Samuel Butler Revalued:

Samuel Butler Revalued Thomas L. Jeffers, 1981 This book is first an essay in reassessment and rediscovery there has been no rigorously comprehensive study of Butler in over a generation It is also an essay in comparative criticism which places Butler between his early twentieth century heirs and his eighteenth century precursors While Butler is remembered chiefly as a novelist he defies generic classification With a lucidity and elegance that singularly befit the author of *The Way of All Flesh* Dr Jeffers leads the reader to comprehend Butler in all his facets as theologian moralist and educationist Butler was a writer who with remarkable success not only in the Pontifex saga and Erewhon but also in *The Fair Haven* *Life and Habit* and *The Notebooks* addressed himself to matters of enduring relevance Butler has long been recognized as an early exponent of ideas which certain twentieth century thinkers from Bergson to Whitehead to Freud either wittingly borrowed or unwittingly reconceived This line of study has however given the unwarranted impression that Butler was a lonely seer a studious eccentric who exhumed and galvanized the ideas of forgotten theorists like Lamarck and turned them against the deep rooted intellectual establishment of the late Victorian Age This is to mistake his social for his spiritual position His writings teem with ideas which are continuous with pre Victorian traditions of libertarianism in education hedonism in ethics and a half pious half iconoclastic agnosticism in theology Writers such as Locke Hume Dr Johnson Chesterfield and Cobbett helped variously to create and apply the philosophical assumptions which Butler found at hand when he needed a grounding different from his father's Pauline Christianity and public school hypothetics just as he himself went on to develop assumptions which Shaw Forster Virginia Woolf and others would have at hand in their different times of need *Samuel Butler, Victorian Against the Grain* James G. Paradis, 2007-01-01 Samuel Butler Victorian against the Grain is an interdisciplinary collection of essays that provides a critical overview of Butler's career one which places his multifaceted body of work within the cultural framework of the Victorian age **Samuel Butler against the Professionals** David Gillott, 2017-07-05 In the wake of the 2009 Darwin bicentenary Samuel Butler 1835 1902 is becoming as well known for his public attack on Darwin's character and the basis of his scientific authority as for his novels *Erewhon* and *The Way of All Flesh* In the first monograph devoted to Butler's ideas for over twenty years David Gillott offers a much needed reappraisal of Butler's work and shows how Lamarckian ideas pervaded the whole of Butler's wide ranging oeuvre and not merely his evolutionary theory In particular he argues that Lamarckism was the foundation on which Butler's attempt to undermine professional authority in a variety of disciplines was based *Samuel Butler against the Professionals* provides new insight into a fascinating but often misunderstood writer and on the surprisingly broad application of Lamarckian ideas in the decades following publication of the *Origin of Species* *Samuel Butler* Peter Raby, 1991 *Samuel Butler and the Meaning of Chiasmus* Ralf Norrman, 1986-01-20 **Handbook of the English Novel, 1830-1900** Martin Middeke, Monika Pietrzak-Franger, 2020-05-05 Part I of this authoritative handbook offers systematic essays which deal with major historical

social philosophical political cultural and aesthetic contexts of the English novel between 1830 and 1900 The essays offer a wide scope of aspects such as the Industrial Revolution religion and secularisation science technology medicine evolution or the increasing mediatization of the lifeworld Part II then leads through the work of more than 25 eminent Victorian novelists Each of these chapters provides both historical and biographical contextualisation overview close reading and analysis They also encourage further research as they look upon the work of the respective authors at issue from the perspectives of cultural and literary theory Outlaw Fathers in Victorian and Modern British Literature Helena Gurfinkel, 2014-03-27

Outlaw Fathers in Victorian and Modern British Literature Queering Patriarchy traces the representations of outlaw fathers or queer patriarchs and their relationships with their queer sons in a particular literary tradition mid to late Victorian and twentieth century British fiction and memoir Specifically I look at such representations in Anthony Trollope's *Doctor Thorne* 1858 and *The Prime Minister* 1875-76 while also drawing on *An Autobiography* 1883 and *The Duke's Children* 1880 Samuel Butler's *The Way of All Flesh* published in 1901 Henry James's *The Lesson of the Master* 1888 J R Ackerley's *My Father and Myself* written in the 1930s and published in 1968 E M Forster's *Little Imber* 1961 with an occasional detour into *The Longest Journey* 1907 *Howards End* 1909 and *Maurice* published in 1971 and Alan Hollinghurst's *The Spell* 1998 In the coda I consider the implications of including transgender transnational female to male fathers of color in the ranks of queer patriarchy and discuss two contemporary novels Jackie Kay's *Trumpet* 1998 Scotland and Patricia Powell's *The Pagoda* 1998 Jamaica and the United States as well as briefly an episode an episode of the television show *The L Word* 2008 and the documentary *U People* 2007 The term queer patriarchy has two components The first one is a non traditional primarily but not exclusively non heterosexual pervasively present and culturally important paternal subjectivity The second one is the bond between such queer paternal figures and their sons biological and non biological This study pays attention primarily to the relationship between psyche language and ideology but it will join a larger conversation about the changing roles of men in general and fathers in particular which is taking place outside of the field of literary studies **Virginia Woolf,**
