Reason Vs. Emotion Salvador Fernando Rodriguez,1998 *The Role of Culture in Human Thinking and Reasoning* Hiroshi Yama,Niall Galbraith,Jean Baratgin,Hirofumi Hashimoto,2022-11-01 Emotions in Social Life Gillian Bendelow,Simon J Williams,2002-09-11 The development of a sociology of emotions is crucial to our understanding of social life as they hold the key to our understanding of social processes and sociological investigation First published in 1997 *Emotions in Social Life* consolidates the sociology of emotions as a legitimate and viable field of enquiry It provides a comprehensive assessment of the sociology of emotions using work from scholars of international stature as well as newer writers in the field It presents new empirical research in conjunction with innovative and challenging theoretical material and will be essential reading for students of sociology health psychology anthropology and gender studies Current Perspectives on Substance Use Disorders in South Asia S. M. Yasir Arafat,Sujita Kumar Kar,2024-11-25 This book is about public mental health needs and aspects of substance use disorders in South Asian countries South Asia consists of eight countries with low and middle income backgrounds The people of this region with a combined population of around 2 billion share common cultures beliefs and behavioral patterns regarding physical and mental health Among them more than 66 million people use different forms of substances including cannabis opium and opiates amphetamine and prescription drugs Substance abuse brings deadly consequences It affects almost all spheres of life i e personal social recreational criminal and family aspects both physical and mental health and economy of the society as well as the country Advanced management and holistic prevention are public health priorities However very little attention has been paid to the issues as a region as well as in countries like Afghanistan Bangladesh and Pakistan Hence the editors of this book aimed to publish a book that discusses the public mental health and healthcare issues related to substance use disorder in a densely populated low and middle income setting **Current Perspectives in Social Psychology** Edwin Paul Hollander,Raymond George Hunt,1971 **Do Emotions Help or Hurt Decisionmaking?** Kathleen D. Vohs,Roy F. Baumeister,George Loewenstein,2007-11-26 Philosophers have long tussled over whether moral judgments are the products of logical reasoning or simply emotional reactions From Jane Austen s *Sense and Sensibility* to the debates of modern psychologists the question of whether feeling or sober rationality is the better guide to decision making has been a source of controversy In *Do Emotions Help or Hurt Decision Making* Kathleen Vohs Roy Baumeister and George Loewenstein lead a group of prominent psychologists and economists in exploring the empirical evidence on how emotions shape judgments and choices Researchers on emotion and cognition have staked out many extreme positions viewing emotions as either the driving force behind cognition or its side effect either an impediment to sound judgment or a guide to wise decisions The contributors to *Do Emotions Help or Hurt Decision Making* provide a richer perspective exploring the circumstances that shape whether emotions play a harmful or helpful role in decisions Roy Baumeister C Nathan DeWall and Liqing Zhang show that while an individual s current

emotional state can lead to hasty decisions and self destructive behavior anticipating future emotional outcomes can be a helpful guide to making sensible decisions Eduardo Andrade and Joel Cohen find that a positive mood can negatively affect people's willingness to act altruistically Happy people when made aware of risks associated with altruistic acts become wary of jeopardizing their own well being Beno t Monin David Pizarro and Jennifer Beer find that whether emotion or reason matters more in moral evaluation depends on the specific issue in question Individual characteristics often mediate the effect of emotions on decisions Catherine Rawn Nicole Mead Peter Kerkhof and Kathleen Vohs find that whether an individual makes a decision based on emotion depends both on the type of decision in question and the individual's level of self esteem And Quinn Kennedy and Mara Mather show that the elderly are better able to regulate their emotions having learned from experience to anticipate the emotional consequences of their behavior Do Emotions Help or Hurt Decision Making represents a significant advance toward a comprehensive theory of emotions and cognition that accounts for the nuances of the mental processes involved This landmark book will be a stimulus to scholarly debates as well as an informative guide to everyday decisions
