Gary Stuart,2000-10 *God says Heal* is a divinely inspired collection of essays reflecting the current state of affairs on Earth and how they affect the health and well being of all living things I've attempted to uncover some of the hidden truths both

positive and negative that are necessary components of growth and change It is my sincere belief that in exposing the negative we encourage the positive to emerge and gain strength As a healer I postulate that the human body is a microcosm of the whole universe My theories attempt to reveal the internal and external forces that often create disharmony and disease in the human body I maintain that disease itself can be a positive force necessary to attain health inner harmony balance and growth God says Heal focuses on the pertinent issues that we all encounter in our day to day lives at the dawn of this new millennium My hope is that by creating a more humane prespective to disease and suffering we will awaken to the perfection of All That Is that resides in each and everyone of us
