Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10

This Biographical Dictionary provides detailed accounts of the lives, works, influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century. This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy such as Nietzsche, Wittgenstein and Russell are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non-European, Hispanic language communities. The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of thought such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date.

Structure The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers nationality, dates and places of birth and death, philosophical style or school, areas of interest, higher education, significant influences, main appointments, main publications, secondary literature, account of intellectual development and main ideas, critical reception and impact. At the end of the book, a glossary gives accounts of the schools, movements and traditions to which these philosophers belonged, and thorough indexes enable the reader to access the information in several ways: by nationality, by major areas of contribution to philosophy (e.g. aesthetics), by major influences on the thinker concerned (e.g. Plato, Kant, Wittgenstein).

Recent Perspectives in American Philosophy Y.H.

Krikorian, 2012-12-06 The essays in this book analyze significant perspectives of the recent past in American philosophy; they represent some of the major trends of this period. Alfred North Whitehead is included with the recent American philosophers since his major philosophic ideas were fully developed in this country. There has been no attempt to deal comprehensively with this period. Several philosophers of equal importance who also deserve attention (C. I. Lewis, A. O. Lovejoy, W. F. Montague, R. B. Perry, F. J. E. Woodbridge and others) have not been discussed. Most of the essays were published at various times in various journals. Though all of the perspectives are presented with sympathetic understanding, they are also critically evaluated.

2. AMERICAN PHILOSOPHY OF THE RECENT PAST But even more than individual philosophers and schools of philosophy, the larger background of contemporary American life has nourished the empirical spirit. Science as the most pervasive climate of our intellectual and practical activity has enhanced the empirical attitude. The great development in this country of business and technological industry has encouraged the pragmatic empirical outlook. Empiricism, however, is an ambiguous term and its different meanings have different philosophic consequences. For some it means that only concrete personal experience can be accepted as reality; for others it means the succession of sense impressions. The more recent usage, the one that has been

dominant in American philosophy identifies empiricism with objectively and socially verifiable pronouncements that is with experimentalism or confirmation through demonstrable evidence *Elements of the New Metaphysics and Other Writings of the Last Philosopher* Loren Berengere, 2022-06-06 Also by this author *Essays on Time and Space Infinity and the Superman The New Politics the spirit and fate of conservatism and progressivism Political Mythologies of the Right and the Left are Detected and Overthrown The Sixteen Satires Productions already written Berengere contra Nietzsche Jeremiads from the Bottom of a Mousehole reply to Søren Kierkegaard and other close encounters with the history of theology The Relation of the Artwork to Time and Space Notes on Aesthetics excerpted in this volume Exemplary Epigrams for the Smart Set Elements of the New Sovereignty* *Ancient Logic and Its Modern Interpretations* J. Corcoran, 2012-12-06 During the last half century there has been revolutionary progress in logic and in logic related areas such as linguistics Historical knowledge of the origins of these subjects has also increased significantly Thus it would seem that the problem of determining the extent to which ancient logical and linguistic theories admit of accurate interpretation in modern terms is now ripe for investigation The purpose of the symposium was to gather logicians philosophers linguists mathematicians and philologists to present research results bearing on the above problem with emphasis on logic Presentations and discussions at the symposium focused themselves into five areas ancient semantics modern research in ancient logic Aristotle's logic Stoic logic and directions for future research in ancient logic and logic related areas Seven of the papers which appear below were originally presented at the symposium In every case discussion at the symposium led to revisions in some cases to extensive revisions The editor suggested still further revisions but in every case the author was the final judge of the work that appears under his name *Recent Philosophers* John Arthur Passmore, 1985 *A Dictionary of Philosophy in the Words of Philosophers* J. Radford Thomson, 1887 *Models of the History of Philosophy* Giovanni Santinello, Gregorio Piaia, 2010-12-01 This volume is the translation of *Dall et cartesiana a Brucker* the second volume of the multi volume work *Storia delle storie generali della filosofia* It guides the reader from the Cartesian rejection of the philosophical past that found voice in the work of Malebranche to the establishment of a critical history of philosophy by 18th century thinkers A F Boureau Deslandes and J J Brucker The latter pair investigated philosophy from its most ancient origins up to the contemporary age and oversaw the transformation of the history of philosophy into a genre in its own right thus spawning dozens of works that made a major contribution to the culture of the Enlightenment Through careful analysis of more than 36 separate works the authors show how in the span of a single century the theoretical and methodological techniques used to assess the history of philosophy were refined and developed *Santayana-Arg Philosophers* Timothy L. S. Sprigge, 2013-07-04 First published in 1999 The purpose of this series is to provide a contemporary assessment and history of the entire course of philosophical thought Each book constitutes a detailed critical introduction to the work of a philosopher of major influence and significance The arguments of the philosophers take on many differing forms Those of George Santayana bear little similarity to what we find

today in the Journal of Philosophy indeed some have been misled by his imagery and splendid prose style to believe that no arguments are being made at all in Santayana's many books Timothy Sprigge's gift is an ability to draw clear ties between these writings and important contemporary issues and to show that Santayana makes a contribution to today's arguments

