implications of the no person metaphysics Some of these seem unpalatable if not downright absurd This she argues give us reason to re evaluate both the Abhidharma metaphysics and our ordinary person related practices and concerns in light of each other by using some sort of wide reflective equilibrium Selfless Minds is a contribution to cross cultural philosophy that studies the nature of selfless minds from a place at the crossroads of different traditions and disciplines philosophy in the traditional Buddhist and contemporary Western traditions and contemporary cognitive sciences *Subject Catalog, 1977* Library of Congress, 1977 Subject Catalog Library of Congress, Sartre, Self-formation, and Masculinities Jean-Pierre Boulé, 2005 Published on the occasion of Sartre s Centenary this book helps to understand the man behind the work offering a psycho social analysis of Jean Paul Sartre with an emphasis on his masculinity It sets out to contextualize Sartre in terms of his psycho sexual formation and processes of self constitution in view of his childhood The main period under detailed study is 1905 1945 before Sartre became the Sartre It concentrates on his early childhood his teenage years in La Rochelle the years at the Ecole Normale and the first few years of his adulthood with specific attention on the war years An analysis of Sartre s relationships follows with Simone de Beauvoir and other women and men including love and sex before a postscript covering the period 1973 1980 This essay is not a reductive account It tells the story of Jean Paul Sartre from the inside out so that the achievements of one of the major intellectuals of the 20th Century can be measured against his own internal struggles
