The Challenge of Religion after Modernity Raymond L. M. Lee, Susan E. Ackerman, 2018-05-08 This title was first published in 2003 If God has departed as Baudrillard claims is religion still relevant A new religious landscape is appearing in the new millennium The middle classes with their electronic technologies are producing a culture of commodified images and signs that is radically transforming the religious landscape and re enchanting the world Ecstatic experiences pervade the reenchanting world Both fundamentalism and the New Age movement promote the free flow of charisma reshaping religion in unforeseen directions Analysing the crisis of modernity this book delves into the intricacies of these movements to examine the implications of religious change in the new millennium The authors provide an incisive assessment of religious change in the West and Asia to suggest an eclecticism in re enchantment that will usher in new ideas about charisma consciousness and spirituality These ideas focus on new forms of shamanism that point the way to experiences of empowerment beyond the structures of disenchantment

**Living, Dreaming, Dying** Rob Nairn, 2004-08-03 The Tibetan Book of the Dead is one of the best known Tibetan Buddhist texts It is also one of the most difficult texts for Westerners to understand In *Living Dreaming Dying* Rob Nairn presents the first interpretation of this classic text using a modern Western perspective avoiding arcane religious terminology keeping his explanations grounded in everyday language Nairn explores the concepts used in this highly revered work and brings out their meaning and significance for our daily life He shows readers how the Tibetan Book of the Dead can help us understand life and self as well as the dying process *Living Dreaming Dying* helps readers to live deliberately and confront death deliberately One thing that prevents us from doing that according to Nairn is our tendency to react fearfully whenever change occurs But if we confront our fear of change and the unknown we can learn to flow gracefully with the unfolding circumstances of life rather than be at their mercy Of course change occurs throughout our life but a period of transition also occurs as we pass from the waking state into sleep and likewise as we pass into death Therefore the author's teachings apply equally to living as well as to dreaming and dying Through meditation instructions and practical exercises the author explains how to Explore the mind through the cultivation of deep meditation states and expanded consciousness Develop awareness of negative tendencies Use deep sleep states and lucid dreaming to increase self understanding as well as to train oneself in how to die so that one is prepared for when the time comes Confront and liberate oneself from fear of death and the unknown
