

# REASON, EXPERIENCE, and GOD

John E. Smith in Dialogue

EDITED BY VINCENT M. COLAPIETRO

AMERICAN PHILOSOPHY SERIES

# Reason Experience And God

**Stephen T. Davis**

## **Reason Experience And God:**

God, Reason, and Theistic Proofs Stephen T. Davis, 1997 Wisely structured and clearly written God Reason and Theistic Proofs will make an excellent resource for those looking for an introduction to the debate surrounding the existence of God or for those seeking intellectual validation for their faith

Mystical Experience of God Jerome Gellman, 2017-11-01 This title was first published in 2001 Engaging contemporary discussion concerning the validity of mystical experiences of God Jerome Gellman presents the best evidential case in favor of validity and its implications for belief in God Gellman vigorously defends the coherence of the concept of a mystical experience of God against philosophical objections and evaluates attempts to provide alternative explanations from sociology and neuropsychology He then carefully examines feminist objections to male philosophers treatments of mystical experience of God and to the traditional hierarchal concept of God Gellman finds none of the objections decisive and concludes that while the initial evidential case is not rationally compelling for some it can be rationally compelling for others Offering important new perspectives on the evidential value of experiences of God and the concept of God more broadly this book will appeal to a wide range of readers including those with an interest in philosophy of religion religious studies mysticism and epistemology

*Dancing with God* Karen Baker-Fletcher, 2006-12-01 Dancing With God is an exploration of the divine gifts of courage and grace in the face of evil Moreover it is a doctrine of God as the source of that courage Baker Fletcher presents an understanding of the work of the Trinity with regard to the problem of crucifixion a metaphor she uses for unnecessary violence She develops a process of relational womanist theology that considers the empathetic omnipresence of God in the midst of unnecessary suffering and the healing power of God in movement of the Holy Spirit She engages the contributions of a diversity of theologians like Paul Tillich Karl Barth Gordon Kaufman John Cobb Jr Majorie Suchocki Charles Hartshorne Andrew Sung Park and Katie Cannon in her discussion of the dance of the Trinity in creation and the problem of sin evil and suffering Through creative works like that of Alice Walker s *The Color Purple* and journalist Joyce King s account of the James Byrd Jr murder in Jasper County Texas Baker Fletcher reveals the healing encouraging power of the Holy Spirit in the lives of survivors of unnecessary violence

**John Oman and His Doctrine of God** Stephen Bevens, 1992-05-21 This book sets the Scottish theologian John Oman 1860 1939 in his historical and cultural context

*Brain, Consciousness, and God* Daniel A. Helminiak, 2015-07-21 A constructive critique of neuropsychological research on human consciousness and religious experience that applies the thought of Bernard Lonergan *Brain Consciousness and God* is a constructive critique of neuroscientific research on human consciousness and religious experience An adequate epistemology a theory of knowledge is needed to address this topic but today there exists no consensus on what human knowing means especially regarding nonmaterial realities Daniel A Helminiak turns to twentieth century theologian and philosopher Bernard Lonergan s breakthrough analysis of human consciousness and its implications for epistemology and philosophy of science Lucidly summarizing Lonergan s key ideas Helminiak applies them to questions

