Theory offers an introduction to the key concepts and themes in French feminist thought both the materialist and the linguistic psychoanalytic traditions These are explored through the work of a wide range of theorists Simone de Beauvoir Chantal Chawaf Helene Cixous Catherine Clement Christine Delphy Marguerite Duras Colette Guillaumin Madeleine Gagnon Luce Irigaray Julia Kristeva Nicole Claude Mathieu Michele Montreley Monique Plaza Paola Tabet and Monique Wittig The book outlines the philosophical and political diversity of French feminism setting developments in the field in the particular cultural and social contexts in which they have emerged and unfolded **An Analysis of Michel Foucault's The History of Sexuality** Rachele Dini, Chiara Briganti, 2017-07-12 Michel Foucault is famous as one of the 20th century's most innovative

and wide ranging thinkers The qualities that made him one of the most read and influential theorists of the modern age find full expression in *History of Sexuality* the last project Foucault was able to complete before his death in 1984 Central to Foucault's appeal is the creativity of his thought Creative thinking takes many forms from redefining an issue in a novel way to making unexpected and illuminating connections Foucault's particular talent could perhaps best be described as turning questions inside out In the case of sexuality for instance his interpretation of the historical evidence led him to argue that the sexual categories that we are used to homosexual lesbian straight and so on are not natural but constructs that are products

of the ways in which power and knowledge interact in society Such categories Foucault continues actually serve to produce the desires they seek to name And their creation in turn is closely linked to the power that society exerts on those who belong to different sexual groups Foucault's ideas familiar now were so novel in their time that they proved highly challenging But to see the world through Foucault's thought is to see it in a profoundly different and illuminating way an example of creative thinking at its best

Lesbian Materialism Morgane Cadieu, Annabel L. Kim, 2023-01-01 Yale French Studies 142 explores the contemporary relevance of an alternative strand of feminism as theorized by Monique Wittig This volume of Yale French Studies foregrounds Monique Wittig 1935 2003 a writer who left France to live and teach in the United States in a diverse range of multidisciplinary conversations in literary studies history and gender and sexuality studies to demonstrate how Wittig s theoretical and literary work remains an indispensable resource for thinking and creating in the twenty first century Editors Morgane Cadieu and Annabel L Kim flip the materialist

lesbianism that Wittig's collection of essays *The Straight Mind* centers and describes as being the core of Wittig's work to deal instead with lesbian materialism thereby making lesbian the method and materialism the object and allowing Wittig's work to realize its full range. The volume reinterrogates the official historiography of French materialist feminism, expands the intellectual framework within which Wittig's work is usually considered, insists on the language-centric materialism that emerges from Wittig's writing as a way of joining the political with the literary and attends to the way this literary material inspires material responses and creations within the plastic arts. Underlying the entire volume is a keen sense of the materiality of Wittig's archives housed at the Beinecke Rare Book and Manuscript Library at Yale University as a site of lesbian thought in Wittig's radical sense of the term: a fugitive positionality. **Thinking Straight** Chrys Ingraham, 2013-05-13

As such, it provides both an overview of the field of sexuality as well as setting a new agenda for debating the topic.

Gender in Philosophy and Law Laura Palazzani, 2012-08-18. This book is an introductory systematic framework in the complex and interdisciplinary sex/gender debate focusing on philosophy of law. The volume analyses the different theories that have dealt with the gender category, highlighting the conceptual premises and the arguments of the most influential theories in the debate which have had repercussions on the field of the ethical and juridical debate with reference to intersexuality, transsexualism, transgender, homosexuality. The aim is to offer a sort of conceptual orientation in the complexity of the debate in an effort to identify the various aspects and development processes of the theories so as to highlight the conceptual elements of the theorisations to grasp the problem areas within them. It is therefore an overall synthetic and also explicative analysis but not only explicative: the aim is to outline the arguments supporting the different theories and the counter arguments too for the purpose of proposing categories to weigh up the elements and to take one's own critical stance with a methodological style that is neither descriptive nor prescriptive but critical. Simone de Beauvoir Ursula Tidd, 2004-06-02.

Drawing upon de Beauvoir's literary and theoretical texts, this is the essential guidebook for those approaching the work of this key thinker for the first time. French Feminisms Gill Allwood, 2012-09-10. In this text Gill Allwood explores theories of masculinity emerging from French feminist theories of gender and from French feminist practice concerning violence towards women, highlighting both the commonalities and the specificities of the French case. She discusses the particular concern of French theorists with seduction, their rejection of the term gender and the centrality of the difference debate. In the first part of the book Allwood separately examines feminist theories of gender and sexual difference and the problem of male violence. She goes on to consider the developments which are taking place on the

borderline between the two examining the way in which these developments have contributed to an understanding of masculinity Readdressing problems and debates that will be familiar to English speaking readers the text exposes cultural differences and similarities in the ways in which these problems are approached and it provides a detailed account of the changes in both feminist action and theory in France in recent years This analysis of feminism in France should be of interest to student and scholars in French studies European studies gender studies and cultural studies
