**From the Plantation to the Prison** Tara T. Green, 2008 According to George Jackson black men born in the US are conditioned to accept the inevitability of being imprisoned Being born a slave in a captive society and never experiencing any objective basis for expectation had the effect of preparing me for the progressively traumatic misfortune that led so many black men to the prison gate I was prepared for prison It required only minor psychic adjustments As Jackson writes from his prison cell his statement may seem to be only a product of his current status However history proves his point Indeed some of the most well known and respected black men have served time in jail or prison Among them are Martin Luther King Jr Malcolm X Marcus Garvey and Frederick Douglass This book is an examination of the various forms that imprisonment as a social historical and political experience of African Americans has taken Confinement describes the status of individuals who are placed within boundaries either seen or unseen but always felt A word that suggests extensive implications confinement describes the status of persons who are imprisoned and who are unjustly relegated to a social status that is hostile rendering them powerless and subject to the rules of the authorities Arguably confinement appropriately describes the status of African Americans who have endured spaces of confinement which include but are not limited to plantations Jim Crow societies and prisons At specific times these spaces of confinement have been used to oppress African Americans socially politically and spiritually Contributors examine the related experiences of Malcolm X Bigger Thomas of Native Son and Angela Davis

**Romance and Rights** Alex Lubin, 2009-07 A study of the tensions between the private and public realms of interracial relationships

Malcolm X at Oxford Union Saladin Ambar, 2014-01-09 In 1964 Malcolm X was invited to debate at the Oxford Union Society at Oxford University The topic of debate that evening was the infamous phrase from Barry Goldwater's 1964 Republican Convention speech Extremism in the defense of liberty is no vice moderation in the pursuit of justice is no virtue At a time when Malcolm was traveling widely and advocating on behalf of blacks in America and other nations his thirty minute speech at the Oxford Union stands out as one of the great addresses of the civil rights era Delivered just months before his assassination the speech followed a period in which Malcolm had traveled throughout Africa and much of the Muslim world The journey broadened his political thought to encompass decolonization the revolutions underway in the developing world and the relationship between American blacks and non white populations across the globe including England Facing off against debaters in one of the world's most elite institutions he delivered a revolutionary message that tackled a staggering array of issues the nature of national identity US foreign policy in the developing world racial politics at home the experiences of black immigrants in England and the nature of power in the contemporary world It represents a moment when his thought had advanced to its furthest point shedding the parochial concerns of previous years for an increasingly global and humanist approach to ushering in social change Set to publish near the fiftieth anniversary of his death Malcolm X at Oxford Union will reshape our understanding not only of the man himself but world politics both then and

**Memoir** Trent Masiki,2023-08-29 Despite their literary and cultural significance Afro Latino memoirs have been marginalized in both Latino and African American studies Trent Masiki remedies this problem by bringing critical attention to the understudied African American influences in Afro Latino memoirs published after the advent of the Black Arts movement Masiki argues that these memoirs expand on the meaning of racial identity for both Latinos and African Americans Using interpretive strategies and historical methods from literary and cultural studies Masiki shows how Afro Latino memoir writers often turn to the African American experience as a model for articulating their Afro Latinidad African American literary production expressive culture political ideology and religiosity shaped Afro Latino subjectivity more profoundly than typically imagined between the post war and post soul eras Masiki recovers this neglected history by exploring how and why Black nationalism shaped Afro Latinidad in the United States This book opens the border between the canons of Latino and African American literature encouraging greater intercultural solidarities between Latinos and African Americans in the era of Black Lives Matter **Abandoning the Black Hero** John C. Charles,2012-12-15