about science psychology and religion Along with Lonergan eminent theorists in consciousness studies and neuroscience get deserved detailed attention Helminiak demonstrates the reality of the immaterial mind and addressing the Cartesian mind body problem explains how body and mind could make up one being a person Human consciousness is presented not only as awareness of objects but also as self presence the self conscious experience of human subjectivity a spiritual reality Lonergan s analyses allow us to say exactly what spiritual means and it need have nothing to do with God This book makes a seminal contribution to the psychology of religion and is on the cutting edge of the growing interest in the spiritual dimensions of human beings Daniel Helminiak writes knowledgeably about neurobiology psychotherapy philosophy and even psychedelic experience His chapter on the God concept is a tour de force and worth the price of the entire book Once I started this book I could barely put it down Stanley Krippner Saybrook University This is an amazing book It is both lucid and brilliant Deeply informed by Bernard Lonergan s systematic treatment of human knowing as a composite of experience understanding and judgment Daniel Helminiak masterfully places study of spirituality within the self transcending dimension of the human mind and in so doing differentiates and interrelates neuroscience psychology spirituality and theology Ralph W Hood University of Tennessee at Chattanooga In this book magnificently and comprehensively Helminiak struggles toward an integrated perspective on the unfolding of the universe Focused on humanity his topic is actually the origins and dynamics of human yearning As best he can he meets contemporary theorists on their own ground and repeatedly nudges their thinking toward a more coherent position The result cuts both ways It challenges students of Lonergan who underappreciate natural and social processes and it challenges natural and social scientists who seek a science of mind while subtly sidestepping their inquiring selves Yet Helminiak presents only a seedling Its full bloom would be Lonergan s new global omnidisciplinary science envisaged in Method It does indeed qualify as Patricia Churchland s sought real humdinger of a solution Philip McShane author of Randomness Statistics and Emergence Intense yet lucidly clear this work by Daniel Helminiak provides a sequel to Michael H McCarthy s The Crisis of Philosophy Helminiak turns a laser on the crisis and not only exposes significant counterpositions but also offers a solution using the intellectual epistemology of Bernard Lonergan Worth a read by anyone seeking real explanation rather than mere description this work invites readers to be weaned from picture thinking to claim the reality of their intelligence whatever their field Carla Mae Streeter Aquinas Institute of Theology *The Immediacy of Mystical Experience in the European Tradition* Miklós Vassányi, Enikő Seps, Anikó Daróczi, 2017-01-19 This volume examines mystical experiences as portrayed in various ways by authors such as philosophers mystics psychoanalysts writers and peasant women These mystical authors have throughout the ages attempted to convey the unsayable through writings paintings or oral stories The immediate experience of God is the primary source and ultimate goal of these mystical expressions This experience is essentially ineffable yet all mystical authors either consciously or unconsciously feel an urge to convey what they have undergone in the moments of rapture At the same time they are in the role of intermediaries the

goal of their self expression either written painted or oral is to make others somehow understand or feel what they have experienced and to lead others toward the spiritual goal of human life This volume studies the mystical experiences and the way they have been described or portrayed in West European culture from Antiquity to the present from an interdisciplinary perspective and approaches the concept of immediate experience in various ways Religion and the Challenges of Science Mr Richard Feist, Professor William Sweet, 2013-05-28 Does science pose a challenge to religion and religious belief This question has been a matter of long standing debate and it continues to concern not only scholars in philosophy theology and the sciences but also those involved in public educational policy This volume provides background to the current science and religion debate yet focuses as well on themes where recent discussion of the relation between science and religion has been particularly concentrated The first theme deals with the history of the interrelation of science and religion The second and third themes deal with the implications of recent work in cosmology biology and so called intelligent design for religion and religious belief The fourth theme is concerned with conceptual issues underlying or implied in the current debates such as Are scientific naturalism and religion compatible Are science and religion bodies of knowledge or practices or both Do religion and science offer conflicting truth claims By illuminating contemporary discussion in the science religion debate and by outlining the options available in describing the relation between the two this volume will be of interest to scholars and to members of the educated public alike **Reason for the Hope Within** Michael J. Murray, 1999 During the last two decades there has been a renaissance in the field of Christian philosophy Unfortunately most of this excellent work has not reached general readers Reason for the Hope Within was produced specifically to make available the best of contemporary Christian philosophy in a clear accessible and highly relevant manner Fourteen of America's rising Christian philosophers here cover many of the traditional themes of Christian apologetics arguments for the existence of God the problem of evil the possibility of miracles as well as topics of special relevance to today's world Eastern religions Christianity and science Christianity and ethics the existence of heaven and hell **Reason, Experience, and God** Vincent Michael Colapietro, Vincent Colapietro, 1996 John E Smith has contributed to contemporary philosophy in primarily four distinct capacities first as a philosopher of religion and God second as an indefatigable defender of philosophical reflection in its classical sense a sense inclusive of but not limited to metaphysics third as a participant in the reconstruction of experience and reason so boldly inaugurated by Hegel then radically transformed by the classical American pragmatists and significantly augmented by such thinkers as Josiah Royce William Ernest Hocking and Alfred North Whitehead fourth as an interpreter of philosophical texts and traditions Kant Hegel and Nietzsche no less than Charles Peirce William James and John Dewey German idealism as well as American the Augustinian tradition no less than the pragmatic Reason Experience and God provides an important and comprehensive look at the work of John E Smith by collected essays which each address aspects of his life long work A response by John E Smith himself draws a line of continuity between the pieces **Faith, Reason, and Theosis** Aristotle

