Reassessing American Competitiveness:

Reassessing American Competitiveness Peter Morici,1988 **Making Free Trade Work** Peter Morici,1990 **The Cambridge Economic History of the United States** Stanley L. Engerman,Robert E. Gallman,1996 Volume III surveys the economic history of the United States and Canada during the twentieth century **Regulating Unfair Trade** Pietro S. Nivola,2010-12-01 In the early 1980s American complaints about unfair trade practices began to intensify Sunrise industries such as manufacturers of semiconductors and telecommunications equipment joined older complainants including steel and textile producers in seeking more safeguards against international competitors who priced their products too aggressively or whose governments subsidized exports or protected home markets In this politically charged atmosphere the U S government has devised increasingly stringent regulatory programs to address the claimed abuses and distortions In this book Pietro Nivola examines the strenuous effort to combat the objectionable trading practices of other countries Through most of the postwar period Nivola notes policymakers had deemed it in the nation s economic and strategic interests to tolerate asymmetries and infractions in the international trading order But that tolerance has been sharply lowered by heightened sensitivity to inequities and a growing conviction that government should intervene frequently and forcefully to ensure a level playing field The book maintains that foreign protectionism lower East West tensions and alleged American decline in the face of international competition cannot fully explain the stiffening regulation of unfair trade The world trading system Nivola contends is not more restrictive now than it was earlier Cries about foreign commercial transgressions in recent years have remained shrill despite a formidable U S export boom and an improved current account valance Much of the U S regulatory activity has acquired a political momentum of its own The activity has increased not just because global competitive pressures have generally intensified but because we have developed more ways and inducement to complain about those pressures Nivola cautions that trade regulations now bears too much of the burden for ameliorating economic imbalances and deficiencies The tendency a **Making North America Competitive** Lansing Lamont,Gary Levy,1989
Pacific Basin Industries in Distress Hugh Patrick,1991-12-09 *Pacific Basin Industries in Distress* *Gramsci and Foucault: A Reassessment* David Kreps,2016-04-22 Mapping the resonances dissonances and linkages between the thought of Gramsci and Foucault to uncover new tools for socio political and critical analysis for the twenty first century this book reassesses the widely held view that their work is incompatible With discussions of Latin American revolutionary politics indigenous knowledges technologies of government and the teaching of paediatrics in post invasion Iraq complexity theory medical anthropology and biomedicine and the role of Islam in the transition to modern society in the Arab world this interdisciplinary volume presents the latest theoretical research on different facets of these two thinkers work as well as analyses of the specific linkages that exist between them in concrete settings A rigorous comparative exploration of the work of two towering figures of the twenty first century Gramsci and Foucault A Reassessment will appeal to scholars and students

of social and political theory political sociology communication and media studies and contemporary philosophy A New Special Relationship Peter Morici,1991 This study examines from an American perspective the impact of the free trade agreement FTA on the evolution of the Canada United States economic relationship It puts into historical context the special trading relationship between Canada and the United States which prevailed over the early postwar period It examines how FTA rules and dispute settlement procedures create an effective basis for managing bilateral economic relationships in the context of more decentralized policy processes It also explores the potential impact on the bilateral trading regime of the changing nature of international competition the adjustments taking place in the structure of the Canadian and American economies and the challenges posed by continuing technological change **Export Financing in the United States** Susan Kay Park,1988 **Herbert Hoover Reassessed** ,1981 **The Premise and the Promise** ,1992-01-01 The vision of a hemispheric system of free trade charts a bold new course for U S Latin American relations that promises to transform the economic and political landscape of the hemisphere well into the next century In *The Premise and the Promise* analysts from the United States Latin America and Canada explore the dynamics of the process under way in the Americas today what features free trade ought to have how the process of regional integration should proceed and how the regional architecture should be related to the international trading system Mexico's decision to seek a free trade agreement with the United States and Washington's announcement of the Enterprise for the Americas Initiative turned the incipient integrationist revival of the mid 1980s in Latin America into a seemingly unstoppable force If regionalism is to be a benign force however it must overcome the impulse toward closed exclusionary arrangements and emulate the best features of the multilateral approach a regional arrangement should be flexible enough to accommodate vast regional diversity inclusive enough to allow all countries in the region to participate and efficient enough not to impose unduly large costs on those excluded from the arrangement The contents include Sylvia Saborio Overview The Long and Winding Road from Anchorage to Patagonia Peter Morici American Free Trade A U S Perspective Jos Salazar and Eduardo Lizano Free Trade in the Americas A Latin American Perspective Richard Lipsey Getting There A Canadian View on WHFTA's Structure and Refik Erzan and Alexander Yeats Empirical Evidence on the Impact of Free Trade Agreements with the United States on Latin America In six separate chapters analysts weigh the costs and benefits of subregional free trade agreements between the United States and Mexico Chile Central America Caricom the Andean Pact and Mercosur **Report of the Secretary of the Senate from ...** United States. Congress. Senate,1989-10 **The Societal Foundations of National Competitiveness** Michael J. Mazarr,2022-06-21 Nations rise and fall succeed or fail in rivalries and enjoy stability or descend into chaos because of a complex web of factors that affect competitive advantage One critical component is the package of essential social characteristics of a nation The ultimate story of the Cold War is that the United States was simply a more competitive society than the Soviet Union more energetic more vibrant more innovative more productive more legitimate Through analysis of

