of esoteric wisdom and cognitive science In this entertaining and dare I say it lively book David Shoemaker reminds us that Thelema is not just a philosophy or a study but a spiritual practice From applied how to advice to thought provoking how about posers Dr Shoemaker offers his personal take informed by twenty years of walking the talk along with his incisiveness as a professional therapist on how to get the most out of the fundamental Thelemic practices of yoga and ritual both inside and outside of the temple Richard Kaczynski author of *Perdurabo The Life of Aleister Crowley* **Magic of Nature** Heinz Schott, 2018-01-17 What does magic of nature mean Starting with the placebo effect and its relevance for biomedical research and clinical practice of today this treatise focusses on diverse historical concepts of the healing power of nature This topos was fundamental for natural medicine life reform movement suggestive therapy hypnotism romantic natural philosophy and mesmerism Such a retrospection leads to the crucial concept of natural magic Latin *magia naturalis* which was essential for early modern medicine and natural science At that time Nature Latin *natura* was revered as a divine creator of natural things in the service of God as a mediator of His wisdom for the inquiring humans So Nature was personified in many ways as a wise woman or magician mystically adored by alchemists At the end the study returns to the present age It reflects critically modern sexology and sexual medicine confronting them with certain spritually guided practices of sexual magic The 68 supplementary image pages stand for themselves displaying an emblematic subtext Each of them tells an own story and is more or less self explaining [Ecstasy Through Tantra](#) Jonn Mumford, 2025-08-05 Achieve Cosmic Consciousness through Sexual Ecstasy This hardcover edition of an influential classic provides sexual techniques and positions for ritual intercourse that will flood you with physical ecstasy and activate expanded states of consciousness These Tantric practices not only teach you how to build sexual love and passion to an amazing peak but also how to push your mind even higher to reach transcendental bliss With more than forty years of experience Dr Jonn Mumford helps you bring holiness and magick into your sexual relationship This book skillfully interweaves theory and practice so you can understand why you are doing each exercise as you learn potent techniques Discover the God Goddess as incarnate in your beloved and experience the same divinity within yourself through physical and spiritual union Learn how to engage in the Asanas of Love and use a powerful technique known as the Rite of Naked Fire Featuring a new introduction and a wealth of illustrations and photographs this book reveals the secrets of erotic mysticism *Authors of the Impossible* Jeffrey J. Kripal, 2024-05-31 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research

psychical researcher Frederic Myers writer and humorist Charles Fort astronomer computer scientist and ufologist Jacques Vallee and philosopher and sociologist Bertrand Russell Through incisive analyses of these thinkers Kripal ushers the reader into a beguiling world somewhere between fact fiction and fraud The cultural history of telepathy teleportation and UFOs a ghostly love story the occult dimensions of science fiction cold war psychic espionage galactic colonialism and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible* a dazzling and profound look at how the paranormal bridges the sacred and the scientific An excellent book engaging witty and thoughtful Christopher Partridge Lancaster University Kripal demands nothing short of a paradigm shift in order to make sense of the odd the anomalous and the inexplicable Catherine L Albanese University of California Santa Barbara Quietly earth shattering Victoria Nelson author of *The Secret Life of Puppets*

Art Nouveau and the Classical Tradition Richard Warren, 2017-12-14 Art Nouveau was a style for a new age but it was also one that continued to look back to the past This new study shows how in expressing many of their most essential concerns sexuality death and the nature of art its artists drew heavily upon classical literature and the iconography of classical art It challenges the conventional view that Art Nouveau's adherents turned their backs on Classicism in their quest for new forms Across Europe and North America artists continued to turn back to the ancient world and in particular to Greece for the vitality with which they sought to infuse their creations The works of many well known artists are considered through this prism including those of Gustav Klimt Aubrey Beardsley and Louis Comfort Tiffany But breaking new ground in its comparative approach this study also considers some of the movement's less well known painters sculptors jewellers and architects including in central and eastern Europe and their use of classical iconography to express new ideas of nationhood Across the world while Art Nouveau was a plural style drawing on multiple influences the Classics remained a key artistic vocabulary for its artists whether blended with Orientalist and other iconographies or preserving the purity of classical form

Sexuality and Islamic Spirituality in Early Malay Writings

Maznah Mohamad, Syahirah Rasheed, 2025-07-24 It is argued here that before the extensive formalization of sharia laws from the late nineteenth century onwards Islam was prominently influenced by elements of enchantment and mysticism mirrored in its textual portrayal of passionate and sexual relations This book's analysis is based on Malay manuscripts and texts about the body sex and sexuality These include religious guidebooks on sexual techniques and etiquette of which some are translated from the original Arabic or Persian but almost all of which have been adapted for local Malay relevance Also analyzed are collections of Malay erotic poetry from the sixteenth to nineteenth centuries and the only known female authored early twentieth century text on sex and women's sexual pleasure Over the centuries changing sexual norms and attitudes in the Malay world has disengaged sex and sexuality from being a crucial component of faith and spirituality gradually receding into the discreet margins of contemporary discourse on gender relations
