decisive a part in contemporary attitudes to actors The position of actresses in particular is given special consideration Many non theatrical sources are used here and there is a survey of salaries and working conditions in the theatre to show how the rising social status of the actor was matched by changes in his theatrical standing A novel area of study is covered in tracing the changing social composition of the acting profession over the period and in exploring the case histories of three generations of performers

The Happiness of the British Working Class Jamie L. Spectacle of Deformity Nadja Durbach, 2009-10-13 In 1847 during

the great age of the freak show the British periodical Punch bemoaned the public's prevailing taste for deformity This vividly detailed work argues that far from being purely exploitative displays of anomalous bodies served a deeper social purpose as they generated popular and scientific debates over the meanings attached to bodily difference Nadja Durbach examines freaks both well known and obscure including the Elephant Man Lalloo the Double Bodied Hindoo Boy a set of conjoined twins advertised as half male half female Krao a seven year old hairy Laotian girl who was marketed as Darwin's missing link the Last of the Mysterious Aztecs and African Cannibal Kings who were often merely Irishmen in blackface Upending our tendency to read late twentieth century conceptions of disability onto the bodies of freak show performers Durbach shows that these spectacles helped to articulate the cultural meanings invested in otherness and thus clarified what it meant to be British at a key moment in the making of modern and imperial ideologies and identities
