Sex And Russian Society:

Sex and Russian Society Igor' Semenovich Kon, James Riordan, 1993 The seven essays in *Sex and Russian Society* by Russians and Western scholars graphically describe the consequences of decades of sexual neglect illiteracy and repression *Sex and Russian Society* reveals that beneath the repressive model of official morality an evolution in sexual mores was taking place particularly among the young The book's most alarming though not unexpected message is that homosexuals and women are bearing the brunt of a disintegrating health care system and repressive sexual attitudes and stereotypes Katrina vanden Heuvel The Nation Here is the first serious study of the main aspects of sexuality in Russian society today with contributors from both inside and outside the former Soviet Union From the 1930s sex was kept out of the public eye in the former USSR Low contraceptive use high abortion rates intolerance toward homosexuals and inadequate measures to combat AIDS are some of the consequences of the long neglect and repression of sexual culture *The Sexual Revolution in Russia* Игорь Семенович Кон, 1995 **Sexual Diversity and the Sochi 2014 Olympics** H. Lenskyj, 2014-02-07 This book examines Russia's 2013 anti gay laws and their implications for the Sochi 2014 Olympics Lenskyj argues that Putin's Russia and the International Olympic Committee wield power in similar ways as evident in undemocratic governance fraudulent voting processes hypocrisy and absence of accountability **Reproductive Health Behaviour of Young Europeans** Nathalie Bajos, Agnès Guillaume, Osmo Kontula, Council of Europe, 2003-01-01 This publication is the second volume of a report which examines the reproductive health behaviour of young people in Europe focusing on the role of health education and promotion strategies in influencing reproductive behaviour It includes case studies from the UK Bulgaria Finland and the Russian Federation *Political and Social Writings* Cornelius Castoriadis, 1992-12-01 *Political and Social Writings* Volume 3 1961 1979 was first published in 1992 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This work offers an extraordinary wealth and variety of writings from the crucial years that followed the publication of Castoriadis's landmark text *Modern Capitalism and Revolution* The new orientation he proposed for the Socialisme ou Barbarie group centered on the emerging roles of women youth and minorities in the growing challenge to established society in the early sixties Resistance within the group to this new orientation led Castoriadis to criticize the neopaleo Marxism of Jean François Lyotard and others who ultimately left Socialisme ou Barbarie A heightened concern for ethnological issues culminated in what might be called to the embarrassment of today's poststructuralists Castoriadis's premature antistructuralism Additional texts examine the dissolution of the group itself and analyze the May 1968 rebellion of workers and students who according to their own testimony were inspired by ideas developed in the group's journal Also included were many of Castoriadis's still relevant political writings from the seventies which were developed in tandem with the more explicitly philosophical work now found in *The Imaginary Institution of Society* and *Crossroads in the Labyrinth* *Political and Social Writings* Volume 3

