**Building Louisiana** Robert D. Leighninger Jr., 2009-09-18 Robert D Leighninger Jr believes there may be a model for municipal building projects everywhere in the ambitious and artful structures erected in Louisiana by the Public Works Administration In the 1930s the PWA built a tremendous amount of infrastructure in a very short time Most of the edifices are still in use yet few people recognize how these schools courthouses and other great structures came about Building Louisiana documents the projects one New Deal agency erected in one southern state and places these in social and political context Based on extensive research in the National Archives and substantial field work within the state Leighninger has gathered the story of the establishment of the PWA and the feverish building activity that ensued He also recounts early tussles with Huey Long and the scandals involving public works discovered during the late New Deal The book includes looks at individual projects of particular interest Big Charity hospital the Carville leprosy center the Shreveport incinerator and the LSU sugar plant A concluding chapter draws lessons from the PWA s history that might be applied to current political concerns Also included is an annotated inventory of every PWA project in the state Finally this composite picture honors those workers and policymakers who in a time of despair expressed hope for the future with this enduring investment

**Wizards** Brian Fairbanks, 2022-10-15 A corrupt old Democrat A surging Republican populist The Democrat hounded by corruption allegations the Republican dogged by business failures and ties to white supremacists The Republican turned out thousands of screaming supporters for speeches blaming illegal immigrants and crime on the Democrats and the Democrat plummeted in the polls Sound familiar The 91 Louisiana Governor s race was supposed to be forgettable But when former KKK Grand Wizard David Duke shocked the nation by ousting incumbent Republican Governor Buddy Roemer in the primary the world took notice Democrat Edwin Edwards a former three term governor and two time corruption defendant was left alone to face Duke in the general election and he was going

to lose Then a little known state committeewoman stepped in with evidence of Duke s nefarious past Could her evidence be enough to sway the minds of fired up voters or would Louisiana welcome a far right radical into the highest office in the state Journalist Brian Fairbanks explores how the final showdown between Duke and Edwards in November 1991 led to a major shift in our national politics as well as the rise of the radical right and white supremacist groups and how history repeated itself in the 2016 presidential election The story of these political wizards almost forgotten by history remains eerily prescient and disturbingly relevant and a compulsive page turner

*The Architects of Toxic Politics in America* Kenneth T. Walsh,2024-04-16 The Architects of Toxic Politics in America Venom and Vitriol explains the history of poison politics in America by profiling some of the key political attack dogs who have shaped the modern landscape Comparing and contrasting the Trump and Biden presidencies with administrations of the past the book explains the unique character of the current toxic political moment and the forces that have created it The book also focuses quite extensively on non presidential architects of toxic politics other politicians campaign strategists activists and media figures and a few key figures that have fulfilled two or more of these roles Drawing on his long career as a journalist specializing in presidential coverage Kenneth T Walsh argues that due to the complex often conflicting nature of American government the angriest most decisive voices can command media voter and legislative attention and thereby maintain and consolidate power This results in frustration alienation and cynicism and ultimately a diminishment of voter participation that can reinforce the vicious cycle and lead to electoral disaster For anyone interested in politics media and the culture of gotcha journalism this book will also be a valuable addition to undergraduate and graduate courses on politics the presidency political and media ethics campaign history and government

Daniel Joseph Singal, 2014-02-01 The years after World War I saw a different sort of war in the American South as Modernism began to contest the New South Creed for the allegiance of Southern intellectuals In The War Within Daniel Joseph Singal examines the struggle between the characteristic culture of twentieth century America and the South's tenacious blend of Victorianism and the Cavalier myth He explores the lives and works of historians Ulrich B Phillips and Broadus Mitchell novelists Ellen Glasgow William Faulkner and Robert Penn Warren publisher William T Couch sociologists Howard Odum Rupert Vance Guy Johnson and Arthur Raper and Agrarian poets John Crowe Ransom Donald Davidson and Allen Tate The drama Singal unfolds is as much national as regional in its implications His sophisticated and original analysis of the complex relationship between these southern writers and their heritage enables him to trace the transition to Modernism with unusual clarity and to address questions of major importance in American intellectual history How did Modernism come into

being Does it display a fundamental underlying pattern What are its essential values beliefs and assumptions Singal marshals archival and published sources and combines them with oral history interviews to trace this process of change on the levels of both formal thought and individual experience He uses the interwar South as the locale for a pioneering examination of the momentous change that has affected all of Western culture      **Machine Art, 1934** Jennifer Jane Marshall, 2019-01-23 In 1934 New York's Museum of Modern Art staged a major exhibition of ball bearings airplane propellers pots and pans cocktail tumblers petri dishes protractors and other machine parts and products The exhibition titled Machine Art explored these ordinary objects as works of modern art teaching museumgoers about the nature of beauty and value in the era of mass production Telling the story of this extraordinarily popular but controversial show Jennifer Jane Marshall examines its history and the relationship between the museum's director Alfred H Barr Jr and its curator Philip Johnson who oversaw it She situates the show within the tumultuous climate of the interwar period and the Great Depression considering how these unadorned objects served as a response to timely debates over photography abstract art the end of the American gold standard and John Dewey's insight that how a person experiences things depends on the context in which they are encountered An engaging investigation of interwar American modernism Machine Art 1934 reveals how even simple things can serve as a defense against uncertainty      **New Deal / New South** Anthony J. Badger, 2007-06-01 The twelve essays in this book several published here for the first time represent some of Tony Badger's best work in his ongoing examination of how white liberal southern politicians who came to prominence in the New Deal and World War II handled the race issue when it became central to politics in the 1950s and 1960s Franklin Roosevelt in the 1930s thought a new generation of southerners would wrestle Congress back from the conservatives The Supreme Court thought that responsible southern leaders would lead their communities to general school desegregation after the Brown decision John F Kennedy believed that moderate southern leaders would with government support facilitate peaceful racial change Badger's writings demonstrate how all of these hopes were misplaced Badger shows time and time again that moderates did not control southern politics Southern liberal politicians for the most part were paralyzed by their fear that ordinary southerners were all too aroused by the threat of integration and were reluctant to offer a coherent alternative to the conservative strategy of resistance
