

# Seriously Mentally Ill (SMI) Initiative

- The Governor's Introduced Budget provides \$600K/15 FTE in FY2019 and \$2.3M/36 FTE in FY2020.
- Addressing offenders with serious mental illness in Extended Restrictive Housing is a national trend led by the Department of Justice (DOJ) and the American Correctional Association (ACA).
- Approximately 27% of the DOC offender population currently requires some level of mental health service. 850 offenders have been identified as Seriously Mentally Ill and 100 of those SMI offenders are in restricted housing at any time.
- The Secure Diversionary Treatment Program (SDTP) was developed to provide a pathway for SMI classified offenders to break the General Population/Segregation cycle and receive appropriate mental health treatment services and programs based on a mental health evaluation and assessment.

## **Serving The Seriously Mentally Ill:**

Serving Mentally Ill Offenders Gerald Landsberg, DSW, Marjorie Rock, Dr. PH, Lawrence K.W. Berg, PhD, Esq., 2002-01-10 This comprehensive book addresses the complex issues associated with the criminalization of mentally ill offenders in the United States and the ways in which social workers and other mental health professionals can best channel their efforts to create better services and treatment. Specialists in law enforcement, community based mental health and outreach, the legal community, the corrections environment and substance abuse providers present best practices and programs that offer rehabilitation alternatives to mentally ill offenders. Unique to this volume is the perspective provided by key players of the criminal justice system including a judge, a prosecutor, an advocate, a defense attorney and a mentally ill offender. The last section provides in depth research into the challenges of placing the dually diagnosed offender into alternative to incarceration programs.

Serious Mental Illness Abraham Rudnick, David Roe, 2018-08-17

Practical and evidence based, this unique book is the first comprehensive text focused on person centered approaches to people with serious mental illness such as schizophrenia and bipolar disorder. It reflects a range of views and findings regarding assessment, treatment, rehabilitation, self help, policy making, education and research. It is highly recommended for all healthcare professionals, students, researchers and educators involved in general practice, psychiatry, nursing, social work, clinical psychology and therapy. Healthcare service providers and policy makers and shapers will find the book's wide ranging multi professional approach enlightening. Serious Mental Illness reflects a continued distancing from the outmoded and unsubstantiated belief that people with severe mental illnesses could not recover and that they would respond positively only to goals and treatment plans chosen, designed and implemented by providers in order to prevent their further deterioration. Anyone with an interest in the concept of person centered approaches will discover new ideas in this book. Indeed, anyone with an interest in person centered approaches has to read this book. Not only is it the first such book on person centered approaches but it will serve as the gold standard in this topic area for years to come. William A. Anthony in the Foreword.

Slate, Jacqueline K. Buffington-Vollum, W. Wesley Johnson, 2013-10-03 For a myriad of reasons the criminal justice system has become the de facto mental health system This book explores how and why this is the case Sensationalized cases often drive criminal justice policies that can sometimes be impulsively enacted and misguided While there are chapters that examine competency insanity and inpatient and outpatient commitment the primary focus of the book is on the bulk of encounters that clog the criminal justice system with persons with mental illnesses pwmi Criminal justice practitioners are often ill equipped for dealing with pwmi in crises However via application of therapeutic jurisprudence principles some agencies are better preparing their employees for such encounters and attempting to stop the inhumane and costly recycling of pwmi through the criminal justice system Coverage runs the gamut from deinstitutionalization to specialized law enforcement responses to mental health courts to jails and prisons to discharge planning diversion and reentry Also criminal justice practitioners in their own words provide insight into and examples of the interface between the mental health and criminal justice systems Throughout the book the balance between maintaining public safety and preserving civil liberties is examined as the state's police power and parens patriae roles are considered Reasoned collaborative approaches for influencing and informing policies that are often driven by crises are discussed this book also reflects more psychological underpinnings than the 1st edition as one of the co authors new to this edition is a forensic clinical psychologist The following Teaching Materials are available electronically on a CD or via email Please contact Beth Hall at [bhall@capress.com](mailto:bhall@capress.com) to request a copy and specify what format is needed Teacher's Manual with notes and extensive test bank in Word pdf formats Test bank is also available in separate files by chapter in Word and Blackboard formats Other LMS formats may be available let me know what you need Upon adoption only the following are also available 3 Videos Upon adoption only One video illustrates Crisis Intervention Team scenarios another explores PTSD and the third video is of a lecture author Risdon Slate gave to law enforcement in training that describes his own personal story PowerPoint slides will be available upon adoption Email [bhall@capress.com](mailto:bhall@capress.com) for more information I am so grateful that I have decided on this book and the resources are amazing Joseph C Marinello lecturer in the Department of Criminal Justice and Criminology UNC Charlotte on classroom adoption of second edition Notorious criminal cases tend to drive public

