Summers, Ted-Larry Pebworth, 2002 Written by various experts in the field this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth century English literature The turn into the twenty first century is an appropriate time to take stock of the state of the field and as part of that stocktaking the need arises to assess both where literary study of the early modern period has been and where it might desirably go Hence many of the essays in this collection look both backward and forward They chart the changes in the field over the past half century while also looking forward to more change in the future *The Seventeenth Century Hebrew Book (2 Vols)* Marvin J. **A Critical History of English Poetry** Herbert Grierson, J. C. Smith, 2014-01-13 This famous work was the result of the wartime collaboration of two Scottish scholars Their tracing of the course of English poetry has been described by The Times Literary Supplement as a volume of masterly compression They deliberately spend most time on the greatest poets believing that significant as traditions and influences are the great poet himself affects the spirit of his age and moulds the tradition he has inherited At the same time enough attention is paid to minor poets to make the book historically complete and to fill in the most important links in the chain of poetic development Thus Gower is here as well as Chaucer Patmore as well as Browning Both in scope and in detail A Critical History of English Poetry is a distinguished and valuable work

The Architecture of the Bight of Biafra Joseph Godlewski, 2024-03-06 The Architecture of the Bight of Biafra challenges linear assumptions about agency progress and domination in colonial and postcolonial cities adding an important sub Saharan case study to existing scholarship on globalization and modernity Intersected by small creeks rivulets and dotted with mangrove swamps the Bight of Biafra has a long history of decentralized political arrangements and intricate trading networks predating the emergence of the Atlantic world While indigenous merchants in the region were active participants in the transatlantic slave trading system they creatively resisted European settlement and maintained indigenous sovereignty until the middle of the nineteenth century Since few built artifacts still exist this study draws from a close reading of written sources travelers accounts slave traders diaries missionary memoirs colonial records and oral histories as well as contemporary fieldwork to trace transformations in the region s built environment from the sixteenth century to today With each chapter focusing on a particular spatial paradigm in this dynamic process this book uncovers the manifold and inventive ways in which actors strategically adapted the built environment to adjust to changing cultural and economic circumstances In parallel it highlights the ways that these spaces were rhetorically constructed and exploited by foreign observers and local agents Enmeshed in the history of slavery colonialism and the modern construction of race the spatial dynamics of the Biafran region have not been geographically delimited The central thesis of this volume is that these spaces of entanglement have been productive sites of Black identity formation involving competing and overlapping interests occupying multiple positions and temporalities and ensnaring real imagined and sometimes contradictory aims This book will be of interest to researchers and students of architecture architectural history urban geography African studies and Atlantic studies

Shakespeare and Language: Reason, Eloquence and Artifice in the Renaissance Jonathan Hope, 2014-09-22 This book is nothing short of brilliant It is bursting with new observations pithy readings and sensitive analyses One of Hope's skills is to show us that language is not separable from ideas both are systems of representation This is a book about words conventions artifice mythology innovation reason eloquence silence control communication selfhood dialect late style and much much more After reading Hope's book you will never read Shakespeare in the same way Professor Laurie Maguire Magdalen College Oxford Our understanding of words and how they get their meanings relies on a stable spelling system and dictionary definitions things which simply did not exist in the Renaissance At that time language was speech rather than writing a word was by definition a collection of sounds not letters and the consequences of this run deep They explain our culture's inability to fully appreciate Shakespeare's wordplay and they also account for the rift that opened up between Shakespeare and us as language came to be regarded as essentially written In *Shakespeare and Language* Jonathan Hope considers the ideas about language that separate us from Shakespeare His comprehensive study explores the visual iconography of language in the Renaissance the influence of the rhetorical tradition the extent to which Shakespeare's late style is driven by a desire to increase the subjective content of the text and contemporary ways of studying his language using computers **The Living Church**, 1952 *A Reference Guide for English Studies* Michael J. Marcuse, 2023-11-15 **A Reference Library** English Association, 1927 **The Secret History of Domesticity** Michael McKeon, 2006-12-26 Winner Association of American Publishers Professional and Scholarly Publishing Awards in Communication and Cultural Studies Taking English culture as its representative sample *The Secret History of Domesticity* asks how the modern notion of the public private relation emerged in the seventeenth and eighteenth centuries Treating that relation as a crucial instance of the modern division of knowledge Michael McKeon narrates its pre history along with that of its essential component domesticity This narrative

