 Europe,2011-01-01 Inequality limits young people s chances in life Yet equality is the basis of democracy and Article 14 of
 the European Convention on Human Rights secures the rights and freedoms of the young without discrimination on any
 ground Research shows that inequality in opportunities wealth or health for example is widespread in Europe and that the
 citizens of richer countries do not necessarily have healthier profiles than those of poorer countries The citizens of
 egalitarian countries on the other hand have the highest life expectancy This book examines many aspects of inequality and
 opportunity for young people including schooling employment social exclusion labour migration trafficking disability cultural
 and religious discrimination youth work and opposition and resistance Ethics and Sex Igor Primoratz,2003-09-02 Ethics
 and Sex presents a systematic study of the nature and moral significance of human sexuality and of the major issues in sexual
 morality The book is divided into two main parts Part One gives a critical analysis of the key conceptions of human sexuality
 Part Two discusses the most important issues in sexual morality monogamy adultery prostitution homosexuality paedophilia
 sexual harassment and rape In this controversial and accessible book the author demonstrates that many of the prohibitions
 that make up conventional sexual morality cannot withstand critical scrutiny **UI Research Exchange** ,1981

Sameness examines the differing textual strategies male and female writers have developed to celebrate homosexuality. Examining such writers as E M Forster, James Baldwin, Sylvia Townsend Warner and Audre Lourde, this wide ranging book demonstrates how literature has been one of the few cultural spaces in which sexual outsiders have been able to explore forbidden desires. From the humiliating trials of Oscar Wilde to the appalling stigmatisation of people living with AIDS, Sexual Sameness reveals the persistent homophobia that has until recently almost completely inhibited our understanding of lesbian and gay writing. In opening up homosexual literature to informed and objective methods of reading, Sexual Sameness will be of interest to a large lesbian and gay readership as well as to students of gender studies, literary studies and the social sciences.
