**Looking at Pictures in the Tate Gallery** Michael Compton, 1979-01-01      **How to Look at Pictures** Sir Robert Clermont Witt, 1905      **Why We Look at Pictures** Carl Hammond Philander Thurston, 1926      **The Art of Looking at Pictures** Carl Hammond Philander Thurston, 1916      **Mark Rothko** David Anfam, 1998-09-10 This is the first volume of the catalogue raisonne of the work of Mark Rothko the abstract artist It documents Rothko s entire output of paintings on canvas and panel reproducing all the works in colour An introductory text investigates the essential features of Rothko s art

Learning to Look at Modern Art Mary Acton, 2004 This companion text to the author s *Learning to Look at Paintings* addresses some of the questions most commonly asked about modern art covering key movements of the modern and postmodern periods in a richly illustrated and engaging volume      *Learning to Look at Paintings* Mary Acton, 1997 This accessible guide to the study and appraisal of paintings shows how you can learn to look at and understand an image by analysing how it works what its pictorial elements are and how they relate to each other      **The Bloomsbury Look** Wendy Hitchmough, 2020-10-02 An in depth study of how the famed Bloomsbury Group expressed their liberal philosophies and collective identity in visual form Fascinating and wide ranging Will be enjoyed by both Bloomsbury aficionados and newcomers alike Lucinda Willan V A Magazine The Bloomsbury Group was a loose collective of forward thinking writers artists and intellectuals in London with Virginia Woolf John Maynard Keynes and E M Forster among its esteemed members The group s works and radical beliefs spanning literature economics politics and non normative relationships changed the course of 20th century culture and society Although its members resisted definition their art and dress imparted a coherent distinctive group identity Drawing on unpublished photographs and extensive new research The Bloomsbury Look is the first in depth analysis of how the Bloomsbury Group generated and broadcast its self fashioned aesthetic One chapter is dedicated to photography which was essential to the group s visual narrative from casual snapshots to amateur studio portraits to family albums Others examine the Omega Workshops as a design center and the evidence for its dress collections spreading the Bloomsbury aesthetic to the general public Finally the book considers the group s extensive participation in 20th century modernism as artists models curators critics and collectors      *Arts & Decoration* , 1921      Learning to Look Lesley D. Clement, 2000-04-01 In *Learning to Look* Lesley Clement traces the evolution of Mavis Gallant s visually evocative style through five decades of her short fictional works From her earliest explorations of displacement and the disparity between perception and reality through her later explorations of memory and history to her more recent explorations of the role of culture in a contemporary world where commercialism and madness threaten to extinguish the potential for illumination and enlightenment Gallant envisages and renders her fictional world with the techniques analogous to those of visual artists Clement shows us that Gallant s fiction of the 1940s and 1950s exhibits a keen interest in perspective and proportion achieved through concentration on line that her fiction of the 1960s and early 1970s reveals a heightened interest in

