Garrity,1991 Educational resource for teachers parents and kids **Ecology and Literatures in English** Françoise Besson,2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare s theatre to ecopoetics from travel writing to detective novels from children s books to novels all literary genres show that literature responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts Dr. Seuss Philip Nel,2005-01-01 Philip Nel takes a fascinating look into the key aspects of Seuss s career his poetry politics art marketing and place in the popular imagination Nel argues convincingly that Dr Seuss is one of the most influential poets in America His nonsense verse like that of Lewis Carroll and Edward Lear has changed language itself giving us new words like nerd And Seuss s famously loopy artistic style what Nel terms an energetic cartoon surrealism has been equally important inspiring artists like filmmaker Tim Burton and illustrator Lane Smith from back cover *Theodor Geisel* Donald E. Pease,2010-03-10 Dr Seuss s infectious rhymes fanciful creatures and roundabout plots not only changed the way children read but imagined the world And to Think That I Saw It On Mulberry Street Green Eggs and Ham The Cat and the Hat these and other classics have sold hundreds of millions of copies and entertained children and adults for decades After graduating from Dartmouth Theodor Geisel used his talents as an ad man political provocateur and social satirist gradually but irrevocably turning to children s books Theodor SEUSS Geisel tells the unlikely story of this remarkable transformation In this compact and engrossing biography Donald Pease reveals the evolution of Dr Seuss s creative persona while offering an honest appraisal of his life The book also features many of Dr Seuss s lesser known illustrations including college drawings insecticide ads and wartime political cartoons all of which offer a glimpse of his early artistic style and the visual origins of the more famous creatures that later populated his children s books As Pease traces the full arc of Dr Seuss s prolific career he combines close textual readings of many of Dr Seuss s works with a unique look at their genesis to shed new light on the enduring legacy of America s favorite children s book author **Experiencing Environment and Place through Children's Literature** Amy

Cutter-Mackenzie, Phillip Payne, Alan Reid, 2014-06-11 Recent scholarship on children's literature displays a wide variety of interests in classic and contemporary children's books. While environmental and ecological concerns have led to an interest in ecocriticism, as yet there is little on the significance of the ecological imagination and experience to both the authors and readers young and old of these texts. This edited collection brings together a set of original international research-based chapters to explore the role of children's literature in learning about environments and places with a focus on how children's literature may inform and enrich our imagination, experiences, and responses to environmental challenges and injustice. Contributions from Australia, Canada, USA, and UK explore the diverse ways in which children's literature can provide what are arguably some of the first and possibly most formative engagements that some children might have with nature. Chapters examine classic and new storybooks, mythic tales, and image-based and/or written texts read at home, in school, and in the field. Contributors focus on exploring how children's literature mediates and informs our imagination and understandings of diverse environments and places and how it might open our eyes and lives to other presences, understandings, and priorities through stories, their telling, and re-telling, and their analysis. This book was originally published as a special issue of Environmental Education Research.

Real Writing Mitchell Nobis, Daniel Laird, Carrie Nobis, Dawn Reed, Dirk Schulze, 2016-09-23 High school writing prompts often ask students to provide overly simplified responses to complicated issues, but a person's stance in the real world can rarely, if ever, be reduced to agree or disagree. Arguments are complex with more than two points of view and a range of evidence to consider. However, writing classes don't always embrace that complexity. Real Writing: Modernizing the Old School Essay contends that engaging fully with complex texts and difficult, nuanced arguments helps students become better thinkers and writers, more fully prepared for life both in and after high school. By offering students current texts to read and issues to discuss, teachers introduce their students to more complex arguments. Real Writing: Modernizing the Old School Essay recognizes the value of various types of texts, but the need for contemporary readings in our literature and composition classes is important for relevancy related to student engagement, the Common Core State Standards, and participation in our democratic society. This book shares curricular moves to engage students in reading and writing authentic arguments.
