**Advocating for Children in Foster and Kinship Care** Mitchell Rosenwald, Beth N Riley, 2010-01-29 This book is the first to provide strategies for effective advocacy and placement within the foster care and kinship care systems It also takes a rare look at the dynamics of the foster and kinship relationship not just among children and the agency workers and service providers who intervene on their behalf but also between children and those who take in and care for them as permanency develops Drawing on their experience interacting with and writing about the institution of foster care Mitchell Rosenwald

and Beth N Riley have composed a unique text that helps practitioners foster parents and relative caregivers realize successful transitions for youth especially considering the traumas these children may suffer both before and after placement. Advocating for a child's best interests must begin early and remain consistent throughout assignment and adjustment. For practitioners, Rosenwald and Riley emphasize the best techniques for assessing a family's capabilities and for guiding families through the challenges of foster care. Part one details the steps potential foster parents and kinship caregivers must take with the assistance of practitioners to prepare themselves for placement. Part two describes tactics for successful advocacy within the court system, social service agencies, schools, and the medical and mental health establishments. Part three describes how to lobby for change at the agency and legislative levels as well as within a given community. The authors illustrate recommendations through real-life scenarios and devote an entire chapter to brokering positive partnerships among practitioners, families, and other teams working to protect and transition children.

*Children, Sexuality, and the Law* Sacha M. Coupet, Ellen Marrus, 2015-05-22 American political and legal culture is uncomfortable with children's sexuality. While aware that sexual expression is a necessary part of human development, law rarely contemplates the complex ways in which it interacts with children and sexuality. Just as the law circumscribes children to a narrow range of roles, either as entirely sexless beings or victims or objects of harmful adult sexual conduct, so too does society tend to discount the notion of children as agents in the domain of sex and sexuality. Where a small body of rights related to sex has been carved out, the central question has been the degree to which children resemble adults, not necessarily whether minors themselves possess distinct and recognized rights related to sex, sexual expression, and sexuality. *Children, Sexuality, and the Law* reflects on some of the unique challenges that accompany children in the broader context of sex, exploring from diverse perspectives the ways in which children emerge in sexually related dimensions of law and contemporary life. It explores a broad range of issues from the psychology of children as sexual beings to the legal treatment of adolescent consent. This work also explores whether and when children have a right to expression as understood within the First Amendment. The first volume of its kind, *Children, Sexuality, and the Law* goes beyond the traditional discourse of children as victims of adult sexual deviance by highlighting children as agents and rights holders in the realm of sex, sexuality, and sexual orientation.

**Human Trafficking Is a Public Health Issue** Makini Chisolm-Straker, Hanni Stoklosa, 2017-01-26 This clear-sighted reference examines the public health dimensions of labor and sex trafficking in the United States, the scope of the crisis, and possibilities for solutions. Its ecological lifespan approach globally traces risk and protective factors associated with this exploitation, laying a roadmap towards its prevention. Diverse experts, including survivors, describe support and care interventions across domains and disciplines, from the law enforcement and judicial sectors to community health systems and NGOs, with a robust model for collaboration. By focusing on the humanity of trafficked persons, a public health paradigm broadens our understanding of and ability to address trafficking while adding critical direction and resources to the criminal justice and human rights structures.

Goldberg, 2024-01-16 The SAGE Encyclopedia of LGBTQ Studies 2nd Edition is aimed at students and educators interested in an interdisciplinary perspective on LGBTQ issues It examines and provides understandings of the lives and experiences of LGBTQ individuals with attention to the contexts and forces that shape their world The volume addresses questions such as What are the key theories used to understand variations in sexual orientation and gender identity What does LGBTQ affirmative therapy look like How have anti LGBTQ ballot measures affected LGBTQ people What are LGBTQ people s experiences during COVID 19 How were LGBTQ people impacted by the Trump administration What is life like for LGBTQ people living outside the United States This encyclopedia looks at LGBTQ issues and identity primarily through the lenses of psychology human development and sociology while emphasizing queer feminist and ecological perspectives on this topic Entries are written by top researchers and clinicians across multiple fields psychology human development gender queer studies sexuality studies social work nursing cultural studies education family studies medicine public health and sociology **Child and Family Advocacy** Anne McDonald Culp, 2013-06-25 Current statistics on child abuse neglect poverty and hunger shock the conscience doubly so as societal structures set up to assist families are failing them More than ever the

responsibility of the helping professions extends from aiding individuals and families to securing social justice for the larger community. With this duty in clear sight, the contributors to *Child and Family Advocacy* assert that advocacy is neither a dying art nor a lost cause but a vital platform for improving children's lives beyond the scope of clinical practice. This uniquely practical reference builds an ethical foundation that defines advocacy as a professional competency and identifies skills that clinicians and researchers can use in advocating at the local, state, and federal levels. Models of the advocacy process coupled with first-person narratives demonstrate how professionals across disciplines can lobby for change. Among the topics discussed: Promoting children's mental health; collaboration and public understanding; Health reform as a bridge to health equity; Preventing child maltreatment; early intervention and public education; Changing juvenile justice practice and policy; A multi-level framework for local policy development and implementation; When evidence and values collide; preventing sexually transmitted infections; Lessons from the legislative history of federal special education law. *Child and Family Advocacy* is an essential resource for researchers, professionals, and graduate students in clinical child and school psychology, family studies, public health, developmental psychology, social work, and social policy.