composition achieved through a focus on framing proportion and form or shape and that her fiction after the mid 1970s demonstrates the full realization of her art through attention to colour and light Gallant increasingly explores the boundaries between visible and invisible worlds as the lines shapes and colours suggested by her allusions analogies and structures give her fiction the perspective proportion density and fluidity that illuminate the printed page and challenge us as readers Alert to visual cues in Gallant s fiction we acquire a heightened perception of the manifold richness of worlds and lives that might otherwise have been relegated to the unseen and unsung The Aesthetics of Image and Cultural Form Yi Chen,2024-04-24 Offering an alternative mode of visual cultural analysis to the prevalent discursive model this book proposes to situate analysis of Image within formal analyses of culture experience Specifically the discussion draws on theories of affective aesthetics with the view of addressing the sensual form of culture i e cultural form Therefore the volume puts forward a mode of formalist analysis in visual cultural research which takes purchase on the idea of cultural form A continuum of formalist attention between Image analysis visual media industrial design and probing of cultural forms establishes the theoretical underpinning of the book These concepts are expounded through a case study which looks at formal experimentations and debates arising from 1960s avant garde artistic practices in London *The Academy and Literature* ,1903 **Searching for Gaia** Norbert Lynton,Guy Warren,John McDonald,2003 Offers an artist s view of life and art in Sydney during the better part of the 20th century His career began in pre war Sydney continued in war time Bougainville then in post war England and back in Sydney Documents the life and works of a Sydney artist who has witnessed the transition from modernism to post modernism Picture Titles Ruth Bernard Yeazell,2015-09-29 How the practice of titling paintings has shaped their reception throughout modern history A picture s title is often our first guide to understanding the image Yet paintings didn t always have titles and many canvases acquired their names from curators dealers and printmakers not the artists Taking an original historical look at how Western paintings were named Picture Titles shows how the practice developed in response to the conditions of the modern art world and how titles have shaped the reception of artwork from the time of Bruegel and Rembrandt to the present Ruth Bernard Yeazell begins the story with the decline of patronage and the rise of the art market in the seventeenth and eighteenth centuries as the increasing circulation of pictures and the democratization of the viewing public generated the need for a shorthand by which to identify works at a far remove from their creation The spread of literacy both encouraged the practice of titling pictures and aroused new anxieties about relations between word and image including fears that reading was taking the place of looking Yeazell demonstrates that most titles composed before the nineteenth century were the work of middlemen and even today many artists rely on others to name their pictures A painter who wants a title to stick Yeazell argues must engage in an act of aggressive authorship She investigates prominent cases such as David s Oath of the Horatii and works by Turner Courbet Whistler Magritte and Jasper Johns Examining Western painting from the Renaissance to the present day Picture Titles sheds new light on the ways that

we interpret and appreciate visual art      **Pleasure and the Arts** ,2005-10-27 How do the arts give us pleasure Covering a very wide range of artistic works from Auden to David Lynch Rembrandt to Edward Weston and Richard Strauss to Keith Jarrett Pleasure and the Arts offers us an explanation of our enjoyable emotional engagements with literature music and painting The arts direct us to intimate and particularised relationships with the people represented in the works or with those we imagine produced them When we listen to music look at a purely abstract painting or drink a glass of wine can we enjoy the experience without verbalising our response Do our interpretative assumptions our awareness of technique and our attitudes to fantasy get in the way of our appreciation of art or enhance it Examining these questions and more we discover how curiosity drives us to enjoy narratives ordinary jokes metaphors and modernist epiphanies and how narrative in all the arts can order and provoke intense enjoyment Pleasurable in its own right Pleasure and the Arts presents a sparkling explanation of the enduring interest of artistic expression      **Data Practices** Evelyn Ruppert,Stephan Scheel,2021-11-02 How EU data practices establish and assign people to categories and how this matters in enacting making up Europe as a population and people What is Europe and who are Europeans Data Practices approaches this contemporary political and theoretical question by treating it as a practical problem of counting Only through the myriad data practices that make up methods such as censuses can EU member states know their national populations and this in turn is utilized by the EU to understand the population of Europe But this volume approaches data practices not simply as reflecting populations but as performative in two senses they simultaneously enact that is make up a European population and by so doing intentionally or otherwise also contribute to making up a European people The book develops a conception of data practices to analyze and interpret findings from collaborative ethnographic multisite fieldwork conducted by an interdisciplinary team of social science researchers as part of a five year project Peopling Europe How Data Make a People The book focuses on data practices that involve establishing and assigning people to categories and how this matters in enacting Europe as a population and people Five core chapters explore key categories of people usual residents refugees homeless people migrants and ethnic minorities and how they come into being through specific data practices such as defining estimating recalibrating and inferring Two additional chapters address two key subject positions that data practices produce and require the data subject and the statistician subject      **Articulate Images** Richard Wendorf,1983-10-01 Articulate Images was first published in 1983 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Twenty five years ago Jean Hagstrum published a pioneering study The Sister Arts showing how the visual arts influenced the imagination of seventeenth and eighteenth century English poets Hagstrum s book suggested the intimate and sometimes troubled relationship between poetry and painting and more than any other on the subject provided a basis for subsequent development and refinement within this field of comparative studies The nine original essays in Articulate Images address
