Constitutionalism Across Borders in the Struggle Against Terrorism Federico Fabbrini, Vicki C. Jackson, 2016-04-29 This edited collection explores the topic of constitutionalism across borders in the struggle against terrorism analyzing how constitutional rules and principles relevant in the field of counter terrorism move across borders Various chapters underline how constitution like norms consolidate at the level of international and supranational organizations as a limit to the exercise of public power in the field of counter terrorism policy especially counter terrorism financing Other chapters examine the extraterritorial application of constitutional rights and the migration of constitutional norms or anti constitutional practices from one state to another Still others consider how transnational cooperation between states in areas such as intelligence gathering and data sharing may call for updating domestic constitutional law rules or for new international law compacts entrenching rights across borders What emerges is a picture of the complex interplay of constitutional law international law criminal law and the law of war creating webs of norms and regulations that apply in the struggle against terrorism conducted across increasingly porous borders The book will be of particular interest to academics and graduate or postgraduate students working in the fields of

constitutional law international law human rights comparative law and national security law It may also be of interest to practitioners concerned with national security counter terrorism and related questions of individual rights

Promoting Justice Across Borders Lucia M. Rafanelli, 2024-01-11 Global political actors of all kinds exert influence in societies beyond their own in myriad ways including via public criticism consumer boycotts divestment campaigns sanctions and forceful intervention Often they do so in the name of justice promotion These attempts to promote justice in foreign societies raise several moral questions For example are there ways to promote one's own ideas about justice in another society while still treating its members tolerantly Are there ways to do so without disrespecting their legitimate political institutions or undermining their collective self-determination This book addresses these and other questions to develop ethical principles we can use to determine whether a proposed attempt to promote justice in a foreign society is morally permissible

The Ethics of Humanitarian Intervention Jonathan Parry, 2024-12-20 Few topics generate as much controversy and debate as armed humanitarian intervention Military force involves death and destruction as well as interfering in other countries' domestic affairs But crucially non-intervention is also controversial When confronted with humanitarian crises abroad many feel that outsiders are not only justified in using force to halt the abuses but that they must do so The Ethics of Humanitarian Intervention An Introduction offers a guide to these ethical debates In clear and informative style Jonathan Parry explores the following topics The morality of defending others including the responsibility to protect R2P State sovereignty and self-determination as barriers to intervention The possibility of consensual intervention Just causes for intervention what kinds of human rights abuses warrant intervention The effectiveness of intervention does it work in practice Alternatives to intervention including aiding rebels economic sanctions and providing aid Whether there is a

duty to intervene Examples of intervention including the former Yugoslavia Iraq Liberia and Libya are used to illustrate the ethical dilemmas in question The arguments of important theorists of intervention such as John Stuart Mill Michael Walzer and Jeff McMahan are also explained clearly and critically Each chapter concludes with questions for discussion and reflection The Ethics of Humanitarian Intervention An Introduction is ideal reading for students and researchers in philosophy applied ethics politics and international relations Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

The Alternatives to War James Pattison, 2018-06-03 If states are not to go to war what should they do instead In *The Alternatives to War* James Pattison considers the case for the alternatives to military action to address mass atrocities and aggression The volume examines the normative issues raised by measures ranging from comprehensive economic sanctions diplomacy and positive incentives to criminal prosecutions nonviolent resistance accepting refugees and arming rebels For instance given the indiscriminateness of many sanctions regimes are sanctions any better than war Should states avoid megaphone diplomacy and adopt more subtle measures What if anything can nonviolent methods such as civilian defence and civilian peacekeeping do in the face of a ruthless opponent Is it a serious concern that positive incentives can appear to reward aggressors Overall Pattison provides a comprehensive account of the ethics of the alternatives to war In doing so he argues that the case for war is weaker and the case for many of the alternatives is stronger than commonly thought The upshot is that when reacting to mass atrocities and aggression states are generally required to pursue the alternatives to war rather than military action The volume concludes that this has significant implications for pacifism just war theory and the responsibility to protect doctrine

Research Handbook on Global Justice and International Economic Law John Linarelli, 2013-09-30 The fairness of institutions of global economic governance ranks among the most pressing issues of our time

Vigilantes Beyond Borders Mette Eilstrup-Sangiovanni, J. C. Sharman, 2022-04-05 How and why NGOs are increasingly taking independent and direct action in global law enforcement from human rights to the environment Nongovernmental organizations NGOs have generally served as advocates and service providers leaving enforcement to states Now NGOs are increasingly acting as private police prosecutors and intelligence agencies in enforcing international law NGOs today can be found investigating and gathering evidence suing and prosecuting governments companies and individuals and even catching lawbreakers red handed Examining this trend *Vigilantes beyond Borders* considers why some transnational groups have opted to become enforcers of international law regarding such issues as human rights the environment and corruption while others have not Three factors explain the rise of vigilante enforcement

demand supply and competition Governments commit to more international laws but do a poor job of policing them leaving a gap and creating demand Legal and technological changes make it easier for nonstate actors to supply enforcement as in the instances of NGOs that have standing to use domestic and international courts or smaller NGOs that employ satellite imagery big data analysis and forensic computing As the growing number of NGOs vie for limited funding and media attention smaller more marginal groups often adopt radical strategies like enforcement Looking at the workings of major organizations including Amnesty International Greenpeace and Transparency International as well as smaller players such as Global Witness the Sea Shepherd Conservation Society and Bellingcat Vigilantes beyond Borders explores the causes and consequences of a novel provocative approach to global governance *Human Life-A Philosophical Audit* Ahmed Sayeed,2014-02-24 Man is a social political and more intelligent animal and he is a higher specie in the realm of evolution of life on earth All humans are on and have equal rights for living and to possess basic needs like food clothing shelter water and electricity and to elect a leader for governance Here humans include women There is no distinction or discrimination of cast creed race region religion or regime The Position of Witnesses before the International Criminal Court Sylvia Ntube Ngane,2015-08-25 The book is an evaluation of the doctrine and practice of international criminal courts and tribunals on the position of witnesses against a theoretically informed ideal of a cosmopolitan world order It seeks to ascertain that there is a cosmopolitan international community with shared values that are instantiated in the international criminal tribunals and that is what justifies the exercise of jurisdiction over witnesses who provide false testimony or engage in other forms of contempt of court The book evaluates the practice of the International Criminal Court ICC the International Criminal Tribunal for the former Yugoslavia the International Criminal Tribunal for Rwanda and the Special Court for Sierra Leone