Papanikolaou, George E. Demacopoulos, 2023-10-03 Theosis shapes contemporary Orthodox theology in two ways positively and negatively In the positive sense contemporary Orthodox theologians made theosis the thread that bound together the various aspects of theology in a coherent whole and also interpreted patristic texts which experienced a renaissance in the twentieth century even in Orthodox theology In the negative sense contemporary theologians used theosis as a triumphalistic club to beat down Catholic and Protestant Christians claiming that they rejected theosis in favor of either a rationalistic or fideistic approach to Christian life The essays collected in this volume move beyond this East West divide by examining the relation between faith reason and theosis from Orthodox Catholic and Protestant perspectives A variety of themes are addressed such as the nature grace debate and the relation of philosophy to theology through engagement with such diverse thinkers as Thomas Aquinas John Wesley Meister Eckhart Dionysius the Areopagite Symeon the New Theologian Panayiotis Nellas Vladimir Lossky Martin Luther Martin Heidegger Sergius Bulgakov John of the Cross Delores Williams Evagrius of Pontus and Hans Urs von Balthasar The essays in this book are situated within a current thinking on theosis that consists of a common albeit minimalist affirmation amidst the flow of differences The authors in this volume contribute to the historical theological task of complicating the contemporary Orthodox narrative but they also continue the theological achievement of thinking about theosis so that all Christian traditions may be challenged to stretch and shift their understanding of theosis even amidst an ecumenical celebration of the gift of participation in the life of God Problems of Evil and the Power of God James A. Keller, 2007-01-01 Why do bad things happen even to good people If there is a God why aren't God's existence and God's will for humans more apparent And if God really does miracles for some people why not for others This book examines these three problems of evil suffering divine hiddenness and unfairness if miracles happen as believers claim to explore how different ideas of God's power relate to the problem of evil *Philosophy of Religion* Keith E. Yandell, 2016-05-20 Keith Yandell's *Philosophy of Religion: A Contemporary Introduction* was one of the first textbooks to explore the philosophy of religion with reference to religions other than Christianity This new revised edition explores the logical validity and truth claims of several world religions Christianity Judaism Islam Hinduism Buddhism and Jainism with updated streamlined discussions on important topics in philosophy of religion such as Religious pluralism Freedom and responsibility Evidentialist Moral Theism Reformed Epistemology Doxastic Practice Epistemology The problem of evil Ontological and cosmological arguments Other new features include updated Questions for Reflection and new Annotated Bibliographies for each chapter as well as an updated Glossary This exciting new edition much like its classic predecessor is sure to be a classroom staple for undergraduate students studying philosophy of religion as well as a comprehensive introductory read for anyone interested in the subject **The Cambridge History of Eighteenth-century Philosophy** Knud Haakonssen, 2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to

be painted     *Experience, Reason, and God* Eugene Thomas Long,1980     **Does God Exist?** Stan W. Wallace,2020-09-23

