## Love And Politics In Outer Space:

**Love and Politics in Outer Space** Harvey Stein, 1986      Politics and the Order of Love Eric Gregory, 2008-08-15  
Augustine for all of his influence on Western culture and politics was hardly a liberal Drawing from theology feminist theory and political philosophy Eric Gregory offers here a liberal ethics of citizenship one less susceptible to anti liberal critics because it is informed by the Augustinian tradition The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism Gregory examines a broad range of Augustine s texts and their reception in different disciplines and identifies two classical themes which have analogues in secular political theory love and related notions of care solidarity and sympathy and sin as well as related notions of cruelty evil and narrow self interest From an Augustinian point of view Gregory argues love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics In providing a constructive argument for Christian participation in liberal democratic societies Gregory advances efforts to revive a political theology in which love s relation to justice is prominent *Politics and the Order of Love* will provoke new conversations for those interested in Christian ethics moral psychology and the role of religion in a liberal society

**Love and Space in Contemporary African Diasporic Women's Writing** Jennifer Leetsch, 2021-07-16  
This book sets out to investigate how contemporary African diasporic women writers respond to the imbalances pressures and crises of twenty first century globalization by querying the boundaries between two separate conceptual domains love and space The study breaks new ground by systematically bringing together critical love studies with research into the cultures of migration diaspora and refuge Examining a notable tendency among current black feminist writers poets and performers to insist on the affective dimension of world making the book ponders strategies of reconfiguring postcolonial discourses Indeed the analyses of literary works and intermedia performances by Chimamanda Adichie Zadie Smith Helen Oyeyemi Shailja Patel and Warsan Shire reveal an urge of moving beyond a familiar insistence on processes of alienation or rupture and towards a new reparative emphasis on connection and intimacy to imagine possible inhabitable worlds

*Can Philosophy Love?* Cindy Zeiher, Todd McGowan, 2017-12-20 How can we articulate a philosophy of love This volume stages encounters between contemporary understandings of love and philosophy It considers particular continental philosophers who think about love and its relation to desire and sexuality The essays in this collection contend with philosophy and psychoanalysis as lines of thought that expose love s role in all knowledge Drawing on the work of key thinkers such as i ek Badiou Lacan Hegel Vattimo Caygill Levinas Menshikov and Marx this book puts love to work as a way of understanding the subject of desire as a figure of knowledge shaped by the event of love

*Adriana Cavarero* Elisabetta R. Bertolino, 2017-12-04 Critical legal scholars have made us aware that law is made up not only of rules but also of language But who speaks the language of law And can one lawfully speak in one s voice For the Italian philosopher Adriana Cavarero to answer these questions we must not separate who is speaking from the very act of speaking moreover we must recuperate

the material singularity and relationality of the mouth that speaks Drawing on Cavarero's work this book focuses on the potentiality of the voice for resisting law's sovereign structures For Cavarero it is the voice that expresses one's living and unrepeatable singularity in a way that cannot be subsumed by the universalities and standards of law The voice is essentially a material and singular passage of air and vibration that necessarily reveals one's uniqueness in relationality Speaking discloses this uniqueness and so one's vulnerability It therefore leads to possibilities of resistance that here bring a fresh approach to longstanding legal theoretical concerns with singularity ethics and justice

**On Agamben, Arendt, Christianity, and the Dark Arts of Civilization** Peter Iver Kaufman, 2019-10-17 Many progressives have found passages in Augustine's work that suggest he entertained hopes for meaningful political melioration in his time They also propose that his political theology could be an especially valuable resource for an ethics of democratic citizenship or for hopeful citizenship in our times Peter Kaufman argues that Augustine's political theology offers a compelling radical alternative to progressive politics He chronicles Augustine's experiments with alternative polities and pairs Augustine's criticisms of political culture with those of Giorgio Agamben and Hannah Arendt This book argues that the perspectives of pilgrims Augustine refugees Agamben and pariahs Arendt are better staging areas than the perspectives and virtues associated with citizenship and better for activists interested in genuine political innovation rather than renovation Kaufman revises the political legacy of Augustine aiming to influence interdisciplinary conversations among scholars of late antiquity and twenty first century political theorists ethicists and practitioners

