**Transforming Settlement in Southern Africa** Chris de Wet, 2020-03-31 This volume examines the ways in which changing political and economic processes impact upon patterns of population movement and settlement. It focuses on the southern African region as it has moved from the experiments of the early independence era through civil war and refugee flight into the current era characterised by globalization and the demise of apartheid. Focused case studies from across the region deal with specific aspects of these transformations and their policy implications. Rural Settlement Structure And African Development Marilyn Silberfein, 2019-09-16 This volume is the result of a group of researchers applying their insights and experience to a common theme. All the authors are concerned with rural development in Africa and all have focused on the connection between the development process and the arrangement of people and their built environment in rural space. Both anthropologists and geographers have contributed to the dialogue on this subject and representatives of the two disciplines are included in this volume. The members of this group have never all been in the same place at the same time and so have utilized various electronic modes of communication to link their locations around the world. Two conferences were organized, however, among a subset of the whole in order to generate a group discussion. One of these meetings was a symposium on African rural development held at Temple University while a second was organized at the African Studies Association Meetings in Toronto. Both opportunities helped raise issues that found their way into individual chapters. The audience in each case further stimulated our thinking. Human Settlement Development - Volume I Saskia Sassen, 2009-09-30 Human Settlement Development is a component of Encyclopedia of Institutional and Infrastructural Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias. The Theme on Human Settlement Development deals in nine parts and four volumes with a myriad of issues of great relevance to our world such as Urban Sustainability and the Regional City System in the Asia Pacific, Peri Urbanization Zones of Rural Urban Transition, Urban Sustainability, Theoretical Perspectives on Integrating Economic Development and the Environment, Rural Sustainability, Using Foreign Direct Investment to Improve Urban Environmental Infrastructure and Services, The Case of Hanoi, Vietnam, The Long Road Towards Sustainable Cities, The Dutch case, Urban Dimensions of Sustainable Development, Rural Development, Participation and Diversity for Sustainability, The Cities, the State and the Markets, In Search of Sustainability. These four volumes are aimed at the following five major target audiences: University and College students, Educators, Professional practitioners, Research personnel and Policy analysts, managers and decision makers and NGOs. Dingake,2022-09-03 This book discusses the law related to unfair dismissal in Botswana It makes it clear that an employer is not free to dismiss an employee whenever they feel like doing it The law requires that an employee may only be dismissed for a valid reason and even then a fair procedure must be followed It follows from the above that a dismissal would be unfair if there is no valid reason or fair procedure or both The principle of fairness is unique to labour law and does not necessarily

apply to other areas of the law such as the law of contract Misconduct is the most common reason for dismissal but there are also other grounds such as poor performance at work redundancy incompatibility and incapacity which attract their own requirements This book by a former leading judge of the Industrial Court of Botswana is easily the most authoritative on the subject to date in the context of Botswana It is a useful practical guide to employees employers trade unions employers organizations HR practitioners and law students
