**Recent Turkish Coin Hoards and Numismatic Studies** C. S. Lightfoot, 2017-10-01 Twelve new studies of Greek and Roman coins from Anatolia **Numismatic Literature**, 1992 *Colonial Geopolitics and Local Cultures in the Hellenistic and Roman East (3rd century BC - 3rd century AD)* Hadrien Bru, Adrian George Dumitru, Nicholas Sekunda, 2021-12-23 What changes in the material culture can we observe when a state is overwhelming a local population with soldiers katoikoi and civil officials or merchants What were the mutual influences between native and colonial cultures This collection addresses these questions and many more focusing on the Hellenistic and Roman East *American Journal of Numismatics*, 1995

The Image of Political Power in the Reign of Nerva, AD 96-98 Nathan T. Elkins, 2017 At age 65 Nerva assumed the role of emperor of Rome just sixteen months later his reign ended with his death Nerva's short reign robbed his regime of the opportunity for the emperor's imperial image to be defined in building or monumental art leaving seemingly little for the art historian or archaeologist to consider In view of this paucity studies of Nerva primarily focus on the historical circumstances governing his reign with respect to the few relevant literary sources The Image of Political Power in the Reign of Nerva AD 96-98 by contrast takes the entire imperial coinage program issued by the mint of Rome to examine the self representation and by extension the policies and ideals of Nerva's regime The brevity of Nerva's reign and the problems of retrospection caused by privileging posthumous literary sources make coinage one of the only ways of reconstructing anything of his image and ideology as it was disseminated and developed at the end of the first century during the emperor's lifetime The iconography of this coinage and the popularity and spread of different iconographic types as determined by study of hoards and finds and as targeted towards different ancient constituencies offers a more positive take on a little studied emperor Across three chapters Elkins traces the different reverse types and how they would have resonated with their intended audiences concluding with an examination of the parallels between text and coin iconography with previous and subsequent emperors The Image of Political Power in the Reign of Nerva AD 96-98 thus offers significant new perspectives on the agents behind the selection and formulation of iconography in the late first and early second century showing how coinage can act as a visual panegyric similar to contemporary laudatory texts by tapping into how the inner circle of Nerva's regime wished the emperor to be seen The Customs Law of Asia M. Cottier, M. H. Crawford, C. V. Crowther, J. L. Ferrary, B. M. Levick, O. Salomies, M. Wörrle, 2008-12-18 The Roman Empire was based on law and it was vital for rulers and ruled that laws should be understood They were often given permanent form in stone or bronze This book transcribes translates and fully illustrates with photographs the inscription more than 155 lines in its damaged state that carries the regulations drawn up over nearly two centuries for the customs dues of the rich province of Asia western Turkey The regulations taken from Roman archives were set up in Greek in Ephesus and the book provides a rendering of the text back into Latin The damaged text is hard to restore and to interpret Six scholars offer line by line commentary and five essays bring out its significance from the Gracchi
