Weingarden, 1987 Shows and describes the eight banks designed by influential Chicago architect Louis Sullivan and discusses his approach to design **Louis Sullivan's Merchants National Bank** Bill Menner, 2007 Louis H Sullivan 1856 1924 was a prominent practitioner in the Chicago school of architecture Recognized as the father of the American skyscraper Sullivan believed that ornamentation should arise naturally or organically as Frank Lloyd Wright who worked for and revered Sullivan would later say from the larger design After creating a number of high profile big city structures Sullivan turned his skills toward small midwestern towns where he designed several jewel box banks so called for their compact size simplicity and use of stained glass windows One of these Merchants National Bank in Grinnell Iowa serves as a shining example of the organic ornamentation characterizing Sullivan's exquisite and functional style The Old Home Joseph R. Tebben, 2014-04-01 One hundred years ago a local banker and a world renowned architect came together to build a striking new facility for The Home Building Association Company in Newark Ohio The Old Home celebrates the centennial of this collaboration by exploring the parallel lives of the banker Emmet Baugher and the architect Louis Sullivan and by reviewing the history and legacy of the remarkable building they created in downtown Newark In addition two chapters place The Old Home and its aesthetics in the context of Sullivan's time and his philosophy of form follows function The Old Home is the first comprehensive account of the Newark bank one of eight small town banks built by Louis Sullivan in his twilight years Dismissed by Frank Lloyd Wright as the remnants of Sullivan's genius these banks are now considered to be the magnificent culmination of his career The Old Home examines the built environment that surrounded the bank when it was built in 1914 1915 and again as this book was being written in 2013 2014 and it integrates newly recovered documents including Sullivan's original cost estimates with other historical evidence to tell the story of Newark's architectural jewel box Joseph Tebben is a retired professor of classics He has been a resident of Newark Ohio for more than forty years Book jacket **The Public Papers** Louis Sullivan, 1988-04-14 This volume brings together for the first time all the papers Louis Sullivan intended for a public audience from his first interview in 1882 to his last essay in 1924 Organized chronologically these speeches interviews essays letters to editors and committee reports enable readers to trace Sullivan's development from a brash young assistant to Dankmar Adler to an architectural elder statesman Robert Twombly an authority on Sullivan's work and life has introduced each document with a headnote explaining its significance locating it in time and place and examining its immediate context He has also provided a general introduction that analyzes Sullivan's writing style and objectives his major philosophical themes and the sources of his ideas With the help of headnotes and introduction readers will get a thorough sense of Sullivan's concerns discover how his ideas evolved and changed and appreciate the circumstances under which new interests emerged This collection is a handy introduction to the full range of Sullivan's thinking the book with which readers interested in the architect's writings should begin As a companion volume to
