethicists invoke Kant directly or indirectly in their efforts to derive the authority of moral requirements from a more basic conception of action agency or rationality. But many commentators have detected a deep rift between the *Groundwork for the Metaphysics of Morals* and the *Critique of Practical Reason*, leaving Kant's project of justification exposed to conflicting assessments and interpretations. In this ground-breaking study of Kant, Owen Ware defends the controversial view that Kant's mature writings on ethics share a unified commitment to the moral law's primacy. Using both close analysis and historical contextualization, Owen Ware overturns a paradigmatic way of reading Kant's arguments for morality and freedom, situating them within Kant's critical methodology at large. The result is a novel understanding of Kant that challenges much of what goes under the banner of Kantian arguments for moral normativity today. **The Queen of Sheba** Deborah M. Coulter-Harris, 2013-05-28 Part I of this book begins with a scriptural study of all Sheba references, particularly the origins and genealogy of the name and its connections with Hebrew patriarchs such as Abraham and kings Saul and David. It later explores the literature and legends surrounding King Solomon and his trade negotiations with Sheba. The text analyzes theories and links between the Queen of Sheba and Pharaoh Hatshepsut and concludes that Sheba may well be the Pharaoh based upon linguistic associations and the related stories from a multitude of regions and countries. Part II travels into ancient Arabian, Yemeni, Ethiopian, and Eritrean tales of the Queen of Sheba and examines the mention of Sheba in an array of Jewish, Christian, and Muslim texts. It scrutinizes associations between ancient gods and pharaohs, particularly the similarity of their iconographic representations, the meaning of their symbols and signs that connect with Sheba legends, and Hatshepsut's history, the real extent and location of her vast empire. Religion in America Timothy L. Hall, 2007 Presents an overview of the history of religion in America and includes excerpts from primary source documents, short biographies of influential people, and more. **Transpacific Engagements** Florina H. Capistrano-Baker, Meha Priyadarshini, 2020-01-01 Between the sixteenth and nineteenth centuries, competing European empires—namely Spain, Portugal, Great Britain, the Netherlands, Germany, France, Belgium, and others—vied for commercial and political control of transoceanic networks, particularly the transpacific routes between Asia and the Americas. The essays in *Transpacific Engagements: Trade, Translation, and Visual Culture of Entangled Empires, 1565–1898* address the resulting cultural and artistic exchanges with an emphasis on both the Spanish and American enterprises in the Asia-Pacific region. The essays are grouped into three parts: *Entangled Empires*, *Empires and Translations*, and *Empires and Trade*. A common thread in the diverse perspectives presented here is the importance of transpacific engagements to the global connections of the sixteenth century and beyond. While the focus is on the specific connection between the Asia-Pacific region and the Americas through the Philippines, we see how other parts of the world, notably South and Southeast Asia and Europe, were also

participants impacted by these transpacific linkages The goal is to convey the complexity of entangled networks of commercial political and religious interests that complicate the Spanish enterprise in the Pacific Commercial ventures into Canton and Manila by the early American republic for example overlapped with and later replaced the Spanish galleons East South and Southeast Asian polities and dynasties remained powerful players in what were often multilateral rather than bilateral exchanges Contributors to this volume are based in Asia the Americas and Europe *Plugging Into Your Past* Rick Crume, 2004 Shows how to find family genealogy online and includes a description of many different genealogical Web sites and strategies for searching them **Resources in Education**, 1973 Private Secondary Schools Peterson's, 2011-05-01 Peterson's Private Secondary Schools is everything parents need to find the right private secondary school for their child This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada and around the world Schools featured include independent day schools special needs schools and boarding schools including junior boarding schools for middle school students Helpful information listed for each of these schools include school's area of specialization setting affiliation accreditation tuition financial aid student body faculty academic programs social life admission information contacts and more Also includes helpful articles on the merits of private education planning a successful school search searching for private schools online finding the perfect match paying for a private education tips for taking the necessary standardized tests semester programs and understanding the private schools admission application form and process Journal of the Senate of the United States of America United States.