provides key elements for a radical renewal of emancipatory thought and action while offering an irreplaceable and hitherto missing perspective on postwar French thought *Sex in Relation to Society* Havelock Ellis,1910 *Global Perspectives on Prostitution and Sex Trafficking* Rochelle L. Dalla,Lynda M. Baker,John Defrain,Celia Williamson,2011-04-08 This book is part of a two volume set that examines prostitution and sex trafficking on a global scale with each chapter devoted to a particular country in one of seven geo cultural areas of the world The 18 chapters in this volume Volume I are devoted to examination of the commercial sex industry CSI in countries within Africa Asia Middle East and Oceania while the 16 chapters that comprise Volume II focus exclusively on Europe Latin America and North America Volume II also includes a global section which includes chapters that are globally relevant rather than those devoted to a particular country or geographic location The content of each volume as well as each chapter reflects great diversity diversity in focus writing style and personal position regarding the commercial sex industry Diversity extends to the contributors who are comprised of international scholars service providers and policy advocates representing a variety of fields and disciplines with distinct and varied frames of reference and theoretical underpinnings with regard to the commercial sex industry In addition to addressing aspects of the CSI across the globe as impacted by geography and culture authors have also provided a spectrum of implications of their work implications ranging from continued scholarship and research to legislative maneuvers and policy change to suggestions for collaboration across NGOS fieldworkers clinicians and service providers Together the 34 expertly crafted chapters provide a wealth of knowledge from which to more deeply appreciate and contemplate the global commercial sex industry By uniting contributors from around the world this book aims to build a relatively common knowledge base on global prostitution and sex trafficking **Women in Soviet Society** Gail Warshofsky Lapidus,2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978 **Bolshevik Sexual Forensics** Dan Healey,2022-11-15 In an effort to modernize criminal and civil investigations early Bolsheviks gave forensic doctors most of whom had been trained under the tsarist regime new authority over issues of sexuality Revolutionaries believed that forensic medicine could provide scientific and objective solutions to sexual disorder in the new society Bolshevik Sexual Forensics explores the institutional history of Russian and Soviet forensic medicine and examines the effects of its authority when confronting sexual disorder Healey compares sex crime investigations from Petrograd and Sverdlovsk in the 1920s to the numerous publications by forensic doctors and psychiatrists of the prerevolutionary and early Soviet periods to illustrate the role that these specialists played In addition Healey presents a fascinating look at how doctors diagnosed and treated hermaphroditism showing how Soviet physicians revolutionized the standard scientific view in these cases by taking into account individual desire This study

sheds light on unexplored radical and reactionary forces that shaped the Bolshevik sexual revolution as lawmakers defined new ways of seeing sexual crime and disorder Forensic doctors struggled to interpret the replacement of the age of consent with a standard of sexual maturity a designation that made female sexuality a collective resource not part of an individual's personality Innocence experience and virginity played a major role in the expertise doctors furnished in rape and abuse trials Psychiatrists recoiled from the language of sexual psychology in their investigations of sex criminals Yet in the clinic Soviet physicians probed the desires of the two-sexed citizen whose psychology served as the basis for a distinctly modern approach to the erasure of the hermaphrodite Healey concludes that the vision of men and women as equals after a sexual revolution was undermined from the outset of the Soviet experiment Law and medicine failed to protect women and girls from violence and Soviet medicine's physiological and biological model of sexual citizenship erased the vision of sexual self-expression especially for women This groundbreaking study will appeal to Soviet historians and those interested in gender studies sexuality medicine and forensics

The Politics of HIV/AIDS in Russia Ulla Pape, 2013-10-01 This book studies the role of civil society organisations in the fight against HIV/AIDS in Russia It looks at how Russia's HIV/AIDS epidemic has developed into a serious social economic and political problem and how according to the United Nations Programme on HIV/AIDS UNAIDS Russia is currently facing the biggest HIV/AIDS epidemic in all of Europe with an estimated number of 980 000 people living with HIV in 2009 The book investigates civil society organisations' contribution to social change and civil society development in post-Soviet Russia and thus situates a specific type of civil society actors into a broader socio-political context and questions their ability to represent civic interests particularly in the field of social policy making and health This allows for a better understanding of the dynamics of state-society relations in present-day Russia and gives insight into the ways HIV/AIDS NGOs in Russia have used transnational ties in order to exert influence on domestic policy making in the field of HIV/AIDS

Sex in Public Eric Naiman, 2019-01-15 *Sex in Public* examines the ideological poetics and the rhetoric of power in the Soviet Union during the 1920s a period of anxiety over the historical legitimacy of Soviet ideology and Bolshevik power Drawing on a wide range of sources Party Congress transcripts the classics of early Soviet literature sex education pamphlets the cinema crime reports and early Soviet ventures into popular science the author seeks to explain the period's preoccupation with crime disease and especially sex Using strategies of reading developed by literary scholars he devotes special care to exploring the role of narrative in authoritative political texts The book breaks new ground in its attention to the ideological importance of the female body during this important formative stage of Bolshevik rule *Sex in Public* provides a fundamentally new history of the New Economic Policy and offers important revisionist readings of many of the fundamental cultural products of the early Soviet period Perhaps most important it serves as a model for the sort of interdisciplinary work that is possible when historians take literary and ideology theory seriously and when ideology theorists seek to conform to the standards of documentary rigor traditionally demanded by historians It thus becomes a study that can be read as both