This book presents the most recent debates by leading contemporary philosophers of enduring themes and issues concerning the question of God's existence William Craig and Antony Flew met on the 50th anniversary of the famous Copleston Russell debate to discuss the question of God's existence in a public debate The core of this book contains the edited transcript of that debate Also included are eight chapters in which other significant philosophers Paul Draper R Douglas Geivett Michael Martin Keith Parsons William Rowe William Wainwright Keith Yandell and David Yandell critique the debate and address the issues raised Their substantial and compelling insights complement and further the debate helping the reader delve more deeply into the issues that surfaced In the two final chapters Craig and Flew respond and clarify their positions taking the debate yet one step further The result of these many contributions is a book which provides the reader with a summary of the current discussion and allows one to enter into the dialogue on this central question in the philosophy of religion

**Existential Reasons for Belief in God** Clifford Williams,2020-03-18 Lived faith involves doctrines evidences and rational coherence but it includes much more Philosopher Clifford Williams puts forth an argument as to why certain needs desires and emotions have a legitimate place in drawing people into faith in God Addressing the strongest objections to these types of grounds for faith he shows how the personal and experiential aspects of belief play an important part in coming to faith and in remaining a believing person     *100 reasons to be atheist* Josep Valls Selga,2024-04-11 Discover the

groundbreaking exploration of faith in 100 Reasons to be Atheist and Yet Finding Meaning in Life Journey through time from ancient myths to modern memes as the author unravels the mysteries of religious beliefs Challenge the status quo question the divine and dive deep into the human psyche This isn't just a book it's an awakening As traditional theistic views are deconstructed a new path emerges a guide to finding purpose and profound meaning in a world beyond gods A must read for skeptics and seekers alike

**The Reason for God** Timothy Keller,2008-02-14 A New York Times bestseller people can believe in by a pioneer of the new urban Christians Christianity Today and the C S Lewis for the 21st century Newsweek Timothy Keller the founding pastor of Redeemer Presbyterian Church in New York City addresses the frequent doubts that skeptics and even ardent believers have about religion Using literature philosophy real life conversations and potent reasoning Keller explains how the belief in a Christian God is in fact a sound and rational one To true believers he offers a solid platform on which to stand their ground against the backlash to religion created by the Age of Skepticism And to skeptics atheists and agnostics he provides a challenging argument for pursuing the reason for God     *Philosophy of Religion: A Very Short Introduction* Tim Bayne,2018-01-25 What is the philosophy of religion How can we distinguish it from theology on the one hand and the psychology sociology of religious belief on the other What does it mean to describe God as eternal And should religious people want there to be good arguments for the existence of God or is religious belief only authentic in the absence of these good arguments In this Very Short Introduction Tim Bayne introduces the field of

philosophy of religion and engages with some of the most burning questions that philosophers discuss Considering how religion should be defined and whether we even need to be able to define it in order to engage in the philosophy of religion he goes on to discuss whether the existence of God matters Exploring the problem of evil Bayne also debates the connection between faith and reason and the related question of what role reason should play in religious contexts Shedding light on the relationship between science and religion Bayne finishes by considering the topics of reincarnation and the afterlife ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

**The Bible, Natural Theology and Natural Law: Conflict Or Compromise?** Robert A. Morey, 2010-05 Dr Robert Morey's study of natural law and natural theology raises important questions that every Bible believer will want answered His careful study and explanation of various Bible passages will yield a useful orientation to the classic arguments furnished us by the Reformers and their faithful heirs Dr Nelson Kloosterman The present volume presents a devastating critique of natural theology and natural law Its argument is solidly biblical and its accumulation of biblical data is overwhelming I hope that God prospers it so that many will read it and take heed Dr John Frame A W Tozer said the most important thing about any person is what comes into their mind when they think of the word God If you digest Dr Morey's book you will think of God as the glorious One depicted in Holy Scripture John G Reisinger I appreciate Dr Morey's emphasis on making the Bible alone the theoretical basis for science and the arts All throughout the book he consistently points to the Scriptures as the basis for sustaining everything else Dr Simon Kistemaker

## **Reason Experience And God** Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is actually remarkable.
