Looking Like a Language, Sounding Like a Race Jonathan Rosa, 2019 *Looking like a Language Sounding like a Race* examines the emergence of linguistic and ethnoracial categories in the context of Latinidad The book draws from more than twenty four months of ethnographic and sociolinguistic fieldwork in a Chicago public school whose student body is more than 90% Mexican and Puerto Rican to analyze the racialization of language and its relationship to issues of power and national identity It focuses specifically on youth socialization to U S Latinidad as a contemporary site of political anxiety raciolinguistic transformation and urban inequity Jonathan Rosa s account studies the

fashioning of Latinidad in Chicago's highly segregated Near Northwest Side he links public discourse concerning the rising prominence of U S Latinidad to the institutional management and experience of raciolinguistic identities there Anxieties surrounding Latinx identities push administrators to transform at risk Mexican and Puerto Rican students into young Latino professionals This institutional effort which requires students to learn to be and importantly sound like themselves in highly studied ways reveals administrators attempts to navigate a precarious urban terrain in a city grappling with some of the nation's highest youth homicide dropout and teen pregnancy rates Rosa explores the ingenuity of his research participants responses to these forms of marginalization through the contestation of political ethnoracial and linguistic borders

Language Through the Looking Glass Marina Yaguello,1998 To play with language is to break its rules disrupt its patterns exploit its weak points Thus paradoxically puns and spoonerisms neologisms and slogans reveal and highlight the patterns to which discourse conforms patterns which reflect the linguistic competence of language speakers Only those who have linguistics competence can play with it thus language games and the poetic use of language are underpinned by unconscious use of linguistic analysis Using Lewis Carroll's Alice as a starting point Marina Yaguello takes the reader on an unconventional voyage around language charting the major themes of linguistics on the way She shows that we can come to an understanding of language in general and of particular languages through exploring the devices of humour word games and poetry devices which reveal the unconscious linguist in all of us The result is an entertaining but rigorous introduction to language and linguistics for non specialists and students alike
