Love in the Time of Algorithms Dan Slater,2013-01-24 If online dating can blunt the emotional pain of separation if adults can afford to be increasingly demanding about what they want from a relationship the effect of online dating seems positive But what if it's also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability a paradox of choice that keeps us chasing the illusive bunny around the dating track It's the mother of all search problems how to find a spouse a mate a date The escalating marriage age and declining marriage rate mean we're spending a greater portion of our lives unattached searching for love well into our thirties and forties It's no wonder that a third of America's 90 million singles are turning to dating Web sites Once considered the realm of the lonely and desperate sites like eHarmony Match OkCupid and Plenty of Fish have been embraced by pretty much every demographic Thanks to the increasingly efficient algorithms that power these sites dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless Now anyone young old straight gay and even married can search

for exactly what they want connect with more people and get more information about those people than ever before As journalist Dan Slater shows online dating is changing society in more profound ways than we imagine He explores how these new technologies by altering our perception of what's possible are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life Like the sexual revolution of the 1960s and 70s the digital revolution is forcing us to ask new questions about what constitutes normal Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away Can commitment thrive in a world of unlimited choice Can chemistry really be quantified by math geeks As one of Slater's subjects wonders What's the etiquette here Blending history psychology and interviews with site creators and users Slater takes readers behind the scenes of a fascinating business Dating sites capitalize on our quest for love but how do their creators' ideas about profits morality and the nature of desire shape the virtual worlds they've created for us Should we trust an industry whose revenue model benefits from our avoiding monogamy Documenting the untold story of the online dating industry's rise from ignominy to ubiquity beginning with its early days as computer dating at Harvard in 1965 Slater offers a lively entertaining and thought provoking account of how we have for better and worse embraced technology in the most intimate aspect of our lives Love in the Time of

Communism Josie McLellan,2011-09 This pioneering study explores the surprising extent and limits of the GDR's forgotten sexual revolution **Love in the Time of War** Gordon Dykstra,2025-04-09 In the middle of a deep depression two

teenagers fell in love and against all odds planned a life together Just when the depression retreated somewhat and their plans could be realized they were swept aside by the dangers and cruelties of a world war The treacherous invasion of the Netherlands by the armed forces of Nazi Germany in 1945 wrecked their plans for a peaceful life Instead their plans were thrown asunder and their lives were taken up in the maelstrom of the resistance to Nazi rule In spite of hopeless times the young couple persevered They married and started a family in the bleakest of times They resisted a dominant autocratic occupation They suffered the loss of two brothers at the hands of treacherous fellow countrymen who did the bidding of the Nazi occupiers Yet the young couple's devotion to their faith to each other and to their fellow countrymen triumphed over five years of evil Love in the Time of Hate Susana Porras,2025-07-08 Love in the Time of Hate chronicles a budding love

Larson, 2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing's most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia's historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia's experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia's rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members **Love in the Time of AIDS** Mark Hunter, 2021-12-22 In some parts of South Africa more than one in three people are HIV positive *Love in the Time of AIDS* explores transformations in notions of gender and intimacy to try to understand the roots of this virulent epidemic By living in an informal settlement and collecting love letters cell phone text messages oral histories and archival materials Mark Hunter details the everyday social inequalities that have resulted in untimely deaths Hunter shows how first apartheid and then chronic unemployment have become entangled with ideas about femininity masculinity love and sex and have created an economy of exchange that perpetuates the transmission of HIV AIDS This sobering ethnography challenges conventional understandings of HIV AIDS in South Africa **Love in the Time of Jin** Karin De Haven, 2020-12-22 Will she be stuck in the past forever Eighteen year old Esme uses her last wish to help her genie Jin which sends her back in time to Victorian England Esme is there to confront Roderick Jin's former master and it may be the biggest mistake she's ever made With no wishes left Esme is stuck in the past possibly forever Just as she is getting used to living in Victorian times Jin's troubles with his former master turn deadly Esme and Jin have two enemies to face Roderick full of revenge for the loss of his magician powers and the genie High Council who want to destroy Jin for breaking the genie rules and running off with Esme Can love conquer all like in the fairy tales Find out more in *Love in the Time of Jin* the third and final book in the *Time is Forever* Series by author Karin De Haven If you enjoy young adult time travel romances that are filled with magic and adventure that
