Sex Roles, Family & Community in Turkey İlhan Başgöz, Çiğdem Kağıtçıbaşı, 1982 **Sex Roles, Family & Community in Turkey** Çiğdem Kağıtçıbaşı, Diane Sunar, 1982 **The Patriarchal Paradox** Yeşim Arat, 1989 An investigation that reveals the paradoxical nature of the patriarchal ties that bind Turkish women politicians These women are also Muslim women expressing themselves in a political medium both secular and democratic yet in a context in which neither secular nor democratic politics is firmly embedded *Patriarchy After Patriarchy* Karl Kaser, 2008 Since the second half of the 1980s social movements which questioned the legitimacy of the hitherto seemingly stable systems of Kemalist Turkey and socialist Balkans won ground Political Islam struck Turkey in the Balkan socialist countries the dams broke and parliamentary democracies replaced monolithic socialist regimes These processes have not been gender neutral Therefore the central question is after the abolition of patriarchy and the official installation of gender equality are patriarchy and female discrimination returning in the region through the backdoor although in a modernized version **Autonomy and Dependence in the Family** Rita Liljestrom, 2003-09-02 What are the future prospects of the modern family For a long time the common image in the West has been to see the nuclear family consisting of two economically independent spouses and their children as the natural outcome of the modernization process As the hierarchies of patriarchal society vanish a social order based on equal and autonomous individuals all set for self realisation has been assumed However high rates of divorce often reported domestic violence teenagers left on their own at an early age do not harmonize very well with this idealized image Critical analysis of family order in two countries at the opposite edges of the European continent Turkey and Sweden approaches these problems and attempts to create a more realistic picture of family life in the modern world *Between Sex and Power* Göran Therborn, 2004-07-31 The institution of the family changed hugely during the course of the twentieth century In this major new work Göran Therborn provides a global history and sociology of the family as an institution and of politics within the family focusing on three dimensions of family relations on the rights and powers of fathers and husbands on marriage cohabitation and extra marital sexuality and on population policy Therborn's empirical analysis uses a multi disciplinary approach to show how the major family systems of the world have been formed and developed Therborn concludes by assessing what changes the family might see during the next century This book will be essential reading for anybody with an interest in either the sociology or the history of the family World Yearbook of Education 1994 Suzanne Lie, Lynda Malik, 1994-03-01 This study surveys the position of women in academic institutions across the world investigating the nature of the gender gap in various countries The contributors analyze data predict future trends and summarize those strategies most successful in reducing gender inequality *Fathers across Cultures* Jaipaul L. Roopnarine, 2015-08-26 This volume offers a comprehensive up to date synopsis of fathering and father child relationships in diverse regions of the world helping students and practitioners alike understand cultural variations in male parenting Interest in the role of the father and

his influence on children's development and economic well-being has grown considerably. This edited volume uses detailed accounts to provide culturally situated analysis of fathering in cultures around the world. The book's contributors, a multidisciplinary group of scholars, bring together the most recent theoretical thinking and research findings on fatherhood and fathering in cultural communities across developed, recently developed, and developing societies. They address such issues as fathering and gender equality in caregiving, concepts of masculinity in contemporary societies, fathering in various ethnic groups, immigrant fathers, fathering and childhood outcomes, and social policies as they affect and are affected by issues related to fathering. Organized geographically, the book scrutinizes major sociocultural, demographic, economic, and other factors that influence men's relationships within families. It shows how economic conditions impact men's involvement with children and considers the effects of ideological belief systems and views of spousal/partner roles and responsibilities. The analysis is underpinned by recent data that underscores the significance of fathers' involvement with and investment in the well-being of their children.

Urban Poverty in Turkey Burcu Sentürk, 2016-09-23
Gecekondu settlements or shanty towns in large Turkish cities are mostly populated by low-income families, many of which have migrated from the villages of Central Anatolia. The rise of the Islamist party AKP in the 1990s and 2000s had a large impact on how these gecekondu areas are examined and how they are perceived to reflect key issues at play in Turkish society: welfare, local identity, religious communities, and the rise of civil society. Having lived in one of these neighbourhoods in Ankara, Burcu Sentürk's book sheds light on the experience of gecekondu dwelling in Turkey. By focusing on this aspect, she brings to the fore issues such as urbanisation, modernisation, and development, as well as examining the impact these kinds of phenomena have on generation gaps and the role of women in Turkish society. By using the framework of the experience of three generations of gecekondu dwellers, Sentürk is able to chart the emergence, development, and the gradual breakdown of social relations and how the dynamics of these have changed during the course of the latter half of the twentieth century.