Abandoning the Black Hero is the first book to examine the postwar African American white life novel novels with white protagonists written by African Americans These fascinating works have been understudied despite having been written by such defining figures in the tradition as Richard Wright Zora Neale Hurston James Baldwin Ann Petry and Chester Himes as well as lesser known but formerly best selling authors Willard Motley and Frank Yerby John C Charles argues that these fictions have been overlooked because they deviate from two critical suppositions that black literature is always about black life and that when it represents whiteness it must attack white supremacy The authors are however quite sympathetic in the treatment of their white protagonists which Charles contends should be read not as a failure of racial pride but instead as a strategy for claiming creative freedom expansive moral authority and critical agency In an era when Negro writers were expected to protest their sympathetic treatment of white suffering grants these authors a degree of racial privacy previously unavailable to them White writers after all have the privilege of racial privacy because they are never pressured to write only about white life Charles reveals that the freedom to abandon the Negro problem encouraged these authors to explore a range of new genres and themes generating a strikingly diverse body of novels that significantly revise our understanding of mid twentieth century black writing

**America Noir** David Cochran,2016-06-21 In America Noir David Cochran details how ten writers and filmmakers challenged the social pieties prevalent during the Cold War such as the superiority of the American democracy the benevolence of free enterprise and the sanctity of the suburban family Rod Serling s The Twilight Zone featured victims of

vast faceless bureaucratic powers Jim Thompson's noir thrillers such as *The Grifters* portrayed the ravages of capitalism on those at the bottom of the social ladder Patricia Highsmith in *The Talented Mr Ripley* placed an amoral con man in an international setting implicitly questioning America's fitness as leader of the free world Charles Willeford's pulp novels such as *Wild Wives* and *Woman Chaser* depicted the family as a hotbed of violence and chaos These artists pioneered a detached ironic sensibility that radically juxtaposed cultural references and blurred the distinctions between high and low art Their refusal to surrender to the pressures for political conformity and their unflinching portrayal of the underside of American life paved the way for the emergence of a 1960s counterculture that forever changed the way America views itself

*Reckoning Day* Jacqueline Foertsch, 2013-08-30 Too often lost in our understanding of the American Cold War crisis with its nuclear brinkmanship and global political chess game is the simultaneous crisis on the nation's racial front *Reckoning Day* is the first book to examine the relationship of African Americans to the atom bomb in postwar America It tells the wide ranging story of African Americans response to the atomic threat in the postwar period It examines the anti nuclear writing and activism of major figures such as W E B Du Bois Rev Dr Martin Luther King Jr and Lorraine Hansberry as well as the placement or absence of black characters in white authored doomsday fiction and nonfiction Author Jacqueline Foertsch analyzes the work of African American thinkers activists writers journalists filmmakers and musical performers in the atomic decades of 1945 to 1965 and beyond Her book tells the dynamic story of commitment and interdependence as these major figures spoke with force and eloquence for nuclear disarmament just as they argued unassailably for racial equality on numerous other occasions Foertsch also examines the placement of African American characters in white authored doomsday novels science fiction and survivalist nonfiction such as government sponsored forecasts regarding post nuclear survival In these black characters are often displaced or absented entirely in doomsday narratives they are excluded from executive decision making and the stories often triumphant conclusions in the nonfiction they are rarely envisioned amongst the typical American survivors charged with rebuilding US society Throughout *Reckoning Day* issues of placement and positioning provide the conceptual framework abandoned at ground zero America's inner cities during the height of the atomic threat African Americans were figured in white authored survival fiction as compliant servants aiding white victory over atomic adversity while as historical figures they were often perceived as elsewhere indifferent to the atomic threat In fact African Americans position on the bomb was rarely one of silence or indifference Ranging from appreciation to disdain to vigorous opposition atomic era African Americans developed diverse and meaningful positions on the bomb and made essential contributions to a remarkably American dialogue

*The Street Was Mine* M. Abbott, 2002-12-19 This book considers a recurrent figure in American literature the solitary white man moving through urban space The descendent of Nineteenth century frontier and western heroes the figure re emerges in 1930 50s America as the tough guy *The Street Was Mine* looks to the tough guy in the works of hardboiled novelists Raymond Chandler *The Big Sleep* and James M Cain *Double Indemnity* and their popular

film noir adaptations Focusing on the way he negotiates racial and gender otherness this study argues that the tough guy embodies the promise of an impervious white masculinity amidst the turmoil of the Depression through the beginnings of the Cold War closing with an analysis of Chester Himes whose Harlem crime novels *For Love of Imabelle* unleash a ferocious revisionary critique of the tough guy tradition