comparative studies of historical eras and trends historical case studies and the findings of issue specific empirical research the report explores how seven characteristics of a society determine its competitive standing and distinguish dynamic and competitively successful nations If the history surveyed in this report provides an accurate guide to the future the fate of the United States in today s rivalries will not be determined solely or even in significant degree by the numbers of its weapons or amounts of defense spending or how many proxy wars it wins but by the basic characteristics of its society The author applies the seven leading characteristics that affect national standing to the United States to create a snapshot of where the country stands That application provides some reason for optimism The United States continues to reflect many of these characteristics and the overall synergistic engine more than any other large country in the world However multiple trends are working to weaken traditional U S advantages Several such as the corruption of the national information space pose acute risks to the long term dynamism and competitiveness of the nation raising the worrying prospect that the United States has begun to display classic patterns of a major power on the far side of its dynamic and vital curve

China's WTO Accession Reassessed Wang Luolin,2015-02-20 China s accession to the World Trade Organisation in 2001 was a highly significant event both for China and for the wider world This book argues that although at the time some people doubted the likely benefits China s WTO accession has been highly successful It discusses how China has abided by its commitment to WTO terms and how WTO membership has contributed to China s reform and opening up explores how vastly increased co operative exchange with many countries around the world has been mutually beneficial in a range of fields including trade science and culture and shows how China s WTO membership has been a great stimulus both for China s economy and the world economy The book considers the subject from a number of perspectives and draws out lessons for future reform and development for China and for China s relations with the rest of the

world emphasising the need to maintain a win win approach Innovation Economics Robert D. Atkinson, Stephen J. Ezell, 2012-09-04 This important book delivers a critical wake up call a fierce global race for innovation advantage is under way and while other nations are making support for technology and innovation a central tenet of their economic strategies and policies America lacks a robust innovation policy What does this portend Robert Atkinson and Stephen Ezell widely respected economic thinkers report on profound new forces that are shaping the global economy forces that favor nations with innovation based economies and innovation policies Unless the United States enacts public policies to reflect this reality Americans face the relatively lower standards of living associated with a noncompetitive national economy The authors explore how a weak innovation economy not only contributed to the Great Recession but is delaying America s recovery from it and how innovation in the United States compares with that in other developed and developing nations Atkinson and Ezell then lay out a detailed pragmatic road map for America to regain its global innovation advantage by 2020 as well as maximize the global supply of innovation and promote sustainable globalization **The Politics Of Interests** Mark P. Petracca, 2018-02-19 This is a thematically unified survey of current and significant issues affecting interest group politics and scholarship in the USA Petracca has drawn together interest group scholars and practitioners to write 16 original essays dedicated to making the best and newest research accessible to students at all levels The mix of perspectives and approaches aims to offer a stimulating analysis of contemporary American interest group activity **Looking Ahead** , 1987
