States in Disguise Belgin San-Akca,2017-08-15 There is a long history of state governments providing support to nonstate armed groups fighting battles in other countries Examples include Syria s aid to Hamas Ecuador s support for FARC and Libya s donation of arms to the IRA What motivates states to do this And why would rebel groups align themselves with these states In States in Disguise Belgin San Akca builds a rigorous theoretical framework within which to study the complex and fluid network of relationships between states and rebel groups including ethnic and religious insurgents revolutionary groups and

terrorists She proves that patterns of alliances between armed rebels and modern states are hardly coincidental but the result of systematic and strategic choices made by both states and rebel groups San Akca demonstrates that these alliances are the result of shared conflictual material and ideational interests and her theory shows how to understand these ties via the domestic and international environment Drawing from an original data set of 455 groups their target states and supporters over a span of more than sixty years she explains that states are most likely to support rebel groups when they are confronted with internal and external threats simultaneously while rebels select strong states and democracies when seeking outside support She also shows that states and rebels look to align with one another when they share ethnic religious and ideological ties Through its broad chronological sweep *States in Disguise* reveals how and why the phenomenon of state and rebel group alliances has evolved over time

Mechanical Choices Michael S. Moore,2020-05-08 Mechanical Choices details the intimate connection that exists between morality and law the morality we use to blame others for their misdeeds and the criminal law that punishes them for these misdeeds This book shows how both law and morality presuppose the accuracy of common sense a centuries old psychology that defines people as rational agents who make honorable choices and act for just reasons It then shows how neuroscience is commonly taken to challenge these fundamental psychological assumptions Such challenges four in number are distinguished from each other by the different neuroscientific facts from which they arise the fact that human choices are caused by brain events the fact that those choices don t cause the actions that are their objects but are only epiphenomenal to those choices the fact that those choices are identical to certain physical events in the brain and the fact that human subjects are quite fallible in their knowledge of what they are doing and why The body of this book shows how such challenges are either based on faulty facts or misconceived as to the relevance of such facts to responsibility The book ends with a detailed examination of the neuroscience of addiction an examination which illustrates how neuroscience can help rather than challenge both law and morality in their quest to accurately define excuses from responsibility

Ireland, Its History, Past and Present Jam Campbell,1847 **A Woven Silence** Felicity Hayes-McCoy,2015-09-01 How

do we know that what we remember is the truth Inspired by the story of her relative Marion Stokes one of three women who raised the tricolour over Enniscorthy in Easter Week 1916 Felicity Hayes McCoy explores the consequences for all of us when memories are manipulated or obliterated intentionally or by chance In the power struggle after the Easter Rising involving among others Michael Collins and Eamon de Valera the ideals for which Marion and her companions fought were eroded resulting in an Ireland marked by chauvinism isolationism and secrecy By mapping her own family stories onto the history of the State Felicity examines how Irish life today has been affected by the censorship and mixed messages of the past Absorbing entertaining and touching her story moves from Washerwoman s Hill in Dublin to London and back again spans two world wars a revolution a civil war and the development of a republic and culminates in Ireland s 2015 same sex marriage referendum Also by this author Enough is Plenty

A Letter of Sir Henry Tichborne to his Lady, of the siege of Tredagh (Drogheda); and other passages of the wars of Ireland, etc Sir Henry TICHBORNE, 1716 *Embattled Home Fronts* Karsten H. Piep, 2009-01-01 *Embattled Home Fronts* is an inquiry into the highly conflicted US American experience of World War I as it plays itself out in the diverse body of novelistic works to which it has given rise and by which it has been in turn shaped and commemorated As such this book naturally concerns itself with the formal aspects of artistic war representation But rather than merely endeavoring to illustrate how American writers from various backgrounds chose to depict World War I the present work seeks to uncover the particular ideologies and political practices that inform these representational choices To this end *Embattled Home Fronts* examines both canonized and marginalized US American World War I novels within the context of contemporaneous debates over shifting class gender and race relations The book contends that American literary representations of the Great War are shaped less by universal insights into modern society s self destructiveness than by concerted efforts to fashion class gender and race specific experiences of warfare in ways that stabilize and heighten political group identities In moving beyond the customary focus on ironic war representations *Embattled Home Fronts* illustrates that the representational and ideological battles fought within American World War I literature not only shed light on the emergence of powerful identity political concepts such as the New Woman and the New Negro but also speak to the reappearance of utopian communitarian and social protest fictions in the early 1930s This study *Embattled Home Fronts* provides a new understanding of the relationship between war literature and home front politics that should be of interest to students and scholars working from a variety of disciplines and perspectives *Summary of Irish History from the reign of Henry II. to the beginning of the present century: with an introductory chapter* Selina Martin, 1847