Health Communication in the Changing Media Landscape Ravindra Kumar Vemula, Subba Rao M Gavaravarapu, 2017-02-07 This book advances new understandings of how technologies have been harnessed to improve the health of populations whether the technologies really empower those who use information by providing them with a choice of information how they shape health policy discourses how the health information relates to traditional belief systems and local philosophies the implications for health communicators how certain forms of silence are produced when media articulates and problematizes only a few health issues and sidelines others and much more The book brings together current research and discussions on the three areas of policy practices and theoretical perspectives related to health communication approaches in developing countries presenting well researched and documented essays that will

prove helpful for academic and scholarly inquiry in this area *Male Same-Sex Relations and the Court of Peter I* Hanna Filipova, 2025-08-19 This book explores Peter I's same sex relations, men's sociability and male favoritism at the royal court in the context of the Petrine myth, scenarios of power propaganda and othering. The first part is devoted to sources, historiography, the theory of the topic and the question of why there is still no research on the male same sex relations of Peter I. The second part explores early modern Russian discussion of male same sex relations. The third part examines how the motif of Russian male same sex relations was used during the Great Northern War 1700-1721 as a tool of German-Swedish anti-Russian propaganda. This book brings a Russian perspective and Eastern European sources into the field of European queer studies and discusses the possibility of considering the topic of non-normative sexuality of the monarch and elites in Petrine Russia in a global context which has not been done before **Contemporary Translation in Transition** Maria Khotimsky, Friederike Reents, Henrieke Stahl, William Waters, 2025-01-07 This book investigates the hybrid, multiform nature of contemporary poetry with particular emphasis on recent Russian lyric and its translations into German and English. Poetry translation, thriving and obstinately open-ended, is not so much a defined process as a practice of ongoing transit across linguistic and national borders. The book's innovative format invites contemporary poets into dialogue with literary translators, editors, publishers and scholars; the conversations among their wide-ranging essays, poems and exchanges both model and investigate the work of transcultural dialogue. As a kind of transition, poetry translation engages the composition and disintegration of forms, revises relations of producers to receivers, mixes and rethinks genres and media, translates itself as multilingual writing or language experiment. Multiple translations of a poem do not compete but interact, reshaping the putative gulf between source and target language. In the end, this volume underscores the aesthetic productivity of poetry translation and the need to nurture it. A must-read for anyone interested in the dynamic interplay of poetry, language and culture 1993 Patt Leonard, Rebecca Routh, 1996 Journal articles, books, book chapters, book reviews, dissertations and selected government publications on East Central Europe and the former Soviet Union published in the United States and Canada **Russia's Carnival** Christoph Neidhart, 2003 This colorfully drawn and acutely observed book explores Russia by engaging all our senses. Today's Russia smells different from the Soviet Union. The country looks and sounds different; its touch is different and its food tastes different. Thus Christoph Neidhart argues Russia is truly a changed country from the Soviet Union. It was little more than a decade ago Russian society is rapidly urbanizing and modernizing as can be perceived by all senses, including the awareness of space and the conception of time. After almost a century, space can be privately owned and freely traded; time too has become commodified. New role models and new ways to express social status are emerging. Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete. Russia thus readies itself gradually to grow into a Western-style middle class society with a free market and democratic polity. The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of

the Communist structure of society He explores the transition s traps and shortcomings such as the privatization of politics and the looting of the state s assets and compares this process to the modernization Western society underwent a century earlier