opinion and policy when it comes to how our criminal justice system deals with persons with mental illnesses Drs Slate and Johnson's book is a far brighter star to steer by By most accounts including the US Department of Justice our criminal justice system is in crisis In *The Criminalization of Mental Illness* the authors explain how our justice system has failed persons with mental illnesses the public and its own self interests But rather than place blame the authors focus on illuminating the history and anatomy of the problem and offering real solutions Because they are based on careful scholarship their proposals are authoritative and make sense But it is their informed empathy for all the players involved in the tragedy not just persons with mental illnesses that makes this book a must read for anyone involved in the criminal justice system or simply interested in knowing the truth of how it is broken and can be fixed Xavier F Amador Ph D Adjunct Professor Columbia University Author of the National Best Seller *I am Not Sick I Don't Need Help* and *I'm Right You're Wrong Now* What The book confronts myths and social political policy failures directly and with great honor recognizes those advocates whose work has moved social justice and mental health policy forward Their dedication and passion to the subject of promoting human rights and recovery is evident in every word It is a masterful relevant and inspiring work Ginger Lerner Wren the nation's first mental health court judge and member of the President's Commission on Mental Health This book provides extraordinary insights into the manner by which people with mental illness are processed through the criminal justice system I thoroughly enjoyed this work and would recommend it to anyone who has an interest in issues involving mental illness and the criminal justice system I have seen a few books in this area but have never found one quite as comprehensive and well researched It is without exception one of the best academic books that I have read in many years Penn State Altoona Professor Robert M Worley in his book review for *The Southwest Journal of Criminal Justice* Fall 2008 This is a highly insightful and important book which corrections staff academics students and the general public should know about Ken Kerle Ph D American Jail Association Overall this very readable book provides a good survey of the various sectors of the criminal justice system and their response to the substantive changes that have affected persons with mental illness during the recent past These authors provide a valuable guide for mental health professionals interested in appropriate treatment and placement of persons with mental illness Frederick J Frese Ph D Psychiatric Services A Journal of the American Psychiatric Association Without a doubt it is the most comprehensive explanation of what has happened between the two systems during the past 40 or so years It explains not only the crisis that exists and how we got here but some interesting and innovative ways that local governments are providing solutions More important than the chronicling of the impact of this social crisis it demonstrates with pointed examples how the two systems intertwine with well intentioned judicial and treatment policies No matter how you view the issue of the mentally ill in prison the book demonstrates that the person left out of the discussion is the defendant offender patient *Corrections Today* [Working With Serious Mental Illness](#) Catherine Gamble, Geoff Brennan, 2006-01-06 This title is directed primarily towards health care professionals outside of the United States In today's

mental health services there is a pressing need for practitioners to place greater emphasis on working with users of services and to use skills that have a sound theoretical basis This book focuses on evidence based practice but reflects that in mental health the best evidence is the personal experience of the user Many publications explore theoretical aspects of service delivery or provide an in depth analysis of specific clinical interventions However how practitioners comprehensively amalgamate theory with their practice is often missing This book fills that gap and seeks to guide plan and suggest down to earth treatment ideas for individuals on a day to day basis Mental health practice focused Full of practical advice user friendly clearly accessible and well designed Reflects user input including a chapter written by a user of mental health services describing their experiences of mental illness Leading contributors from practice Early intervention Supervision Implementation and practice development issues Meaningful activity and recovery Engaging and working with carers Relapse prevention
