Recasting Ritual:

Recasting Ritual Mary M. Crain, Felicia Hughes-Freeland, 2003-12-16 Recasting Ritual explores how ritualized action diversifies in response to varying cultural political and physical contexts The contributors look at how issues such as globalisation and technology affect ritual performance and how minorities often utilise performances to affirm their own identities while also speaking to outsiders The contributors examine the relationship between ritual meaning and social identity through case studies drawn from the Pacific Scandinavia the Mediterranean Latin America Indonesia and East and West Africa Study of the theoretical underpinnings of social action affirms the independence of anthropology as a discipline from cultural media and performance studies according it a distinctive role in elucidating contemporary and emergent human conditions

Recasting Ritual Felicia Hughes-Freeland, Mary Markwell Crain, 1998 Recasting Ritual uses worldwide case studies to explore how ritualized action changes in response to varying cultural political and physical contexts

Theorizing Rituals Jens Kreinath, Michael Stausberg, 2006 Volume two of Theorizing Rituals mainly consists of an annotated bibliography of more than 400 items covering those books edited volumes and essays that are considered most relevant for the field of ritual theory Instead of proposing yet another theory of ritual the bibliography is a comprehensive monument documenting four decades of theorizing rituals

Ritual and the Moral Life David Solomon, Ruiping Fan, Ping-cheung Lo, 2012-03-26 In the twentieth century in both China and the West ritual became marginalized in the face of the growth of secularism and individualism In China Confucianism and its essentially ritualistic comportment to the world were vigorously suppressed during the Cultural Revolution 1966 1976 under Mao Zedong But de ritualization already took place as a result of the Chinese Revolution of 1911 under Sun Yat Sen In the West while the process of de ritualization has been generally more gradual it has been nonetheless drastic In contrast to this situation this volume investigates the crucial role ritual plays in constituting the human understanding of their place in the cosmos the purpose of their lives and imbues human existence with a more complete sense of meaningfulness This volume presents the work of philosophers from both China and the West as they reflect upon the constitutive role that ritual plays in human life They reflect not only on ritual in general but also on specific Confucian and Christian appreciations of ritual This provocative volume is a beacon of warning to Western philosophers who think they have graduated from the trappings of ritual and a beacon of hope for Eastern thinkers who wish to avoid cultural fragmentation The Editors both Eastern and Western have together created a seamless work that not only introduces ritual but advances an argument for the contribution that ritual makes to cultural renewal This volume is a work of philosophical thinking about ritual doing but challenges those who think to realize that the salvation of philosophical thinking rests in the particularity and contingency of ritual doing Let us hope this volume is widely read for it points to that which might renew the West Jeffrey P Bishop Saint Louis University

Initiation in Ancient Greek Rituals and Narratives David Dodd, Christopher A. Faraone, 2013-09-05. Scholars of classical history and literature have for more than a century accepted initiation as a tool for understanding a variety of obscure rituals and myths ranging from the ancient Greek wedding and adolescent haircutting rituals to initiatory motifs or structures in Greek myth, comedy and tragedy. In this book an international group of experts including Gloria Ferrari, Fritz Graf and Bruce Lincoln critique many of these past studies and challenge strongly the tradition of privileging the concept of initiation as a tool for studying social performances and literary texts in which changes in status or group membership occur in unusual ways. These new modes of research mark an important turning point in the modern study of the religion and myths of ancient Greece and Rome, making this a valuable collection across a number of classical subjects.

Changing Contexts, Shifting Meanings Elfriede Hermann, 2011-09-30. This book sheds new light on processes of cultural transformation at work in Oceania and analyzes them as products of interrelationships between culturally created meanings and specific contexts. In a series of inspiring essays noted scholars of the region examine these interrelationships for insight into how cultural traditions are shaped on an ongoing basis. The collection marks a turning point in the debate on the conceptualization of tradition. Following a critique of how tradition has been viewed in terms of dichotomies like authenticity vs inauthenticity, contributors stake out a novel perspective in which tradition figures as context-bound articulation. This makes it possible to view cultural traditions as resulting from interactions between people, their ideas, actions and objects and the ambient contexts. Such interactions are analyzed from the past down to the Oceanian present, with indigenous agency being highlighted. The work focuses first on early encounters, initially between Pacific Islanders themselves and later with the European navigators of the late eighteenth and early nineteenth centuries, to clarify how meaningful actions and contexts interrelated in the past. The present-day memories of Pacific Islanders are examined to ask how such memories represent encounters that occurred long ago and how they influenced the social, political, economic and religious changes that ensued. Next, contributors address ongoing social and structural interactions that social actors enlist to shape their traditions within the context of globalization and then the repercussions that these intersections and intercultural exchanges of discourses and practices are having on active identity formation as practiced by Pacific Islanders. Finally, two authorities on Oceania who themselves move in the intersecting space between anthropology and history discuss the essays and add their own valuable reflections. With its wealth of illuminating analyses and illustrations, *Changing Contexts, Shifting Meanings* will appeal to students and scholars in the fields of cultural and social anthropology, history, art history, museology, Pacific studies, gender studies, cultural studies and literary criticism. Lifeblood of the Parish Alyssa Maldonado-Estrada, 2020-12-08 A New York City ethnography that explores men's unique approaches to Catholic devotion Every Saturday and sometimes on weekday evenings a group of men in old clothes can be found in the basement of the Shrine Church of Our Lady of Mount Carmel in Williamsburg Brooklyn Each year the

parish hosts the Feast of Our Lady of Mount Carmel and San Paolino di Nola Its crowning event is the Dance of the Giglio where the men lift a seventy foot tall four ton tower through the streets bearing its weight on their shoulders Drawing on six years of research Alyssa Maldonado Estrada reveals the making of this Italian American tower as the men work year round to prepare for the Feast She argues that by paying attention to this behind the scenes activity largely overlooked devotional practices shed new light on how men embody and enact their religiosity in sometimes unexpected ways Lifeblood of the Parish evocatively and accessibly presents the sensory and material world of Catholicism in Brooklyn where religion is raucous and playful Maldonado Estrada here offers a new lens through which to understand men s religious practice showing how men and boys become socialized into their tradition and express devotion through unexpected acts like painting woodworking fundraising and sporting tattoos These practices though not usually considered religious are central to the ways the men she studied embodied their Catholic identity and formed bonds to the church **Powers of Good and Evil**

Paul Clough,Jon P. Mitchell,2001-06-01 A key theme in the anthropology of beliefs is the relationship between socio economic change and changes in the belief system It has been widely argued that rapid economic change particularly the introduction of capitalism leads to an increase in beliefs in and representations of evil and the devil These beliefs it is argued constitute forms of resistance to or rejection of modernity This volume builds on these arguments suggesting that rather than an indigenous resistance to capitalism such representations signal a profound moral ambivalence towards the socio economic process inherent in capitalist economy Using a range of examples from Surinamese zombies to American horror films it demonstrates the extent to which evil imagery is linked to a fear of excess particularly in situations where people find themselves or perceive themselves to be peripheral to the centers of political economic and cultural power Rehearsing