draws upon the entire spectrum of English people's experience. At the most public extreme are political developments like the formation of civil society over against the state, the rise of contractual thinking and the devolution of absolutism from monarch to individual subject. The middle range of experience takes in the influence of Protestant and scientific thought, the printed publication of the private, the conceptualization of virtual public society, public opinion, the market and the capitalization of production, the decline of the domestic economy and the increase in the sexual division of labor. The most private pole of experience involves the privatization of marriage, the family and the household and the complex entanglement of femininity, interiority, subjectivity and sexuality. McKeon accounts for how the relationship between public and private experience first became intelligible as a variable interaction of distinct modes of being, not a static dichotomy but a tool to think with. Richly illustrated with nearly 100 images including paintings, engravings, woodcuts and a representative selection of architectural floor plans for domestic interiors, this volume reads graphic forms to emphasize how susceptible the public-private relation was to concrete and spatial representation. McKeon is similarly attentive to how literary forms evoked a tangible sense of public-private relations among them: figurative imagery, allegorical narration, parody, the author-character reader dialectic, aesthetic distance and free indirect discourse. He also finds a structural analogue for the emergence of the modern public-private relation in the conjunction of what contemporaries called the secret history and the domestic novel. A capacious and synthetic historical investigation, *The Secret History of Domesticity* exemplifies how the methods of literary interpretation and historical analysis can inform and enrich one another.

Liberty and the Politics of the Female Voice in Early Stuart England Christina Luckyj, 2022-03-03. The female voice was deployed by male and female authors alike to signal emerging discourses of religious and political liberty in early Stuart England. Christina Luckyj's important new study focuses critical attention on writing in multiple genres to show how in the coded rhetoric of seventeenth-century religious politics the wife's conscience in resisting tyranny represents the rights of the subject and the bride's militant voice in the Song of Songs champions Christ's independent jurisdiction. Revealing this gendered system of representation through close analysis of writings by Elizabeth Cary, Aemilia Lanyer, Rachel Speght, Mary Wroth and Anne Southwell, Luckyj illuminates the dangers of essentializing female voices and restricting them to domestic space. Through their connections with parliament, with factional courtiers or with dissident religious figures, major women writers occupied a powerful oppositional stance in relation to early Stuart monarchs and crafted a radical new politics of the female voice.

Manuscript Matters Lara M. Crowley, 2018-09-05. *Manuscript Matters* illuminates responses to some of John Donne's most elusive texts by his contemporary audiences. Since examples of seventeenth-century literary criticism prove somewhat rare and frequently ambiguous, this book emphasizes a critical framework rarely used for exhibiting early readers' exegeses of literary texts: the complete manuscripts containing them. Many literary manuscripts that include poems by Donne and his contemporaries were compiled during their lifetimes, often by members of their circles. For this reason and because various early modern poems and prose works satirize topical

events and prominent figures in highly coded language attempting to understand early literary interpretations proves challenging but highly valuable. Compilers scribes owners and other readers men and women who shared in Donne's political religious and social contexts offer clues to their literary responses within a range of features related to the construction and subsequent use of the manuscripts. This study's findings call us to investigate more extensively and systematically how certain early manuscripts were constructed through analysis of such features as scripts titles sequence of contents ascriptions and variant diction. While such studies can throw light on many early modern texts exploring artefacts containing Donne's works proves particularly useful because more of his poetry circulated in manuscript than did that of any other early modern poet. Manuscript Matters engages Donne's satiric lyric and religious poetry as well as his prose paradoxes and problems. Analysing his texts within their manuscript contexts enables modern readers to interpret Donne's poetry and prose through an early modern lens. *The Unheard Prayer* Joseph Sterrett, 2012-07-26. Repeatedly Shakespeare dramatizes one who prays when no one is listening interested or even there. This study reads the scenario parallel to early modern anxieties surrounding prayer itself suggesting a vision of religious syncretism. Shakespeare imagines for his world.