**Politics of Security** Michael Dillon, 2002-01-31 In this critique of security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger Politics of Security establishes the relationship between Heidegger's radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek *asphaleia* not to trip up or fall down and a unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis Politics of Security will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger

*Love's Shadow* Paul A. Bové, 2021-01-12 A case for literary critics and other humanists to stop wallowing in their aestheticized helplessness and instead turn to poetry comedy and love Literary criticism is an agent of despair and its poster child is Walter Benjamin Critics have spent decades stewing in his melancholy What if instead we dared to love poetry to choose comedy over Hamlet's tragedy or to pursue romance over Benjamin's suicide on the edge of France of Europe and of civilization itself Paul A. Bové challenges young lit critters to throw away their shades and let the sun shine in Love's Shadow is

his three step manifesto for a new literary criticism that risks sentimentality and melodrama and eschews self consciousness The first step is to choose poetry There has been since the time of Plato a battle between philosophy and poetry Philosophy has championed misogyny while poetry has championed women like Shakespeare s Rosalind Philosophy is ever so stringent try instead the sober cheerfulness of Wallace Stevens Bov s second step is to choose the essay He praises Benjamin s great friend and sometime antagonist Theodor Adorno who gloried in writing essays not dissertations and treatises The third step is to choose love If you want a Baroque hero make that hero Rembrandt who brought lovers to life in his paintings Putting aside passivity and cynicism would amount to a revolution in literary studies Bov seeks nothing less and he has a program for achieving it *Munsey's Magazine* ,1902 Munsey's Weekly ,1902 **Munsey's Magazine for ...** ,1902 **The**

**Politics of Performance in Early Renaissance Drama** Greg Walker,1998-09-10 Analyses the role of drama in English and Scottish court politics during the sixteenth century **Action and Appearance** Anna Yeatman,Charles Barbour,Phillip Hansen,Magdalena Zolkos,2011-04-21 Action and Appearance is a collection of essays that look into the crucial and complex link between action and appearance in Hannah Arendt s political thought Contributed by respected scholars the essays articulate around the following themes the emergence of political action when questioning the nature of law subjectivity and individuality the relationship between ethics and politics the nexus of co appearance thinking and truth and Arendt s writing as action and appearance For Arendt action is a worldly public phenomenon that requires the presence of others to have any effect Therefore to act is more than to decide as it is also to appear Much has been said about Arendt s theory of action but little attention has been paid to her approach to appearance as is done in this volume Action and Appearance explores both Arendt s familiar texts and previously unpublished or recently rediscovered texts to challenge the established readings of her work Adding to established debates it will be a unique resource to anyone interested in Hannah Arendt political thought political theory and political philosophy **Politics of Empathy** Anthony M. Clohesy,2013-09-05 The Politics of Empathy argues that empathy is a necessary condition for ethical subjectivity and the emergence of a more compassionate world One of the reasons empathy is important is because it gives us a sense of what it is like to be someone else However to understand its ethical significance we need to look elsewhere This book claims that empathy is ethically significant because uniquely it allows us to reflect critically on the nature of our own lives and sense of identity More specifically it allows us to reflect critically on the contingency finitude and violence that define existence It is argued that without this critical reflection a more ethical and democratic world cannot come into being Our challenge today therefore is to establish the social and political conditions in which empathy can flourish This will be a difficult task because powerful political and cultural forces are reinforcing the divisions between us rather than encouraging us to come together in a cosmopolitan community of mutual recognition and solidarity However despite these limits there is hope for a brighter future The book argues that this can only come about if the Left accepts its responsibility to articulate the contours of a new politics of internationalism and establish

the foundations of a sustainable ethical community in which strangers will be accepted unconditionally This work will be of interest to students and scholars of political theory multiculturalism and international relations [Living With the Other](#) Avi Sagi,2019-01-13 The book grapples with one of the most difficult questions confronting the contemporary world the problem of the other which includes ethical political and metaphysical aspects A widespread approach in the history of the discourse on the other systematically formulated by Emmanuel Levinas and his followers has invested this term with an almost mythical quality the other is everybody else but never a specific person an abstraction of historical human existence This book offers an alternative view turning the other into a real being through a carefully described process involving two dimensions referred to as the ethic of loyalty to the visible and the ethic of inner retreat Tracing the course of this process in life and in literature the book presents a broad and lucid picture intriguing to philosophers and also accessible to readers concerned with questions touching on the meaning of life ethics and politics and particularly relevant to the burning issues surrounding attitudes to immigrants as others and to the relationship with God the ultimate other **Political Judgement**

