Politics and Identity Formation in Southeastern Nigeria Apollos O. Nwauwa,Ogechi E. Anyanwu,2019-05-20 Scholarly studies on the Igbo have been scant and fragmented Politics and Identity Formation in Southeastern Nigeria The Igbo in Perspective fills an obvious gap exploring the social cultural economic political and aesthetic traditions that distinguish the Igbo of southeasternNigeria from their neighbors In scope content and analysis this book is both multi and cross disciplinary focusing on the experiences and forces that have shaped the Igbo society identity formation and sociocultural political and aesthetic representations Themes such as the importance ofIgbo names in understanding the people s social linguistic religious gender and cultural identities as well as the intersection of language politics socialization education and aesthetic expression in the Igbo experience in Nigeria are interrogated in a refreshing fashion with an appreciable level of originality **Western European Museums and Visual Persuasion** J. Donald Ragsdale,2020-07-13

Western European Museums and Visual Persuasion is an assessment of the visual persuasiveness of art museums. It demonstrates that museums are as capable of influence as speeches or advertisements are and that an awareness of this influence provides an insight into museums' cultural roles. The book considers a diverse array of institutions ranging from such national cultural icons as the Louvre, the British Museum, and the Prado to museums of partisan advocacy such as the Centre Georges Pompidou, the Tate Modern, and the Museo Nacional Centro Arte de Reina Sofia. The museums' architectural significance, the importance of their collections, and the persuasiveness of their exhibition designs are the bases for assessment. Western European Museums and Visual Persuasion is an important extension of theories of persuasion and visual communication to art history and museology. It utilizes a theory of visual signs based on the semiotics of C. S. Peirce to demonstrate that museum buildings, the art within them, and the spaces used for display all may be thought as ways of influencing society.