Understanding Social Psychology Across Cultures Peter B. Smith, Michael Harris Bond, Cigdem Kagitcibasi, 2006-01-26
This book is not an arcane tome restricted for use by specialists in cross-cultural psychology. It deals directly with what it sets out to do: How can social psychology both address and incorporate what is known about cultural constants and variations in human thought and behavior? In achieving this, the authors have delivered in spades. Their book is a must for social psychologists, whether in their roles as teachers or researchers. Importantly, it is also a valuable text for advancing students of social psychology and should be required reading for any who propose to undertake postgraduate psychological research. *Journal of Cross Cultural Psychology*. It is useful in informing interactions with those of similar or different cultures and in understanding how cultural misunderstanding can occur. For these reasons, I believe it is worth reading and would recommend *The Psychologist*. This will be my favourite text for recommending to graduate students who want to know what cross-cultural psychology is about. I wished all of their professors had read it. For example, I never saw levels of analysis explained so clearly. I was comforted by

the statement in the book that many studies in the published literature don't clearly state their level of analysis so failing to understand those articles is not only my problem. The book is impressively comprehensive and broad yet very readable up to date and practically oriented. Every source cited has been read critically and put into context. A masterpiece. Geert Hofstede. The authors of this gracefully written text have a vision of their field that incorporates but far transcends the experimental social psychology familiar to Americans. Using concepts and data from a range of cultures they address problems in developmental personality and applied psychology with a particular emphasis on cross cultural interactions and global change. Not since Roger Brown's classic has a text made social psychology so interesting. Robert R McCrae. This book is one of the best available texts on cross cultural psychology. It reviews a large amount of cross cultural studies and covers a wide range of perspectives on culture. It reveals what is unique to cross cultural psychology and reminds us that culture is central to the advancement of psychology as a discipline. Patricia M Rodriguez Mosquera Brunel University. The concept for this book is excellent. As a global society we have many pressing problems. It is wonderful to see these leading cross cultural psychologists make a highly sophisticated effort at applying the resources of social psychology to the needs of cultures throughout the world. Jim Nelson Valparaiso University USA. Illustrating ways in which culture shapes psychological processes across a wide range of social contexts. Understanding Social Psychology Across Cultures examines the strengths and limitations of the key theories, methods and instruments used in cross cultural research. The book contains a broad range of pedagogical devices including further reading and discussion questions at the end of each chapter, chapters on culture level studies, personality and developmental issues and a glossary of key terms.

Widows: The Middle East, Asia, and the Pacific Helena Znaniecka Lopata, 1987. What happens when the husband dies depends on the society, on the location of the widow in urban, rural or class terms and on the widow's own personal resources. In some societies the woman is totally dependent upon a grown son and cannot remarry; in others such as that in the United States she is more dependent upon her own resources and wishes. For some widowhood results in a great loss of status; for others it can mean loneliness and social isolation. Yet widowhood can mean greater social freedom for some women, a blooming of personality. Even grief is experienced in various ways and degrees. Thus there is no such thing as a widow type; only a great heterogeneity in widowhood as in wifehood. Volume I analyzes the support systems and life styles of widows in Australia, the Philippines, Korea, Iran, China, a Pacific island, India, Turkey and Israel. Volume II North America examines two communities in Canada, a Florida retirement community and communities in several other locations as well as the relative situations of homeowners, blacks and poor ethnic populations.

Women Workers in Turkey Saniye Dedeoglu,2007-10-24 Globalisation is often considered as not only generating jobs but also having a negative effect on those at the bottom of the labour supply chain Here Saniye Dedeoglu shows us exactly how globalisation has affected women engaged in insecure invisible and low unpaid garment work Through a close ethnographic study of women workers in Istanbul s garment industry she reveals how industries have adapted their labour demands to make use of local female labour supplies and highlights the strategies and responses that have evolved in response to contemporary changes in global industrial production in Turkey Dedeoglu shows how production for global markets has seeped into local labour markets contributing to a culture of work which is informal and whose participants are often invisible Women Workers in Turkey throws up the critical question of what it means to be a woman in today s globalised society and is an important contribution to the various perspectives on the social and economic consequences of globalization to the least privileged in industrial societies

Islamist Mobilization in Turkey Jenny White, 2011-06-01 Winner of the William A Douglass Prize in Europeanist Anthropology The emergence of an Islamist movement and the startling buoyancy of Islamic political parties in Turkey a model of secular modernization a cosmopolitan frontier and NATO ally has puzzled Western observers As the appeal of the Islamist Welfare Party spread through Turkish society including the middle class in the 1990s the party won numerous local elections and became one of the largest parties represented in parliament even holding the prime ministership in 1996 and 1997 Welfare was formally banned and closed in 1998 and its successor Virtue was banned in 2001 for allegedly posing a threat to the state but the Islamist movement continues to grow in popularity Jenny White has produced an ethnography of contemporary Istanbul that charts the success of Islamist mobilization through the eyes of ordinary people Drawing on neighborhood interviews gathered over twenty years of fieldwork she focuses intently on the genesis and continuing appeal of Islamic politics in the fabric of Turkish society and among mobilizing and mobilized elites women and educated populations White shows how everyday concerns and interpersonal relations rather than Islamic dogma helped Welfare gain access to community networks building on continuing face to face relationships by way of interactions with constituents through trusted neighbors She argues that Islamic political networks are based on cultural understandings of relationships duties and trust She also illustrates how Islamic activists have sustained cohesion despite contradictory agendas and beliefs and how civic organizations through local relationships have ensured the autonomy of these networks from the national political organizations in whose service they appear to act To illuminate the local culture of Istanbul White has interviewed residents activists party officials and municipal administrators and participated in their activities She draws on rich experiences and research made possible by years of firsthand observation in the streets and homes of Umraniye a large neighborhood that grew in tandem with Turkey s modernization in the late 20th century This book will appeal to anthropologists sociologists historians and analysts of Islamic and Middle Eastern politics
