**Punishment to the Death Penalty in China** Gui Huang, 2024-04-17 This book presents a study of alternative penalties to the death penalty in China aiming to promote theoretical exploration of death penalty reform in China as well as long term penal reform Currently China is endeavouring to control the use of the death penalty and is gradually moving towards its abolition The factors influencing the choice of the punishment option to replace the death penalty are complex and varied and include the traditional punishment culture penalty concepts the political system the punishment system public opinion and human rights etc Given the differences between China and developed Western democratic states when we examine these influencing factors we cannot ignore the culture of the punishment and the special political and legislation system in China In this light this work examined and analysed the factors that influence the choice of punishment option to replace the death penalty in this special political system with its clearly Chinese characteristics Criminal policy and public opinion are two significant and typical factors involving obvious political considerations in China The former normally reflects and carries out the will of the Government as expressed to the national management the latter responds to the majority of citizens view on the current legal system and it is to a great extent the basis for national leadership s running of the country Even though life imprisonment without release hereinafter LWOR has been stipulated by the Ninth Amendment for the crime of corruption it should not be the preferable option as the alternative sanction to the death penalty because it is a kind of cruel torture and violates the constitutional principle of human rights protection On the contrary life imprisonment with possibility of release hereinafter LWPR would be an option but the termination mechanisms for inmates should be set out in accordance with the principle of proportional justice aggravated life imprisonment can be chosen to replace the death penalty in China In addition there needs to be improvements made to the relevant criminal systems By examining China s death penalty reform and long term imprisonment reform this book not only explains the methodology of the reform theoretically but also pays attention to the issues of legislation and judicial practice This book is of interest to scholars and researchers in the fields of criminal justice penal reform issues and crime control in China **Ideology, Crime and Criminal Justice** Anthony Bottoms, Michael Tonry, 2013-01-11 In this book six leading criminologists address the central issues of ideology crime and criminal justice in a series of essays originally presented at a symposium held in honour of Sir Leon Radzinowicz in Cambridge in March 2001 This book is concerned with the key themes of the history of criminal justice the history and development of criminological thought and criminal justice policy Each of the contributed chapters makes an original and important contribution to the development of the discipline of criminology This book is valuable reading for anybody interested in the past and present of
