Seven Faces West:

Seven Faces West Bob Young, Jan Young, 1969 **Seven Faces of Women's Sport** Irene A. Reid, Jane Dennehy, 2018-10-15 This book explores the connections between women's experiences of and contributions to sport as a profession product and pastime This collection brings together insights and experiences from academics activists players and practitioners to critically reflect upon contemporary women's sport Excavations at Cill Donnain Mike Parker Pearson, Marek Zvelebil, 2014-06-30 The SEARCH Sheffield Environmental and Archaeological Research Campaign in the Hebrides project began in 1987 and covers the Scotland's Outer Hebrides The aim of the project is to investigate how human societies adapted in the long term to the isolated environment of the Outer Hebrides The first major excavation on South Uist discovered that what was thought to be a shell midden at Cill Donnain was in fact a wheelhouse a type of dwelling used in the period c 300 BC AD 500 under which lay the remains of a Bronze Age settlement This settlement was partly investigated by Marik Zvelebil in 1991 and then later by Mike Parker Pearson and Kate MacDonald in 2003 The site itself is situated at the foot of a high steep sided dune on the eastern edge of a large sand valley close to the western shore of Loch Cill Donnain The archaeological report of the excavation at the Cill Donnain wheelhouse shows that in comparison with contemporary neighbouring settlements it was unlikely that each was an independent unit and that they were linked by social and economic inter dependency The wheelhouse thus provides striking new evidence that contributes to developing theories about the social material and economic life in the period This volume presents the extensive archaeological evidence found at the site including pottery faunal remains and a variety of bone and metal tools illustrating that the Cill Donnain landscape is rich in archaeological sites of all periods from the Beaker to the post Medieval *Stone Worlds* Barbara Bender, Sue Hamilton, Christopher Tilley, 2016-09-16 This book represents an innovative experiment in presenting the results of a large scale multidisciplinary archaeological project The well known authors and their team examined the Neolithic and Bronze Age landscapes on Bodmin Moor of Southwest England especially the site of Leskernick The result is a multivocal multidisciplinary telling of the stories of Bodmin Moor both ancient and modern using a large number of literary genres and academic disciplines Dialogue storytelling poetry photo essays and museum exhibits all appear in the volume along with contributions from archaeologists anthropologists sociologists geologists and ecologists The result is a major synthesis of the Bronze Age settlements and ritual sites of the Moor contextualized within the Bronze Ages of southwestern and central Britain and a tracing of the changing meaning of this landscape over the past five thousand years Of obvious interest to those in British prehistory this is a substantial presentation of a groundbreaking project that will also be of interest to many concerned with the interpretation of social landscapes and the public presentation of archaeology **"A" Western Filmmakers** Henryk Hoffmann, 2024-10-16 From *High Noon* to *Unforgiven* the *A Western* represents the pinnacle of Western filmmaking More intellectual ambitious and time consuming than the readily produced B or serial Westerns these films rely
