Looking Backward A Critical Appraisal Of Communitarian Thought:

Looking Backward Derek L. Phillips, 2014-07-14 When social reformers blame the current ills of Western culture on the loss of community they often evoke an ideal past in which societies were characterized by shared values respect for tradition commitment to the common good and similar attributes Communitarians assert that community was prominent in the past and argue that reclaiming the role community formerly played is necessary to counter the negative effects of individualism and liberal thinking Considering the relevance of community for our moral and political life today Derek Phillips offers the first thorough critique of the historical often nostalgic claims that underlie dominant versions of communitarian philosophy Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Cambridge Companion to Postmodern Theology Kevin J. Vanhoozer,2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a

Zucker,1997-03-13 A wide ranging and authoritative survey of the complex issue of futile medical treatments Public Administration and Society Richard C Box,2016-09-16 Update and expanded and featuring three new readings this book provides a unique approach for instructors who want to expose their students to the social political and historical context of the practice of public administration While most introductory texts cover a wide range of topics and are oriented toward details of management technique this innovative volume focuses instead on the broader society within which public service practitioners work The author s own text is skillfully interwoven with a collection of seminal readings and documents that illuminate the key issues of past and present for public service professionals in a democratic society Public Administration and Society develops two important themes One is an emphasis on the historical development of institutions and practices giving students in depth background and knowledge to effect meaningful change The second theme involves local government and the public practitioner s role in fostering democracy citizenship citizenship and community self government Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood,P. Hallinger,2012-12-06 The first International Handbook of Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980 s combined with a widespread belief in leadership as the single most powerful contribution to such improvement The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development
