Betraying Our Troops Dina Rasor, Robert Bauman, 2007-05-01 In this shocking expos two government fraud experts reveal how private contractors have put the lives of countless American soldiers on the line while damaging our strategic interests and our image abroad From the shameful war profiteering of companies like Halliburton KBR to the sinister influence that corporate lobbyists have on American foreign policy Dina Rasor and Robert H Bauman paint a disturbing picture Here they give the inside story on troops forced to subsist on little food and contaminated water on officers afraid to lodge complaints because of Halliburton s political clout on millions of dollars in contractors bogus claims that are funded by American taxpayers Drawing on exclusive sources within government and the military the authors show how money and power have conspired to undermine our fighting forces and threaten the security of our country **Terrorism** , 2009

Shadow Force David Isenberg, 2008-12-30 From their limited use in China during World War II for example to their often clandestine use in Vietnam ferrying supplies before the war escalated in 1964 and 1965 when their role became more prominent and public private military contractors PMCs have played made essential contributions to the success and failures of the military and United States Today with an emphasis on force restructuring mandated by the Pentagon the role of PMCs and their impact on policy making decisions is at an all time peak This work analyzes that impact focusing specifically on PMCs in Iraq since the fall of Saddam Hussein in 2003 Isenberg dissects their responsibilities the friction that exists between contractors and military commanders problems of protocol and accountability as well as the problems of regulation and control that PMC companies create for domestic politics Isenberg organizes his work thematically addressing all facets of PMCs in the current conflict from identifying who the most influential companies are and how they got to that point to the issues that the government military and contractors themselves face when they take the field He also analyzes the problem of command control and accountability It is no secret that PMCs have been the source of consternation and grief to American military commanders in the field As they work to establish more routine protocols in the field however questions are also being raised about the role of the contractors here at home The domestic political arena is perhaps the most crucial battleground on which the contractors must have success After all they make their corporate living off of taxpayer dollars and as such calls for regulation have resonated throughout Washington D C growing louder as the profile of PMCs increases during the current conflict

The War on Terror James P. Private Military and Security Companies Andrew Alexandra, Deane-Peter Baker, Marina Caparini, 2009-10-16 Over the past twenty years Private Military and Security Companies PMSCs have become significant elements of national security arrangements assuming many of the functions that have traditionally been undertaken by state armies Given the centrality of control over the use of coercive force to the functioning and identity of the modern state and to international order these developments clearly are of great practical and conceptual interest This edited volume provides an interdisciplinary overview

of PMSCs what they are why they have emerged in their current form how they operate their current and likely future military political social and economic impact and the moral and legal constraints that do and should apply to their operation The book focuses firstly upon normative issues raised by the development of PMSCs and then upon state regulation and policy towards PMSCs examining finally the impact of PMSCs on civil military relations It takes an innovative approach bringing theory and empirical research into mutually illuminating contact Includes contributions from experts in IR political theory international and corporate law and economics and also breaks important new ground by including philosophical discussions of PMSCs

The Markets for Force Molly Dunigan, Ulrich Petersohn, 2015-01-21 The Markets for Force examines and compares the markets for private military and security contractors in twelve nations Argentina Guatemala Peru Ecuador the United Kingdom the Czech Republic Ukraine Russia Afghanistan China Canada and the United States Editors Molly Dunigan and Ulrich Petersohn argue that the global market for force is actually a conglomeration of many types of markets that vary according to local politics and geostrategic context Each case study investigates the particular characteristics of the region's market how each market evolved into its current form and what consequence the privatized market may have for state military force and the provision of public safety The comparative standpoint sheds light on better known markets but also those less frequently studied such as the state owned and managed security companies in China militaries working for private sector extractive industries in Ecuador and Peru and the ways warlord forces overlap with private security companies in Afghanistan An invaluable resource for scholars and policymakers alike The Markets for Force offers both an empirical analysis of variations in private military and security companies across the globe and deeper theoretical knowledge of how such markets develop Contributors Olivia Allison Oldrich Bures Jennifer Catallo Molly Dunigan Scott Fitzsimmons Maiah Jaskoski Kristina Mani Carlos Ortiz Ulrich Petersohn Jake Sherman Christopher Spearin

America's Mercenaries: War By Proxy Major Kevin G. Collins, 2014-08-15 Although the government's reliance on contractors to support military forces is not a new phenomenon the degree to which contractors are involved in Operations Enduring Freedom and Iraqi Freedom OIF has increased substantially In OIF in particular contractors perform a wide range of services in support of stabilization and reconstruction efforts Perhaps the most controversial and arguably the most

troublesome of these contractors are those that are armed and use violence in the course of fulfilling their contractual obligations This thesis explores whether or not such contractors herein identified as private security providers PSPs have a destabilizing influence on United States political and military objectives In doing so the thesis identifies and evaluates the legal environment in which PSPs operate the intersection between PSP activities and critical requirements and vulnerabilities of coalition forces and PSP involvement within logical lines of operation within Iraq In concluding the author posits that PSPs have a destabilizing impact on not only the political and military mission but the United States military as well Finally the author provides recommendations for employing PSPs in the present and future conflicts
