Love and napalm, export U.S.A James G. Ballard, 1972 **J.G. Ballard's Surrealist Imagination** Jeannette Baxter, 2016-12-05 Making the case that J G Ballard's fictional and non-fictional writings must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work Ballard's appropriation of diverse Surrealist aesthetic forms and political writings Baxter suggests are mobilised to contest official narratives of postwar history and culture and offer a series of counter-historical and counter-cultural critiques Thus Ballard's work must be understood as an exercise in Surrealist historiography that is politically and ethically engaged Placing Ballard's illustrated texts within this critical framework permits Baxter to explore the effects of photographs drawings and other visual symbols on the reading experience and the production of meaning Ballard's textual spectacles raise a variety of questions about the shifting role of the reader and the function of the written text within a predominantly visual culture while acknowledging the visual contexts of Ballard's Surrealist writings allows a very different historical picture of the author and his work to emerge **K-punk** Mark Fisher, 2018-11-13 A comprehensive collection of the writings of Mark Fisher 1968-2017 whose work defined critical writing for a generation This comprehensive collection brings together the work of acclaimed blogger writer political activist and lecturer Mark Fisher aka k punk Covering the period 2004-2016 the collection will include some of the best writings from his seminal blog k punk a selection of his brilliantly insightful film television and music reviews his key writings on politics activism precarity hauntology mental health and popular modernism for numerous websites and magazines his final unfinished introduction to his planned work on Acid Communism and a number of important interviews from the last decade Edited by Darren Ambrose and with a foreword by Simon Reynolds *Deleuze and the Schizoanalysis of Literature* Ian Buchanan, Tim Matts, Aidan Tynan, 2015-02-26 In 1972 the French theorists Deleuze and Guattari unleashed their collaborative project which they termed schizoanalysis upon the world Today few disciplines in the humanities and social sciences have been left untouched by its influence Through a series of groundbreaking applications of Deleuze and Guattari's work to a diverse range of literary contexts from Shakespeare to science fiction this collection demonstrates how schizoanalysis has transformed and is transforming literary scholarship Intended for upper level undergraduates postgraduates and scholars with an interest in continental philosophy literary theory and critical and cultural theory Deleuze and the Schizoanalysis of Literature is a cutting edge volume featuring some of the most original voices in the field setting the agenda for future research *J. G. Ballard* D. Harlan Wilson, 2017-11-10 Prophetic short stories and apocalyptic novels like *The Crystal World* made J G Ballard a foundational figure in the British New Wave Rejecting the science fiction of rockets and aliens he explored an inner space of humanity informed by psychiatry and biology and shaped by surrealism Later in his career Ballard's combustible plots and violent imagery spurred controversy even legal action while his autobiographical 1984 war novel *Empire of the Sun* brought him fame D Harlan

Wilson offers the first career spanning analysis of an author who helped steer SF in new if startling directions Here was a writer committed to moral ambiguity one who drowned the world and erected a London high rise doomed to descend into savagery and coolly picked apart the characters trapped within each story Wilson also examines Ballard s methods his influence on cyberpunk and the ways his fiction operates within the sphere of our larger culture and within SF itself

Historical Dictionary of Science Fiction in Literature M. Keith Booker,2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature Science fiction literature has gained immensely in critical respect and attention while maintaining a broad readership However despite the fact that it is a rapidly changing field contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries including significant people

themes critical issues and the most significant genres that have formed science fiction literature This book is an excellent access point for students researchers and anyone wanting to know more about this subject Crisis and Criticism Benjamin Noys,2023-12-28 Crisis and Criticism is a series of interventions from 2009 to 2021 engaging with the literary cultural and political responses to the capitalist crisis of 2007 8 Challenging the tendency to treat crisis as natural and beyond human control this book interrogates our cultural understanding of crisis and suggests the necessity of ruthless criticism of the existing world While responses to crisis have retreated from the critical choosing to inhabit apocalyptic fantasies instead only a critical understanding of the causes of crisis within capitalism itself can promise their eventual overcoming **Phantom Communities** Scott Durham,1998 Phantom Communities reconsiders the status of the simulacrum sometimes defined as a copy of a copy but more rigorously defined as a copy that subverts the legitimacy and authority of its model in light of recent debates in literature art philosophy and cultural studies The author pursues two interwoven levels of analysis On one level he explores the poetics of the simulacrum considered as a form that internalizes repetition through close readings of a number of exemplary literary texts paintings and films from both the Anglo American and French traditions including works by Jean Genet Pierre Klossowski Ren Magritte Andy Warhol J G Ballard Balthus and Ra l Ruiz Through his readings of these works the author follows the transformations of the simulacrum showing how its vicissitudes provide an optic for remapping the postmodern canon On another level the author offers an account of the role played by the simulacrum as a theoretical concept that assumes varying analytical and ideological valences in the writings of such theorists as Jean Baudrillard Fredric Jameson Michel Foucault and Gilles Deleuze In so doing Phantom Communities intervenes in ongoing interdisciplinary debates concerning the historical and ideological limits of postmodernism as well as the utopian possibilities of art literature and philosophy in a postmodern context Moving between these debates and the interpretation of individual works the author shows how they converge on the fundamental aesthetic and ideological problem raised by the postmodern culture of the simulacrum imagining the virtual communities that at the margins of postmodern culture are at once figured and eclipsed by its proliferating images J.G. Ballard Peter Brigg,1985-01-01 Peter Brigg examines the life and work of British author J G Ballard from his science fiction to his mainstream fiction Starmont Reader s Guide 26 The Parameters of Postmodernism Nicholas Zurbrugg,2003-09-02 This ground breaking work offers a challenging and positive view of postmodern culture It draws on the author s extensive interviews with a number of leading postmodern artists writers and performers including Jean Baudrillard Samuel Beckett John Cage Phillip Glass The Parameters of Postmodernism focuses on both the prevailing negative theories of postmodernism and the more positive aspects of postmodern theory and practice The negative aspect is exemplified by the work of writers like Brecht Beckett Barthes and Baudrillard who emphasise the death of artistic innovation and the lack of a permanent reality Zurbrugg highlights the contradictions in the arguments of these writers and examines the later works in which they qualify their earlier more infamous statements The positive aspect is characterised by

artists such as Cage Glass and Monk who interweave the new postmodern media with confidence and invention and Eco Grass and Wolf who revive mythological and folkloric traditions The Parameters of Postmodernism argues that in each case high tech or revivalist postmodern creativity culminates in a highly positive synthesis of past present and futuristic materials
