Birth of an Industry Nicholas Sammond, 2015-08-27 In Birth of an Industry Nicholas Sammond describes how popular early American cartoon

characters were derived from blackface minstrelsy He charts the industrialization of animation in the early twentieth century its representation in the cartoons themselves and how important blackface minstrels were to that performance standing in for the frustrations of animation workers Cherished cartoon characters such as Mickey Mouse and Felix the Cat were conceived and developed using blackface minstrelsy's visual and performative conventions these characters are not like minstrels they are minstrels They play out the social cultural political and racial anxieties and desires that link race to the laboring body just as live minstrel show performers did Carefully examining how early animation helped to naturalize virulent racial formations Sammond explores how cartoons used laughter and sentimentality to make those stereotypes seem not only less cruel but actually pleasurable Although the visible links between cartoon characters and the minstrel stage faded long ago Sammond shows how important those links are to thinking about animation then and now and about how cartoons continue to help to illuminate the central place of race in American cultural and social life *Screen World 2003* John Willis, 2004-02-01 *Screen World* Movie fans eagerly await each year's new edition of *Screen World* the definitive record of the cinema since 1949 Volume 54 provides an illustrated listing of every American and foreign film released in the United States in 2002 all documented with more than 1000 photographs The 2003 edition of *Screen World* features such notable films as *Chicago* the Academy Award winner for Best Picture Martin Scorsese's Academy Award nominated *Gangs of New York* *The Pianist* featuring the surprise Academy Award winners Adrien Brody for Best Actor and Roman Polanski for Best Director *Spider Man* the highest grossing film of 2002 *The Hours* with Academy Award winner for Best Actress Nicole Kidman and *About Schmidt* starring Academy Award nominee Jack Nicholson and Kathy Bates As always *Screen World*'s outstanding features include photographic stills and shots of the four Academy Award winning actors as well as all acting nominees a look at the year's most promising new screen personalities complete filmographies cast and characters credits production company date released rating and running time and biographical entries a priceless reference for over 2 400 living stars including real name school and date and place of birth Includes over 1 000 photos The enduring film classic *Variety*
