Sambia Sexual Culture Essays From The Field:

Sambia Sexual Culture Gilbert Herdt, 1999-06 This collection of essays on the sexual culture of the Sambia of Papua New Guinea examines fetish and fantasy ritual nose bleeding the role of homoerotic insemination the role of the father and mother in the process of identity formation

Sambia Sexual Culture Gilbert Herdt, 1999-06-01 Few cultures have received as much attention in the study of erotic desire sexuality and gender as the Sambia of Papua New Guinea Here for the first time is a collection of groundbreaking essays and a new introduction on the Sambia's sexual culture by the renowned anthropologist Gilbert Herdt Over the course of 20 years Herdt made 13 field trips to live with the Sambia in order to understand sexuality and ritual in the context of warfare and gender segregation Herdt's essays examine Sambia fetish and fantasy ritual nose bleeding the role of homoerotic insemination the role of the father and mother in the process of identity formation and the creation of a third sex in nature and culture He also discusses the representation of homosexuality in cross cultural literature on premodern societies arguing that scholars have long viewed desires through the tropes of negative western models Herdt asks us to reconsider the realities and subjective experiences of desires in their own context and to rethink how the homoerotic is expressed in radically divergent sexual cultures

Sexual Essays James Giles, 2017-11-22 Sexuality is a basic feature of human life Gender sexual and romantic attraction sexual excitement and sexual desire and fantasies all move in various degrees through our daily awareness However despite this pervasiveness there is much disagreement surrounding the nature of such things and experiences This book explores just these issues in an attempt to get clear about this enigmatic aspect of our existence Through a series of interrelated essays internationally acclaimed philosopher James Giles takes the reader on a fascinating journey to the depths of experiential social biological and evolutionary aspects of sexual life Presenting his arguments and ideas in a clear and easy to follow language Giles criticizes several popular views clearing the way for his own unique vision of human sexuality Often controversial always engaging these pages will prove to be absorbing reading for anyone who has ever pondered the nature of sexuality and why it fills our lives in the way it does

Complexities Susan McKinnon, Sydel Silverman, 2005-06 Recent years have seen a growing impetus to explain social life almost exclusively in biological and mechanistic terms and to dismiss cultural meaning and difference This book presents evidence to contest such theories and to provide a multifaceted account of the complexity and variability of the human condition

The Challenge of Epistemology Christina Toren, João de Pina-Cabral, 2011-10-01 Epistemology poses particular problems for anthropologists whose task it is to understand manifold ways of being human Through their work anthropologists often encounter people whose ideas concerning the nature and foundations of knowledge are at odds with their own Going right to the heart of anthropological theory and method this volume discusses issues that have vexed practicing anthropologists for a long time The authors are by no means in agreement with one another as to where the answers might lie Some are primarily concerned with the clarity and theoretical utility of analytical categories

across disciplines others are more inclined to push ethnographic analysis to its limits in an effort to demonstrate what kind of sense it can make All are aware of the much wanted differences that good ethnography can make in explaining the human sciences and philosophy The contributors show a continued commitment to ethnography as a profoundly radical intellectual endeavor that goes to the very roots of inquiry into what it is to be human and to anthropology as a comparative project that should be central to any attempt to understand who we are **Imacoqwa's Arrow** Jadran Mimica,2025-05-30 A

pathbreaking study of Yagwoia cosmological concepts In Imacoqwa s Arrow Jadran Mimica draws on decades of field research to bring us a rich ethnographic account of myth and meaning in the lifeworlds of the Yagwoia of Papua New Guinea He focuses especially on the relations of the sun and the moon in Yagwoia understandings of the universe and their own place within it This is classic terrain in Melanesian ethnography but Mimica does much more than add to the archive of anthropological accounts of the significance of the sun and the moon for peoples of this part of the world With extraordinary rigor and reflexivity he grounds his understanding of Yagwoia concepts in psychoanalytic and phenomenological methods that afford a radically new and revealing translation of these seminal themes in Melanesian mythology and its poetics This is a major contribution to the hermeneutics of ethnographic translation and theorization Wayward Women Holly

Wardlow,2006-05-08 Written with uncommon grace and clarity this extremely engaging ethnography analyzes female agency gendered violence and transactional sex in contemporary Papua New Guinea Focusing on Huli passenger women women who accept money for sex Wayward Women explores the socio economic factors that push women into the practice of transactional sex and asks how these transactions might be an expression of resistance or even revenge Challenging conventional understandings of prostitution and sex work Holly Wardlow contextualizes the actions and intentions of passenger women in a rich analysis of kinship bridewealth marriage and exchange revealing the ways in which these robust social institutions are transformed by an encompassing capitalist economy Many passenger women assert that they have been treated olsem maket like market goods by their husbands and natal kin and they respond by fleeing home and defiantly appropriating their sexuality for their own purposes Experiences of rape violence and the failure of kin to redress such wrongs figure prominently in their own stories about becoming wayward Drawing on village court cases hospital records and women s own raw caustic and darkly funny narratives Wayward Women provides a riveting portrait of the way modernity engages with gender to produce new and contested subjectivities **Exploring Inequality: A Sociological Approach**

Jenny M. Stuber,2021-09-08 Exploring Inequality A Sociological Approach examines the socially constructed nature of our identities the processes by which we acquire them prejudice and privilege and the unequal outcomes they produce within institutions Women as Unseen Characters Pascale Bonnemère,2013-03-26 Rituals have always been a focus of

ethnographies of Melanesia providing a ground for important theorizing in anthropology This is especially true of the male initiation rituals that until recently were held in Papua New Guinea For the most part these rituals have been understood as

all male institutions intended to maintain and legitimate male domination Women's exclusion from the forest space where men conducted most such rites has been taken as a sign of their exclusion from the entire ritual process Women as Unseen Characters is the first book to examine the role of females in Papua New Guinea male rituals and the first systematic treatment of this issue for any part of the world In this volume leading Melanesian scholars build on recent ethnographies that show how female kin had roles in male rituals that had previously gone unseen Female seclusion and the enforcement of taboos were crucial elements of the ritual process forms of presence in their own right Contributors here provide detailed accounts of the different kinds of female presence in various Papua New Guinea male rituals When these are restored to the picture the rituals can no longer be interpreted merely as an institution for reproducing male domination but must also be understood as a moment when the whole system of relations binding a male person to his kin is reorganized By dealing with the participation of women a totally neglected dimension of male rituals is added to our understanding Money, Myths, and Change M.V. Lee Badgett, 2003-11 The common stereotype that lesbians and gay men are more affluent than heterosexuals is only one of many misconceptions that M V Lee Badgett debunks in this comprehensive work Studying the ends and means of gay life from an economic perspective she paints a more accurate picture than ever before of gay and lesbian standards of living financial and family decisions and professional lives analyzing along the way the crucial issues that affect the livelihood of gay men and lesbians workplace discrimination denial of health care benefits to partners and children the corporate wooing of gay consumer dollars and the use of gay economic clout to inspire social and political change