Introduction to Ethics Chhanda Chakraborti, 2023-09-17 The book introduces the reader to western ethics as a subject along with its three standard subdivisions Although the book is written with university students policymakers and professionals in mind the book is lucid enough to be accessible to most adult readers The book begins with introductions to the basics of ethics These chapters are meant to provide the reader with the background knowledge necessary for understanding the more technical chapters on metaethics normative ethics theories and applied ethics the three well known subdivisions within ethics The chapters that follow take up core ethical issues from each of these areas The sections focus on explanation and a critical understanding of the ethical issue The chapters also have examples cases and exercises to encourage critical thinking and to enable the reader to grasp the issue better The book has tried to bring contemporary issues such as ethics of human organ transplantation and contemporary theories such as Amartya Sen's concept of Justice and Martha Nussbaum's Capabilities Approach to engage the readers with ethics in the real world The book concludes with applied ethics but with the example of ethics of artificial intelligence The aim is to keep ethics as a future driven activity and to emphasize the need to understand the real world ethical situations and dilemmas that will affect the stakeholders all around the world in the coming years as artificial intelligence and data driven technologies change our everyday life

Philosophy and the Arts in Central Europe, 1500-1700 Joseph S. Freedman, 2024-10-28 The articles in this collection focus on instruction and writings arising from that instruction in philosophy and the arts during the sixteenth and seventeenth centuries with emphasis on Central Europe The introduction brings together and expands upon many of the topics discussed and conclusions reached in the remaining seven articles Four of these articles are devoted to examining the significance of two ancient authors Aristotle and Cicero and of two more recent ones Petrus Ramus and Bartholomew Keckermann The article on Keckermann is based in part on previously unpublished biographical and bibliographical source materials Two concepts encyclopedia and philosophy as utilized in the 16th and 17th centuries constitute the subject matter of separate articles And one article focuses primarily on curriculum plans written during the 16th and early 17th centuries These eight articles are based on a wide array of printed and manuscript source materials which are cited together with library archive locations and call numbers and which are made more easily accessible through three indices at the conclusion of this volume

Last Essays by the Right Hon. Professor F. Max Müller ... First Series Friedrich Max Müller, 1901

Race after Sartre Jonathan Judaken, 2008-08-26 Race after Sartre is the first book to systematically interrogate Jean Paul Sartre's antiracist politics and his largely unrecognized contributions to critical race theories postcolonialism and Africana existentialism The contributors offer an overview of Sartre's positions on racism as they changed throughout the

course of his life providing a coherent account of the various ways in which he understood how racism could be articulated and opposed They interrogate his numerous and influential works on the topic and his insights are utilized to assess some of today's racial quandaries including the November 2005 riots in France Hurricane Katrina immigration affirmative action and reparations for slavery and apartheid The contributors also consider Sartre's impact upon the insurgent antiracist activists and writers who also walked the roads to freedom that Sartre helped pave

A Philosopher at the Crossroads Amos Edelheit, 2022-03-16 This study explains how one of the most remarkable thinkers of the Italian Renaissance Giovanni Pico della Mirandola 1463-1494 broke new ground by engaging with the scholastic tradition while maintaining his humanist sensibilities A central claim of the monograph is that Pico was a philosopher at the crossroads whose sophisticated reading of numerous scholastic thinkers enabled him to advance a different conception of philosophy The scholastic background to Pico's work has been neglected by historians of the period This omission has served to create not only an unreliable picture of Pico's thought but also a more general ignorance of the dynamism of scholastic thought in late fifteenth century Italy The author argues that these deficiencies of modern scholarship stand in need of correction

The Reception of David Hume In Europe Peter Jones, 2005-12-04 The intellectual scope and cultural impact of British writers cannot be assessed without reference to their European fortunes These essays prepared by an international team of scholars critics and translators record the ways in which David Hume has been translated evaluated and emulated in different national and linguistic areas of Europe This is the first collection of essays to consider how and where Hume's works were initially understood throughout Europe They reflect on how early European responses to Hume relied on available French translations and concentrated on his Political Discourses and his History and how later German translations enabled professional philosophers to discuss his more abstract ideas Also explored is the idea that continental readers were not able to judge the accuracy of the translations they read nor did many consider the contexts in which Hume was writing rather they were intent on using what they read for their own purposes

Orthodox Mysticism and Asceticism Constantinos Athanasopoulos, 2020-08-27 The scholarly contributions gathered together in this volume discuss themes related to the cultural social and ethical dimension of St Gregory Palamas' works They relate his mystical philosophy and theology to contemporary debates in metaphysics philosophy of language ethics philosophy of culture political philosophy epistemology and philosophy of religion and theology among others The book considers a variety of topics of special interest to Christian theologians philosophers and art historians including church and state relations similarities and differences between Palamas contemporary phenomenologists and philosophers of language and hesychast influences on late Byzantine iconography

Neo-Confucianism Stephen C. Angle, Justin Tiwald, 2017-03-27 Neo-Confucianism is a philosophically sophisticated tradition weaving classical Confucianism together with themes from Buddhism and Daoism It began in China around the eleventh century CE played a leading role in East Asian cultures over the last millennium and has had a profound influence on modern Chinese society Based on the latest

scholarship but presented in accessible language Neo Confucianism A Philosophical Introduction is organized around themes that are central in Neo Confucian philosophy including the structure of the cosmos human nature ways of knowing personal cultivation and approaches to governance The authors thus accomplish two things at once they present the Neo Confucians in their own distinctive terms and they enable contemporary readers to grasp what is at stake in the great Neo Confucian debates This novel structure gives both students and scholars in philosophy religion history and cultural studies a new window into one of the world s most important philosophical traditions
