Sellek,2016-05-01 My story is a familiar one I was a high school athlete but sometime during my adult life I started to decline physically It started with hypothyroidism allergies and depression in my 20s and 30s By my 40s my allergies progressed to asthma I frequently got colds had trouble sleeping and gained 15 pounds I couldn t get rid of Quite frankly I felt like my body was falling into a downward spiral that I feared would end badly Experts told me what to eat and how to exercise but no matter what I did my body seemed to break down more That s when I set out to find new ways to improve my health I took classes studied my own body and experimented with elimination diets and exercise Eventually I recognized the subtle ways my body was telling me what it needed that I was ignoring The smarter and more diligent I became about responding to my body s cues the better the results the bigger the transformation Now in my 50s I m in the best health and shape of my life Family and friends who hadn t seen me in a while immediately noticed a difference and wanted to know what I was doing That s when I formalized my method which I call Integrative Body Conditioning with an emphasis of finding what works for you This book is presented in four sections each focusing on one aspect of Integrative Body Conditioning and one short section at the end that ties all the information together The first section Irritant Elimination addresses the primary reasons

the body weakens and gets sick Consisting of four chapters it covers the environmental biological physical and psychological factors that cause inflammation in the body and explains how if left untreated they can sabotage your health and fitness efforts The second section Nutrient Replacement is also made up of four chapters It describes the importance of figuring out which foods rejuvenate and rebuild your body while fixing any nutrient deficiencies and how to create a meal plan that ensures you're getting enough of the good stuff every day The third section Weightlifting and Conditioning covers the importance of continually leveling up and individualizing your strength training plan The key is targeting exercises that build and maintain whole body muscle strength in the shortest amount of time Starting lists of exercises and conditioning workouts are provided The fourth and final section Becoming a Body Whisperer describes how to take the concepts learned from the first three sections to achieve your best body potential It includes a brief explanation on how I practice the method on a daily basis as well as the single most important habit you need to embrace to build and maintain a strong body for life I've also included homework at the end of each section to help readers make the most of the material Don't skip the homework If you really want to get it you're going to need to witness and experience everything that's happening in your body Hence I strongly recommend you start a health journal Not only will it help you keep track of the homework it will help illuminate the subtle ways your body reacts to different food exercise and lifestyle choices as well as the cues it's providing to help rebalance it Finally if you're looking for a quick fix this book probably isn't for you This method is all about finding out how your body works and what it needs Each person's journey is different but by practicing this method you won't just learn how your body works you'll have the key that unlocks your ability to create a slender healthy strong and glowing body for the rest of your life
