mediality of practices of public Arabic writing the study correlates the rise of Arabic as an imperial language to social interactions the negotiation between the Arab Muslim imperial elite and non Arabicized regional elites of the early Islamic empire Using layout formulae and technical terminology to trace common patterns and disruptions across sources from the Atlantic to Central Asia the volume illuminates the distinctive formal varieties of official Umayyad and early Abbasid imperial documents compared to informal Arabic writings as well as to neighboring scribal traditions in other languages The volume connects documentary practices to broader imperial policies opening an unprecedented window into the strategies of governance that lay at the core of the early Islamic empire

The 'Lost Arian History' in Late Antique and Medieval Historiography Joseph J. Reidy, 2024-05-10 This book explores the writing of church history during the early Byzantine period reconsidering the evidence for the nature and authorship of a hypothetical Arian source for many surviving medieval histories of the fourth century It considers surviving ecclesiastical histories written between the fifth and early thirteenth centuries to draw out commonalities apparently owed to this lost source and discusses attempts by modern historians to reconstruct it In doing so it convincingly argues that this Arian material likely belongs not to one work but three two chronicles and a martyrology This book therefore provides a vital reassessment of fourth century Christian historiography as well as important insights on chronicle writing in the Middle Ages

Between Empires Greg Fisher, 2011-04-14 An examination of the complex inter relationships between the Roman and Sasanid Empires and some of their Arab allies and neighbours during the last century before the emergence of Islam Greg Fisher stresses the importance of a Near East dominated by Rome and Iran for the formation of early concepts of Arab identity

East Rome, Sasanian Persia and the End of Antiquity James Howard-Johnston, 2024-10-28

The last longest and most damaging of the wars fought between East Rome and Sasanian Persia 603-628 brought the classical phase of west Eurasian history to a dramatic close. Despite its evident significance not least as the distant setting for Muhammad's prophetic mission this last great war of antiquity attracted comparatively little scholarly attention until the last decades of the twentieth century. James Howard Johnston's contributions to the subject most of which were published in out of the way places one that on al-Tabari is printed for the first time are brought together in convenient form in this volume. They strive to root history in close observation of landscape and monuments as well as careful analysis of texts. They explore the evolving balance of power between the two empires look at events through Roman, Armenian and Arab eyes and home in on the climax of the final conflict in the 620s. [Damascus After the Muslim Conquest](#) Nancy A. Khalek, 2011-09-16 Unlike other histories of the early Islamic period which focus on the political and military aspects of the conquests this book is about narrative history and the constitution of identity in the changing and dynamic landscape of the early Islamic world provided by publisher.

Muhammad Robert Spencer, 2024-09-10 Muhammad What can we really know about him? We know a great deal about Muhammad or so it seems. Islamic tradition contains an astonishing wealth of information about the founding figure of the Islamic faith and most historians take for granted that this material is generally reliable. In his latest book historian and Islamic scholar Robert Spencer shows that there is no agreement in the earliest Islamic sources about the most fundamental details of this towering figure's life. There are conflicting accounts of key details of his life including the circumstances and contents of the first revelation he claimed to have received from Allah, the year of his birth, the length of his prophetic career, the name of the angel who supposedly appeared to him and even his own name. Muhammad A Critical Biography takes a detailed look at the Islamic traditions regarding Muhammad and lays bare their contradictions, inconsistencies and incoherence. Spencer continues the groundbreaking research he began in *The Truth About Muhammad* and *Did Muhammad Exist* exposing the shocking reality of how shaky Islam's foundations really are. He meticulously explains why competing traditions may have been invented and definitively demonstrates that contrary to the complacency of establishment historians the Muhammad of Islam is more legend than history, more fable than fact. Muhammad A Critical Biography does the work that mainstream academics who are either bought by Saudi Arabia or Qatar or too afraid to depart from the herd should have done long ago. Not for the faint hearted this book will do nothing less than rock the Islamic world to its very core.

