*Seven Women* Judith Nies, 1977 Sarah Moore Grimké Harriet Tubman Elizabeth Cady Stanton Mother Jones Susan B. Anthony Mary Harris Jones Charlotte Perkins Gilman Anna Louise Strong Dorothy Day What American Women Did, 1789-1920 Linda Miles Coppens, 2015-07-25 This reference book chronicles what American women did from the emergence of the republic through the end of World War I and the passage of the Nineteenth Amendment A broad spectrum of activities are depicted showing their many accomplishments and how their activities affected the world around them It was an era of great transition for all women A who s who of American women and some men those who showed great support or ironically great opposition to women s reform are described one year at a time beginning with 1789 and ending with 1920 Each year s activities are organized into seven possible categories domesticity work education religion the arts the law and politics and joining forces The book is thoroughly indexed **Sociological Theory** Bert N. Adams, R. A. Sydie, 2001-01-30 This book connects theorists and their work to larger themes and ideas All too often in the opinion of the authors theory texts focus too much on individual theorists and insufficiently on the relationship between their theories and how these have contributed in turn to the evolution of ideas concerning social life Treatment of individual theories and theorists is balanced with the development of key themes ideas about social life introduced in Chapter 1 which then reappear in the discussion of individual theorists and their work A key organizing principle of this text is to trace major schools of thought over the past 150 years as they appear and reappear in different chapters Section 1 introductions help remind students of the big picture within which any given theory or theorist is only one part A consistent organization and presentation within chapters helps provide students with a context for learning and a means of much more easily comparing and contrasting theorists and their ideas Important new voices in a text for social theory In Chapter 2 Harriet Martineau is introduced as one of sociology s founders From then on the views of women theorists and others are represented in far more than token fashion Examples include W E B DuBois Marianne Weber Charlotte Gilman Rosa Luxemburg Joseph Schumpeter V I Lenin Niklas Luhmann Theda Skocpol Erik Wright Elman Service Arlie Hochschild Dorothy Smith Patricia Hill Collins and Immanuel Wallerstein A timeline showing when social theorists lived and wrote and connecting their biographies to important social events over 300 years is at the back of the text The organization of every chapter along similar lines provides a consistency in presentation that encourages comparisons among the theorists The authors do a very good job presenting overlooked theorists and making their relevance to social theorizing doing sociology clear Joan Alway formerly University of Miami The strengths of this text are the breadth of theories covered the integration of gender related topics family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues and the goals of the project to provide an expansive and readable theory text I have no doubt that it will find a solid position in the field of popular theory texts for undergraduate course use Kathleen Slobin North Dakota State University **The Power of Woman** Pamela R. Durso, 2003 Sarah Moore Grimké

Brown,1987 Discovering

Reality Sandra Harding,Merrill B. Hintikka †,2012-12-06 During the last decade feminist research has attempted to add understandings of women and their social activities to what we all thought we knew about nature and social life However from the very beginning of this project it has appeared to be in tension with some of the most fundamental insights of the Second Women s Movement Only recently has the nature of this tension become clear Within the theories concepts methods

and goals of inquiry we inherited from the dominant discourses we have generated an impressive collection of facts about women and their lives cross culturally and historically and we can produce many many more But these do not and cannot add up to more than a partial and distorted understanding of the patterns of women s lives We cannot understand women and their lives by adding facts about them to bodies of knowledge which take men their lives and their beliefs as the human norm Furthermore it is now evident that if women s lives cannot be understood within the inherited inquiry frameworks than neither can men s lives The attempts to add understandings of women to our knowledge of nature and social life have led to the realization that there is precious little reliable knowledge to which to add them A more fundamental project now confronts us We must root out sexist distortions and perversions in epistemology metaphysics methodology and the philosophy of science in the hard core of abstract reasoning thought most immune to infiltration by social values

**Pedagogies of Resistance** Margaret Crocco, Petra Munro Hendry, 1999 The stories of six women for whom a career in education serves as leverage to live their lives as agents of change By profiling women as educational activists the book challenges historical interpretations that have cast women as passive in the face of educational change

**Protest and Possibility in the Writing of Tillie Olsen** Mara Faulkner, 1993 Tillie Olsen s fiction and nonfiction portray with all their harsh contours the lives of people who cannot speak for themselves or whose words have been forgotten or ignored Olsen s writing is neither serene nor despairing In this sensitive thematic reading Mara Faulkner shows that its most subversive function is the assertion that human life can be other than and more than it is Olsen s promise of full creative life aims to make her readers forever dissatisfied with physical emotional and intellectual starvation Faulkner finds in Olsen s writing a triple layered pattern combining protest against oppression blight celebration of courage and strength fruit and the heartening dream of a radically transformed future world possibility She focuses on four of Olsen s main themes motherhood the relationship between men and women community and language and shows how because of social and economic circumstances potentially creative tensions become destructive contradictions motherhood stifles women s lives patriarchy and poverty turn men into enemies of women and children communities force their members into betrayal and language distorts or erases human experience Olsen reveals according to Faulkner the overlapping oppressions of class race gender nationality education and age that both link people and set them apart Yet she refuses to exalt suffering and deprivation In this comprehensive examination of a literature of social consciousness Faulkner approaches Olsen s works within their historical social and political contexts without treating them as propaganda In fact she

shows that it is Olsen's compressed poetic style that gives her writing its revolutionary power. She illuminates both the author's individual talent and the traditions in which her works were created: traditions of women writers, of color writers, of the working class, and writers who were immigrants or children of immigrants.
