Aging in America Lawrence R. Samuel, 2017-03 Aging in America traces the story of aging over the course of the last half century demonstrating our culture's negative attitudes toward a natural and inevitable human process and offering a deep understanding of the subject's past in order to help anticipate its future

Life Beyond 100 C. Norman Shealy, 2006-12-28 Using today's most leading edge therapies and breakthroughs in the science of longevity C Norman Shealy one of the pioneering holistic physicians of our time shows how we can healthfully age to one hundred and beyond The idea of living well beyond one hundred years and enjoying those years in good health used to be the stuff of science fiction No longer C Norman Shealy M D Ph D whom Caroline Myss calls a wizard genius scientist mystic physician offers *Life Beyond 100* Secrets of the Fountain of Youth In this deeply learned and revolutionary book Dr Shealy provides a new concept of longevity one that reveals that we can live far longer than current science suggests Basic healthy living and the use of alternative therapies have long been touted as the way to well being but Dr Shealy takes these tenets a step further From the physiology of stress and its effect on the human mind and body to the importance of DHEA from the proven techniques of photostimulation and biofeedback training to groundbreaking suggestions for alleviating depression from Shealy's electromagnetic framework of life to his recommendations for optimal health *Life Beyond 100* presents a detailed roadmap to achieve healthy aging or youthing The result of years of clinical practice and cutting edge research *Life Beyond 100* also exposes the fallacies behind many of the claims made by the medical establishment and the pharmaceutical industry Shealy argues that rather than increasing people's life expectancy these two groups create the opposite effect consigning hundreds of thousands of people to an often miserable and premature old age by treating symptoms with an antidote prescription medicine that is often worse than the ailment itself As a counterpoint *Life Beyond 100* provides the most ambitious yet medically grounded and commonsensical longevity program available Easy to follow and supported by advanced research Dr Shealy's guide to uncovering the secrets of youthful aging redefines the concept of human longevity and offers a new vision of healthy living to one hundred and beyond

Ethical Dimensions of Geriatric Care S.F. Spicker, S.R. Ingman, Ian Lawson, 2012-12-06 There is both a timeliness and a transcendent rightness in the fact that scholars clinicians and health professionals are beginning to examine the ethics based components of decision making in health care of the elderly Ethics as the discipline concerned with right or wrong conduct and moral duty pervades hospital rooms nursing home corridors physicians offices and the halls of Congress as decisions are made that concern the allocation of health related services to individuals and groups in need In particular care of older persons recently has received disproportionate attention in discussions of ethics and clinical care Age alone of course should not generate special focus on ill individuals about whom concerns arise based on value conflicts tacitly involved in the delivery of health care Having said that age is not the principal criterion for attention to ethics based concerns in health care it must be acknowledged that old people have a high prevalence of conditions that provoke interest and put them in harm's way if value conflicts are not identified and seriously addressed Issues that concern autonomy the allocation of scarce resources inter generational competition and conflict the withholding of treatment in treatable disease and substitute and proxy decision making for the cognitively impaired all have special relevance for older persons *The Quantum Doctor* Amit Goswami, 2011-07-15 For quantum physicist Amit Goswami medicine is a timely area of application for the new science based on the primacy of consciousness This new science has a spectacular ability to integrate conventional science spirituality and healing If any field needs integration says Goswami it is medicine and healing Goswami boldly reinterprets the leading methods of alternative medicine homeopathy Chinese medicine acupuncture Ayurveda and conventional medicine in this new edition of his popular book He shows how these seemingly different models can be combined into a new system of integrative medicine and offers profound insights into the relationship between physics and consciousness This approach offers physicians and patients a whole new way of applying healthcare with a greater potential