Violence in Early Islam Marco Demichelis, 2021-03-25 The concept of jihad holds a prominent place in Islamic thought and history. Beyond its spiritual meanings the term has historically been associated with the sweeping Arab Believers' conquests of the 7-8th century BCE. But given advances in our understanding of the historicity and chronology of the Qur'an and early Islamic texts is it correct to identify jihad and Islam with violent conquest? In this book Marco Demichelis explores the history of the concept of jihad in the early proto-Islamic centuries 7-8th. Deploying an interdisciplinary approach which combines the hermeneutical study of the famous Verses of the Sword within the Qur'an itself with historical writing by

Islamic chroniclers as well as non Islamic sources numismatics epigraphical and architectural evidence the book questions the relationship between the religious concept of jihad and the conquests The book argues that Christian Byzantine Foederati forbes who previously fought against the Persians may have had a formative effect on the later emergence of more bellicose rhetoric In so doing it calls into question assumptions about warlike attitudes inherent within Islamic doctrine and reveals a more nuanced and complicated history of religious violence in the pre proto and early Islamic period **Exploring the**

Economy of Late Antiquity Jairus Banaji,2016 This book contributes to a new economic history of late antiquity with tightly argued stimulating studies of class money and exchange *The Making of the Medieval Middle East* Jack

Tannous,2020-03-31 In the second half of the first millennium CE the Christian Middle East fractured irreparably into competing churches and Arabs conquered the region setting in motion a process that would lead to its eventual conversion to Islam Largely agrarian and illiterate Christians often called the simple outnumbered Muslims well into the era of the Crusades and yet they have typically been invisible in our understanding of the Middle East s history **History and**

Identity in the Late Antique Near East Philip Wood,2013-04-04 This book examines the importance of the past both real and imagined in constructing contemporary culture in the period AD 500 1000 It goes beyond history writing in a narrow sense to examine philosophy theology liturgy and jurisprudence as vehicles for tradition and the imagination of a past golden age The papers straddle the Roman Persian frontier and go well into the Islamic period together they push the boundaries of late antiquity into the varied language traditions not just Greek but also Syriac Armenian Coptic and Arabic *Medieval*

Jerusalem and Islamic Worship Amikam Elad,2021-12-06 Medieval Jerusalem and Islamic Worship treats of the holy sites of the Muslims in Jerusalem and the ceremonies and pilgrimage to these places during the early Muslim period It is based primarily on primary Arabic sources some of which have been used for the first time Emphasis is given to the works of Literature in Praise of Jerusalem an important and unique source for the history and topography of the city Many of the topics in this book have never been dealt with before e g the detailed description of the first known guide for the Muslim pilgrim to Jerusalem that dates from the 11th century and the supplementary discussion of the 16th century guide Both guides are still in manuscript and have never been published **New Rome** Paul Stephenson,2022-02-08 Modern states

have ever looked to antiquity for lessons coveting Rome s power and fearing its decline So why did Rome collapse Scientific study is providing novel answers Placing texts and artifacts alongside evidence from ice cores and ancient DNA Paul Stephenson shows the key roles of environmental disaster and pandemics in the fall of Rome *John of Damascus and Islam*

Peter Schadler,2017-12-05 How did Islam come to be considered a Christian heresy In this book Peter Schadler outlines the intellectual background of the Christian Near East that led John a Christian serving in the court of the caliph in Damascus to categorize Islam as a heresy Schadler shows that different uses of the term heresy persisted among Christians and then demonstrates that John s assessment of the beliefs and practices of Muslims has been mistakenly dismissed on assumptions

he was highly biased The practices and beliefs John ascribes to Islam have analogues in the Islamic tradition proving that John may well represent an accurate picture of Islam as he knew it in the seventh and eighth centuries in Syria and Palestine

Jacob of Edessa and the Syriac Culture of His Day Bas Ter Haar Romeny, 2009-03-31 Jacob of Edessa c 640 708 is considered the most learned Christian of the early days of Islam In all fifteen contributions to this volume written by prominent specialists the interaction between Christianity Judaism and the new religion is an important issue The articles discuss Jacob s biography as well as his position in early Islamic Edessa and give a full picture of the various aspects of Jacob of Edessa s life and work as a scholar and clergyman Attention is paid to his efforts in the fields of historiography correspondence canon law text and interpretation of the Bible language and translation theology philosophy and science The book which marks the 1300th anniversary of Jacob s death also contains a bibliographical clavis