**(Routledge Library Editions: Political Science Volume 20)** Ronald Beiner,2013-06-17 Originally published in 1983 One of the basic capacities of man as a political being is his faculty of judgement Yet for all the books on concepts like freedom equality and authority surprisingly little attention has been given to this topic in the tradition of Western political thought What is the nature of political judgement What endows us as human beings with the ability to make reasonable judgements about human affairs and to judge the common world we share with others By what means do we secure validity for our judgements What are the underlying conditions of this human capacity and what implications does it have for the understanding of politics These questions central as they are to any reflection on politics have rarely been addressed in a systematic way This book examines Kant's concept of taste and Aristotle's concept of prudence as well as recent works of political philosophy by Arendt Gadamer and Habermas all crucially influenced by Kant and Aristotle **Producing Politics** Daniel

Laurison,2022-06-14 The first book to uncover the hidden and powerful role campaign professionals play in shaping American democracy by delving into the exclusive world of politicians through off the record interviews We may think we know our politicians but we know very little about the people who create them Producing Politics will change the way we think about our country's political candidates the campaigns that bolster them and the people who craft them Political campaigns are designed to influence voter behavior and determine elections They are supposed to serve as a conduit between candidates and voters politicians get to know communities communicate their concerns to candidates and encourage individuals to vote However sociologist Daniel Laurison reveals a much different reality campaigns are riddled with outdated strategies unquestioned conventional wisdom and preconceived notions about voters that are more reflective of campaign professionals' implicit bias than the real lives and motivations of Americans Through over 70 off the record interviews with key campaign staff and consultants Laurison uncovers how the industry creates a political environment that is confusing

polarizing and alienating to voters Campaigns are often an echo chamber of staffers with replicate backgrounds and ideologies most political operatives are white men from middle to upper class backgrounds who are driven more by their desire to climb the political ladder than the desire to create an open conversation between voter and candidate Producing Politics highlights the impact of national campaign professionals in the US through a sociological lens It explores the role political operatives play in shaping the way that voters understand political candidates participate in elections and perceive our democratic process and is an essential guide to understanding the current American political system Saturday Review of Politics, Literature, Science and Art ,1914 *Another Love* Asma Abbas,2018-10-15 In a time when our loves feel conscripted and exhausted by what we often do not remember desiring *Another Love* A Politics of the Unrequited explores the form method imperatives and inflections of love in the global post colony and offers a way to re apprehend and re inscribe love in an anticolonial materialist and nonfascist politics and aesthetics The figure of the unrequited is invoked as a symptom of a brutally loveless yet effusively sentimentalized era and also as an ineluctable yet very concrete political location in the face of both the intensifying external realities of war occupation apartheid austerity and terror as well as the increasingly normalized internalizations of ordinary imperialism nationalism neoliberalism fascism and colonialism all of which seem bent on extinguishing the possibility of relation itself The book asks that we look at practices of love and other material labors that yield and sustain these realities within complex lifeworlds indeed those which sustain entire systems of our subjection extraction and disposability such as colonialism capitalism liberalism and fascism as lifeworlds especially when given dominant forms of recognition affection embrace and belonging are unacceptable or even repulsive Distancing itself from shortcuts afforded by love s abstract forms deployed in ethical and moral discourses that at once elevate it yet wholly reduce it to a timeless apolitical essence *Another Love* sees love as a material and political relation to time and space signaling willed and unwilled shifts in historical reality in societies juggling various wars and annihilations It maintains that love is something in and with which we confess our complicities not only with but also against hegemonic notions of belonging devotion martyrdom hospitality publicity collectivity and solidarity nurtured and harvested under capital and colony The longing and the love missed by the pernicious and reactionary politics both of liberal democracy and the incidental fascisms that it claims to set out to fix can give us clues into past present and future moments of rebellion resistance rejection and redemption that are crucial to a liberatory anticolonial and antifascist politic and to rethinking attachment desire and relation itself **The Saturday Review of Politics, Literature, Science and Art** ,1872
